Newsy Notes of Pendleton

Chautauqua Circle Will Meet.
 The Chautauqua circle will meet tomorrow afternoon at 2:30 at the city hall.

W. C. T. U. Memorial Service.
 The local W. C. T. U. will hold a memorial service at the Presbyterian church tomorrow evening in honor of Frances E. Willard.

Contested Land Cases Up.
 Deputy Clerk W. C. E. Pruitt today began taking the testimony in local land cases. The case up today was that in which the government is contesting the homestead of Charles Ogilvy, the deceased Pilot Rock farmer.

Purchases Automobile.
 William Dale, the well known Hellix rancher, is the latest one of the big wheat growers to abandon the primitive means of locomotion and adopt the more modern way. Yesterday he was in the city and purchased of Walter McCormack a fine 28 horsepower auto.

Annual Roll Call Tonight.
 The annual roll call and supper of the Baptist church will be held at the church tonight at seven o'clock. The ladies will serve the refreshments cafeteria style and the social feature of the evening will be emphasized. This is the big "get together" feature of the church year and every resident member is expected to be present.

Council Observes Holiday.
 The city fathers would not desecrate the natal day of George Washington by meeting in session last night and, inasmuch as any business transacted on that day would not have been legal, their decision was probably not altogether due to patriotism. There will be no meeting of that body until next Wednesday unless something very urgent comes up.

Odd Fellows' Night.
 This is I. O. O. F. night in Pendleton and a large number of the order's members came up from the west end of the county this morning. Among those coming were the following:
 O. F. Steele and wife, Thomas Kerr, J. O. Kerr, John McClellan, Miss Bulah Atherton of Nolin; L. P. Kenison, Elmer Reeves and W. T. Reeves of Stanfield; Zoe Houser, A. C. Armstrong of Echo; Ed Summers, and R. S. Foreman of Hermiston.

Had Much Good Music.
 The "Get Together" meeting at the theater yesterday was more generally attended during the afternoon than at the forenoon session. The addresses delivered were all listened to closely and several musical numbers given were much appreciated. Miss Slater, Miss Zimmerman and Mrs. J. R. Dickson all sang selections and were enjoyed.

At the conclusion of the session the representatives of the different organizations participating in the meeting joined in a vote of thanks to the ladies who furnished the musical program to the speakers of the day and also to the management of the theater.

Eight in Police Court.
 Though the wheels of the police court were silent yesterday, the long arm of the law was still active and as a result eight offenders were haled before Judge Fitz Gerald this morning to answer for their sins. Seven had celebrated the birthday of the Father of His Country with a too frequent indulgence in the cup that cheers, while the other was just an ordinary vag. The latter will stand trial this afternoon while each of the inebriates drew three days in jail. The following are the names of the drunks: Jap Brisco, Frank Cunelison, Roy Moore, Gus Strager, J. Henthett, John Doe and Malum Bell. Henry Crums is the name given by the vag.

SCUDDER HAS TIMELY ADVICE.
 (Continued from page one.)
 er means must be resorted to. The farmer in this district must cease squandering the virginity of his soils and turn to cropping systems that have long proved successful in similar areas in restoring fertility and increasing production.
 Forcing a Change.
 The rapid rise of land values in the vicinity of Pendleton is forcing the dry farmer to take the first step towards higher production per acre. This step is the gradual abandonment of the summer fallow. Land lying idle every other year will not give the necessary return to make it a good investment if land prices keep on rising. In addition to this where

the average annual rainfall is 14 1-2 inches as it is at Pendleton, summer fallowing may largely be dispensed with.

The Remedy.
 At various points throughout the wheat belt it has been amply demonstrated that such crops as field peas, alfalfa, corn, milo maize, etc., may be substituted for summer fallow with profit. These crops either use less moisture or use such moisture as would otherwise be lost through evaporation and thus permit a profit producing crop every year. Where alternated with wheat these crops restore fertility though increasing the nitrogen and humus supply in the soil and thus assure the permanency of agricultural production.
 Where these substitute crops are grown, however, it is imperative that certain methods of culture be observed. Field peas must be seeded just as early as it is possible to get upon the ground. They will endure much cold but not much heat. Planted the first of March, if the weather will permit, they will mature in 90 to 100 days or be ready to pasture off with sheep or hogs at 70 days and be out of the way by hot weather. The Canada field pea should be used, 1 1-2 to 2 bushels per acre, drilled 3 inches, harvested with hogs or lambs or the mower or threshed for seed. Stock should be turned on the field peas when the seed begins to harden in the pod, but the vines still green. Mixed with barley or oats and cut for hay, field peas will yield here 1 1-2 to 2 tons per acre of fine quality for cows and sheep. Seed yields run from 300 to 500 pounds per acre, making a very profitable money crop for the dry farmer. To get rid of the volunteer peas, the field may be disked and seeded to wheat or barley and pastured early the following spring or cut early for grain hay. As soon as the pea crop is off the ground the land should be double disced, plowed and mulched in preparation for the next year's wheat crop if wheat is to be raised. Where good methods are used the returns from this fallow substitute crop added to that from the wheat crop following it will in the two years give nearly double the profits per acre as may be obtained under the summer fallow system. Yet the soil fertility will be maintained or increased.

