NEW SETTLERS ARRIVE AT HERMISTON

(Special Correspondence.)
Hermiston, Oregon, Feb. 25.—Mr. C. F. Mariatt and family from Pleasanton, Neb., have moved to this place to make their future home. Mr. Mariatt owns a tract of land on the west side and intends to commence work on it at once. A house will be erected.

Yesterday, Rev. Owen F. Jones of Crookston, Minn., arrived at Hermiston. Rev. Jones has purchased two tracts of land under the project, one being the George Root property of 15 acres. He expects his family to arrive shortly and to make this his future home.

The Hermiston Contracting & Building company have lately organized at Hermiston. Mr. Charles E. Sparks, as head of the company is well known here and has erected a number of homes for the people of this place. Mr. B. W. Rose, another member is from St. Louis, Mo., his specialty being inside finishing. Mr. Rose arrived here this week with the intention of making this his home. His family will arrive in a few days.

NEW INSTRUCTORS FOR STATE UNIVERSITY

(Special Correspondence.)
University of Oregon, Eugene, Feb. 25.—(Special)—Owing to the resignation of Prof. R. L. Alderman of the department of education of the University, who was recently elected State Superintendent of Schools, Dr. Bennett, head of the Psychology department was recently selected to fill his chair. Dr. Bennett's place will be taken by Dr. Mitchell, who arrived yesterday from Harvard and immediately entered on his duties. Dr. Mitchell comes highly recommended from Harvard where he has taught for two years. He received his A. B. degree at Yale, and after teaching three years, spent a year at Oxford University, England. Returning to America, he studied another year at Harvard, receiving the degree of P. L. D. in Psychology in 1908, and was immediately elected to the faculty as associate professor in that department.

Prof. Alderman has rendered valuable service to the state by extending and enlarging the correspondence school of the University, and under

TORTURES OF PILES.

It is Unnecessary to Suffer This Terrible Trouble.

Keen torture is the everyday lot of the sufferer from piles.

And yet that suffering is needless. Pendleton Drug Co. and druggists everywhere will sell you Hem-Roid and later return your money if it fails.

We have sold Hem-Roid that way for two or three years and refunds asked have been less than 3 per cent. We therefore recommend it with confidence.

Hem-Roid is an internal remedy, the prescription of Dr. J. S. Leonard, \$1 for a large bottle. Dr. Leonard Co., Station B, Buffalo, N. Y. Write for booklet.

Dr. Bennett's guidance, with the aid of the added appropriation recently granted by the legislature, this department will from now on, be open to every citizen of the state without cost.

PENDLETON HIGH SCHOOL IS IN FIRST RANK

(Special Correspondence.)
University of Oregon, Eugene, Ore., Feb. 25.—Statistics recently compiled by the university administration on high schools, show a remarkable growth in this department of education during the past decade. In 1900 there were only six accredited high schools in the state; of high schools whose graduates were admitted to reputable universities without examinations. These were situated in Portland, Medford, The Dalles, Baker, Pendleton and Astoria. Now eighty-eight such high schools are in operation, with fully as many more which do not give a full four years' course, but carry one, two or three years of high school work.

This phenomenal growth is more readily strikingly brought out by noting that as late as 1888, only one school in the state carried a full four years' course, while this year there will be nearly 1000 graduates from the various schools.

Pendleton high is classed by the university among the best in quality of work done, although in size it is much smaller than those with which it ranks.

SAVER OF GAYNOR'S LIFE IS DISCONSOLATE

"Big Bill" Edwards, street cleaning commissioner and Carnegie hero, is disconsolate, and even a contemplation of the medal handed him by the hero commission gives no comfort. Mr. Edwards is pining for a hundred thousand dollars worth of squeegees, and the city dads won't come across. A squeegee, it may be explained, is a contraption fitted with revolving rubber rolls for massaging the pavements and forcing the dirt toward the gutters. The board of estimate and apportionment has sought to assuage "Big Bill's" grief with a hundred thousand dollars with which to buy high pressure water flushers, but, while they will help some, Mr. Edwards remains firm in the belief that a few "squeegees" are absolutely necessary. "For," says "Big Bill," pathetically, "what is a town without a squeegee?" What, indeed.

