SEVEN PLANS FOR NEW HIGH SCHOOL

Seven plans for a new high school building in this city were presented to the school board yesterday and were given consideration but, although the board met in session both in the afternoon and evening, no decision was made and another meeting will be held tomorrow night to continue deliberations. The seven plans presented were from C. E. Troutman of Aberdeen, Swingle & Wells of Portland, Charles Wood of Spokane, Theodore Howard of this city, Kroner & Henn of Portland, Henry Osterman of Walla Walla and M. C. McClaren of Portland. Several other plans are to be presented, among them one from Architect White of Baker.

According to members of the board and City Superintendent Landers, some of the plans submitted were of unusual excellence and a structure build after these designs will secure for Pendleton a beautiful as well as a strictly modern high school building.

The estimated cost of the new building will be between \$90,000 and \$100,000 and this amount will be asked from the taxpayers for that purpose. It is the intention of the board also to ask for about \$11,000 additional for the completion of the Lincoln school. At present there are but four rooms in this building and the plans of the board contemplate the construction of an addition that will secure four other rooms. If this is done the old Fields building will be abandoned as its surroundings are extremely unsanitary.