Field Corn.
 Corn, provided a hardy and early maturing variety is secured, and thorough cultivation is given, will also give excellent returns in place of the summer fallow. The Minnesota No. 23, a dent corn introduced by the Oregon experiment station two years ago, gave yields of 30 to 35 bushels of matured grain last year on wheat lands. Fed to hogs the profits can easily be figured. But unless this hardy variety is used and thorough cultivation given, success cannot be expected.

Dry Land Alfalfa.
 Alfalfa grown as a seed crop is probably one of the best of the dry land farmers' future prospects. Grown in double rows 18 to 24 inches apart, eight pounds of seed per acre, sown in thoroughly cultivated summer fallow in April, will give yields of 300 to 400 pounds of seed of the highest quality commanding the top price on the market. Where grown in rows cultivation should be given and where the stand is too thick it should be crossed harrowed. The first crop is cut for seed.

Milo Maize.
 While milo maize, smooth brome grass, meadow fescue, artichokes, cow kale and grain hay and pasture, are all crops that will furnish the necessary forage for feeding livestock on wheat land, the field peas, corn and barley will be the chief feeds for fattening stock and should be given first attention. Alfalfa on the other hand, raised for seed will furnish a direct cash crop year in and year out.

Will Take Time.
 This diversified system of farming cannot be adopted at once to the 1000 acre wheat farm. There are not enough hogs in the state of Oregon to consume the first crop of peas that might be raised in this county alone.
 Let this system once be started, however, and the large farmers and the single crop system will soon be forced to the wall. Field peas, alfalfa, corn, milo maize, drouth resistant forage crops of all kinds, raised upon the wheat lands and fed to pigs, lambs, chickens and cows, will bring such profits per acre that the summer fallow will go out with the wheat baron. One hundred sixty acre farms with comfortable homes and prosperous owners will no longer be considered an impossibility, and eggs and butter and pork raised in the home county will no longer be thought an unheard of curiosity on your markets. Better than this, growth in population and production and prosperity will be the final assurance of the permanence of your agriculture and of all the institutions of mankind dependent upon it.

AGRICULTURE CLUB MEETS THIS EVENING

At the Commercial club rooms this evening a meeting will be held for the purpose of forming an agricultural club and all who are interested in the move are invited to be present. Farmers and business men as well as students of the high school will be admitted to membership.
 Students of the agricultural course in the high school are taking the lead in the move to organize a club. They are encouraged to do this by Leroy Brethaupt, new instructor in agriculture and also by Principal Hampton, Superintendent Landers and members of the school board.
 At the meeting tonight those present will have the benefit of hearing from Prof. Scudder, of O. A. C. who will be present. This morning Prof. Scudder spoke to the high school students at assembly and dwelt upon the general subject of the study of agriculture.

ANNUAL MILITIA INSPECTION TONIGHT

Local militiamen are looking unusually alert and walking unusually brisk today for tonight they are to undergo a very critical examination as to their knowledge of the manual of arms and the different maneuvers of military drill. It is the occasion of the annual inspection of Co. L and to make the ordeal more terrible to the amateur soldier, the inspecting officer is to be a regular. First Lieutenant Fales of the First Infantry, U. S. A., stationed at Vancouver barracks, has been appointed by the government to inspect all of the national guard companies in Oregon and his visit here is in connection with this duty.
 First Lieutenant Charles Vintler is to have charge of the local company at the inspection in the absence of Captain C. J. Ferguson, who is quarantined at his home through the illness of his children. Lieutenant Vintler declares the company is in good order and that the members will stand the test in a creditable manner. Though the number of men is still somewhat short, recruits are being secured weekly and the attendance at the inspection tonight is expected to be good.
 The public is invited to witness the inspection.

Mexico in a Ferment.
 Judge Fitz Gerald has received a letter from his son-in-law, Guy O'Melveny, stating that he has returned to the United States from Mexico fully recovered in health and has accepted a position as field engineer for the Fresno Light & Power company with headquarters at Fresno. He has been spending the past few months in the state of Sinaloa, about 1300 miles south of Los Angeles and states in his letter that the revolution has not taken a violent form in that section of the country, but that indications are that within a year the whole country will be in a revolt. He declares he has had enough of the land of plot and counter plot and is glad to return to his native country.

