

# For Breakfast Try "Sunkist" Oranges

## Luscious Tree-Ripened Fruit

It is not sufficient to know that oranges are the most healthful of all fruits. It is quite as important to know the kind of oranges that are most healthful and most palatable. The very finest California oranges are now packed under the label "Sunkist." Please serve "Sunkist" oranges at breakfast tomorrow and learn the superiority of tree-ripened, seedless, fiberless oranges over the commonplace kind. Don't fail to save the wrappers. There is so much "meat" and nourishment in "Sunkist" oranges and so little waste that, in addition to their extra fine flavor and goodness, they are really the most economical oranges to buy.

## "Sunkist" Lemons Juiciest

Lemons differ as much as oranges. Pithy, thick-skinned lemons contain very little juice. You waste money when you buy them. Please ask for "Sunkist" Lemons and note how uniformly sound each one is, and what a small percentage is skin and fiber.

## Get This Valuable Orange Spoon

Save 12 "Sunkist" orange (or lemon) wrappers and send them to us, with 12 cents to pay charges, packing, etc., and we will present you with a genuine Rogers Orange Spoon, of beautiful design and highest quality. Begin saving wrappers today. If you desire more than one, send 12 "Sunkist" wrappers and 12 cents for each additional spoon. In remitting, please send one-cent stamps when the amount is less than 24 cents; on amounts above 24 cents, we prefer money order, express order or bank draft. Don't send cash. We will be glad to send you complete list of valuable premiums. #2 honor both "Sunkist" and "Red Ball" wrappers for premiums. (32)

Some believe that an artesian flow of water will be found just below this point, while others say it is a cave which may terminate at the coulee walls, five or six miles distant. The force

continues the same regardless of the direction of the wind on the surface. The current is cold and soon chills those who stand in it.

# Cottolene

"Nature's Gift from the Sunny South"

It's too late to lock the stable when the horse has been stolen—too late to care for your stomach when indigestion is upon you. Why not take time by the forelock by dispensing with hog lard—the breeder of nine-tenths of all indigestion, and insist instead that all your food be cooked with Cottolene—a pure, vegetable shortening which makes healthy, digestible food?

Cottolene comes from the cotton fields of the Sunny South. It is a clean product, protected by patent air-tight tin pails to insure freshness and freedom from contamination. It is recommended by physicians as being fully as healthful as olive oil.
