### COMMITTEE OF TWELVE WATCH TAX MEASURES

Salem, Ore., Feb. 17.—In addition to three taxation measures submitted by the legislature to the people, others may originate from legislative sources under a joint resolution by Representative Neuner, passed by the senate. The resolution gives a sort of blanket authority to a special committee to frame new amendments to be placed on the ballot in 1912. The resolution calls for a committee of five senators and seven representatives to prepare such measures upon taxation as it may deem wise to submit. It is also charged with the duty of preparing arguments for or against the passage of all tax measures, whether prepared by itself or otherwise submitted, and whether or not the measures are of county or statewide scope.

The resolution will enable the committee appointed under it to file arguments in each county where a taxation system is proposed under the tax amendment adopted last November. Single tax ideas are expected to be formulated for county submission in Multnomah county and perhaps other counties, and the legislative committee will be given a chance to take a whack at this and all other county tax experiments.

Any measures framed by the committee will have to be placed on the ballot by initiative petition, as the legislature cannot delegate to a committee the power it possesses of submitting measures to the people.

## ROUND-UP PARK IS SCENE OF ACTIVITY

Roundup park presents a scene of activity these days with thirty teams and a small army of men at work grading, scraping and preparing the new track and arena for the annual wild west exhibition. Under the supervising eye of J. P. Heine, the work is progressing smoothly and rapidly and the officers and directors of the association are more than satisfied and speak enthusiastically of the abilities of Mr. Heine. They estimate that, at the present rate the work will be completed shortly after March 1.

The force of men and horses is at present engaged in filling in the ground which is to be used as a track with gravel which is secured from the Roundup land next to the river and contrary to the first expectations it is now thought there will be enough of this to complete the fill. After the filling is finished, a surface of dirt will be put over the whole, this dirt to be secured from the west end of the tract.

A half dozen more Fresno scrapers, belonging to Frank Sloan of Stangfield, will arrive here tomorrow, which addition to the present equipment will greatly expedite the work.

### CONGRESSMAN SWEARS ATTEMPT MADE TO BRIBE

New York, Feb. 17.—The testimony that former state Senator Gardner had attempted to bribe him to vote against the Hughes anti-racing bills when he was a member of the legislature was given here today by Congressman Otto Foelker, a witness. Maxwell, a detective said Gardner had commissioned him to send Lloyd Adams to offer Foelker \$25,000 if he would oppose the anti-race track bills.

## POULTRY SHOW BILL PASSES BOTH HOUSES

MEASURE NOW UP TO THE  
GOVERNOR FOR APPROVAL

County Courts are Given Authority to  
Make Annual Appropriations up to  
\$500 for Annual Exhibitions.

Unless Governor West should decide to veto House Bill No. 327 which has passed both houses of the legislature, the county courts of Umatilla and Morrow counties will be able to make appropriations for the annual exhibitions of poultry held in this city by the Umatilla-Morrow county poultry association.

The future success of the association is therefore assured, the only difficulty remaining being that of securing funds with which to meet present obligations and apparently these are to be secured without a great deal of difficulty. Citizens of Pendleton and this vicinity seem to be anxious to encourage the purposes of the organization and are responding promptly and generously.

Though the new law will apply to every county and every incorporated poultry association in the state the bill was drawn up by the secretary of the local association, was introduced at his request through the aid of Representative S. D. Peterson by the Umatilla-Morrow county delegation.

### The Bill.

The complete bill follows:  
Section 1. That any corporation, association or society organized for the purpose of holding poultry, livestock or agricultural product exhibits, may apply to the county court of the county in which said exhibits are proposed to be held, for an appropriation not to exceed the sum of \$500 to pay expenses thereof and premium awards.

Section 2. To enable the said county court to provide funds, with which to pay the expenses of said exhibits and premium awards, it is hereby authorized to appropriate such sum therefor, out of the general fund of the county not otherwise appropriated, as it may deem necessary for such purposes, not exceeding the sum of \$500 annually.

Section 3. The said county court may, not later than July 21st annually

cause to be paid to the directors of such corporations, association or society, or the duly authorized secretary or treasurer thereof, the amount so appropriated; provided, however, that the said corporation, association or society so applying must have held at least one annual exhibit of poultry, livestock or agricultural products during the year immediately preceding the application for the appropriation therefor, and must have provided buildings and other necessary arrangements for the said annual exhibits.

### BORAH FLAYS NORTHERNERS.

(Continued from page one.)

must work out the problem under the constitution.

"When the exigencies of debate are over, it will be found that no measure will be offered in the senate to protect any supposed right of the colored man anywhere. If those who are interested will turn to the constitution, they will find there the universal rule under which we can legislate. If applied, it will be proved to be the correct rule, the rule for all of us."

## AGRICULTURE CLUB TO MEET THURSDAY

Next Thursday evening a meeting of high school students and all other people interested will be held at the Commercial association rooms for the purpose of forming an agricultural club. Local farmers, business men and others are invited to be present and to join the organization.

As announced before, the formation of the agricultural club is a step being taken as a result of the selection of Leroy Brethaupt as instructor in agriculture at the high school. At the agricultural college, of which school Mr. Brethaupt is a graduate, there is a very active agricultural club and it does some splendid work. The new instructor is anxious to have a similar organization in connection with the school.

Already many students of the high school have signed up for the club and they are now securing members from outside the school.

## REV. I. B. TALLMAN NEAR GOLDEN SHORE

The sad news that his father, the Rev. I. B. Tallman, is fatally ill in Florida, was received here yesterday by J. V. Tallman. The news came by wire from L. L. Tallman who is at present in Tacoma. The aged minister is suffering from dysentery and because of his advanced years it is feared he will be unable to recover.

Rev. Tallman is in his 84th year, yet despite his advanced years has been in very good health until the present attack came on. Only recently he returned from a trip to Europe and went for a sojourn to Florida. He is now at St. Petersburg in that state. Owing to the distance intervening it will be impossible for J. V. Tallman or his brother to reach their father but other members of the family living in the east are hurrying to his bedside.

It had been the intention of Rev. Tallman to come to Pendleton in the spring for a visit with J. V. Tallman and family. Consequently the news of his serious illness at this time has been especially regretted.

While visiting with his son and family in this city Rev. Tallman at times occupied local pulpits and he has a host of friends here who are grieved at the news of his illness.

### JOSEPH ELOQUENT ON ANTI-SHARK BILL

Salem, Ore., Feb. 17.—Representative Amme's anti-loan shark bill passed the senate, 21 to 8, after a debate that ruffled among the rafters. Abraham denouncing the bill and Joseph making a strong plea in its favor. Abraham declared it was unconstitutional and vicious, being an attempt to limit the right of contract. The bill makes it necessary to have the consent of the employer before a man's wages can be pledged for a loan less than \$200 in amount.

Joseph told his colleagues they would not oppose the bill if they knew conditions in Portland, where one firm sometimes exacts four times the amount of its loan to release victims from its clutches. He declared it was high time something be done