Indian Thief Captured.
 Sheriff Taylor this morning captured George Dick, an Indian, wanted at North Yakima, for stealing a horse, and he is being held in the jail here pending the arrival of officers to take him to the scene of his crime.

A Knock for Greely, Colo.
 "Doc" Evans, proprietor of one of the main street cigar stores, has received a letter from Fritz Gannon, the traveling penman who sometimes marks the houses which he canvasses for business with a big G, in which that much-traveled gentleman registers a distinct knock for the city of Greely, Colo. He not only states that empty houses are more frequent there than otherwise and that the city has been the prey of unscrupulous exploiters and boosters, but he characterizes it as a "hobbed for pure, unadulterated, 18 carat fine, double distilled snobbishness." Gannon's latest accomplishment is the invention of a number of puzzles which he labels "brain teasers," and which were published in a recent number of the Railroad Man's magazine. He also takes time occasionally to make a whistling record for some kind Lady's phonograph.

More Shoes Are Found.
 Sheriff Taylor has made another addition to his stock of shoes at the court house. Detective E. B. Wood yesterday brought up a large number of Oxfords and ladies' shoes which he found in a cache out from Hermiston and which were a part of the loot secured by the recent Umatilla boxcar robbers.

YOUNG MEN FINED FOR FAST RIDING
 (Special Correspondence.)
 Echo, Ore., Feb. 23.—Three young men living a few miles out of Echo appeared before Recorder Everitt Monday morning in answer to a charge of riding their horses through the streets on a run Sunday evening. All were found guilty and paid a fine of \$5 and costs.
 Jos. Bailey is visiting with his daughter at Adams.
 N. H. Sittou of High River, B. C., arrived here yesterday on a business trip.
 T. G. Smith is transacting business in Pendleton today.
 Chas. Friedly, proprietor of the Hotel Echo returned yesterday by automobile from a business trip to the Dalles. He made the trip from Wasco to Echo yesterday.
 A. L. McIntosh on Tuesday shipped four carloads of beef cattle to Portland.
 Bert Armstrong is among those transacting business at the county seat today.
 Mr. and Mrs. Kit Hayes returned home this morning to their home at Pendleton.
 Sloan Thomson and sister, Miss Billie Thomson are visiting friends in Pendleton.

LAUGHABLE EXPOSE TONIGHT BY PROF. HENRY
 Tonight Pastime patrons will be regaled by a laughable expose of hypnotic telepathy, mind reading, or second sight, that bulwark of modern psychology and Christian science. Prof. Henry will put a lady subject under hypnotic control and through her hold converse with departed spirits. In full view of the audience. She will tell many amusing things, mysterious in the extreme to the observers. He finish is uproarious when

What I Saw
 In England, Scotland, Ireland, France and Italy. Mr. Lewtas will start with a series of the most beautiful colored slides from Portland visiting Tacoma, Seattle, thence through British Columbia enroute for Montreal and Quebec, here he will take the steamer to England and will describe the beautiful places of the old country, including the finest cathedrals, palaces, museums, customs and manners of the people, visiting especially the City of London, Bristol, Stratford-on-Avon, the home of Shakespeare, Edinburgh, the Highlands of Scotland, the home of Burns, the tomb of Scott and a visit to old Ireland, Londonderry, Belfast, Dublin, Blarney Castle, Lake Killarney, and then a trip to Paris, the most beautiful city in the world. Here a trip on the Seine, Notre Dame Cathedral, the church of the Madeleine, The Louvre Art Gallery and a score of other places will be shown and described, thence to Italy, a visit to old Rome, Naples, Florence, Venice and Milan. Over two hundred of the most superb views ever seen will be shown.

What I Saw in Greece, Turkey, Syria, The Holy Land and Egypt
 This lecture must be seen and heard to be fully appreciated. Athens, Smyrna, Constantinople, Beyrout, Damascus, Gallia, Nazareth, Carmel, Joppa, all around in Jerusalem, Gethemene, Calvary, the Passion of Christ, by a series of master paintings will be shown. Bethlehem, Bethany, The Dead Sea, the Jordan and old Egypt with its wonders will be seen on the canvas all illustrated by the most up-to-date stereopticon and with over two hundred slides taken especially for this lecture. Admission: children 15c; adults 35c.

Your entire family will enjoy seeing
The Cosy
 PENDLETON'S NEWEST, COSIEST AND MOST UP-TO-DATE PICTURE SHOW.
 Only theatre in Pendleton with modern conveniences. Change of program Sunday, Monday, Wednesday and Friday.
WEDNESDAY & THURSDAY.
 An Arizona Romance.
 Mother's Portrait.
 A Homeless Boy.
 A Plucky Western Kid.
 The Tramp Bicyclist.
 Four Reels, 4000 feet.