NEW YORK CITY IS CHAMPIONED AT LAST

New York isn't the "city where nobody cares," after all. The reputation of the metropolis has been rehabilitated by Mrs. Inez Haynes Gilmore, a western literary woman who came to New York to attend the suffrage fair. After looking over the town, Mrs. Gilmore deposed as follows:

"New York is all right. More, New York is kind. It is the 'piker' the outsider, who comes here and disparages. There is something in the air of New York that makes one want to work hard and play hard. There are too many women in New York for it to be a cruel city." Every true gent in Gotham takes off his hat to Mrs. Gilmore. At the same time, one wonders if she got "hep" to the subway crush and the bridge jam.

FEW GREAT FORTUNES ARE LEFT INTACT

Few of the fortunes acquired by the great financiers and captains of industry acquired during the latter half of the last century are now intact. The Gould fortune has grown but is now divided among the children and the grandchildren of Jay Gould, and nearly all of the great interests he built up have passed from the control of his descendants. The William H. Vanderbilt fortune of approximately \$200,000,000 has also suffered the "dividing up" process until the name of Vanderbilt is no longer powerful in the world of "big business." The Harriman fortune, a year after the death of the man who made it, is yet practically intact in the hands of his widow, but many millions will be given away and the remainder will go to the children. While Mr. Carnegie is not likely to die poor, his heirs will not be overburdened with wealth. Marshall Field's eighty millions have been split up among his heirs. Nearly half of the \$25,000,000 accumulated by John S. Kennedy went to charity, and the remainder is now in many hands. Mrs. Russell Sage expects to distribute practically all of the eighty millions left by her husband, and no small part of it has been disbursed.

GERMANS SWINDLED OUT OF MUCH BEER

A Munich statistician estimates that Germans last year were swindled out of \$12,500,000 worth of beer, all through getting short measure, and this it seems, has been going on systematically for years. No wonder that the beer drinkers of the Fatherland are in a ferment of excitement about it. The discovery arose out of the prosecution in the courts of Munich, where beer drinkers foregather at the original fount of a big beer-hall proprietor and his staff of waiters who were accused of habitually serving short measure with intent and malice, aforesaid; that is, their liter and half liter steins never contained the quantity fixed by law. The prosecution alleged that the brewery which stood behind the beerhall last year made over \$50,000 extra profit by giving false measure, and the case resulted in a conviction.

CLUBWOMEN WANT NO BAR TO EARLY MARRIAGE

New York clubwomen are pretty generally against the bill before the state legislature prohibiting men from marrying under the age of twenty-one years and women under eighteen years. A bill providing that all men and women seeking marriage licenses be forced to procure a physician's certificate that they are free from communicable diseases has, however, been passed upon favorably by most of the progressive women of the city. A few of the cynical and worldly-wise ones aver that such a measure will only supply a source of income to unscrupulous physicians.

Attention Knights.

All Knights are requested to meet at Castle Hall this evening to celebrate the forty-eighth anniversary of our order. Refreshments; also work in first and second ranks.

HOLDMAN FARMERS PLEASED WITH SNOW

(Special Correspondence.)
Holdman, Ore., Feb. 24.—It appears as though winter has taken a new start. Snow is falling fast. It makes it look refreshing for the farmers for they say lots of snow, lots of wheat.

James Kimrey was in Holdman yesterday from his ranch, passing a few jokes with his former friends.

George Brandingburg of Black Diamond, California, has just arrived to spend a few days with his mother and step-father, Mr. Robert Patchen.

Rev. Payne of Weston, has just closed a protracted meeting, one uniting with the church.

Chester Miller and wife of Wallula, who have been spending a few days with his father, have returned home.

Edwin Goodwin of Pendleton, is helping our city merchant invoice his stock of goods. Goodwin was formerly employed by the Northern Pacific R. R. Co., at Pendleton.

Perry Watson was in Holdman today.

Tom Keller of Holdman, a rancher on the Pierson ranch, has sold out to Mr. Bannister of Athena. Mr. Keller is thinking of going to Portland.

John Bishop of Holdman has built a new residence this winter. John is a bachelor, but he believes in keeping things neat and clean. John has a new Edison phonograph and a good supply of records. He says everybody is welcome at my house, ladies especially.

OBITUARY FOR LATE WILLIAM F. FANSHIER

(Contributed.)
William F. Fanshier, born in the state of Iowa, October 26, 1858, where he lived with his parents until they moved to Kansas, where he lived until his marriage, at the age of 21 years, to Almira Etta Stevenson. Then he moved to Iowa and lived in that state for a period of 12 years. In the year of 1901 he left his small farm in Iowa for Oregon. After he came he sold his farm in Iowa and bought 160 acres of land northwest of Pendleton and since that time he has bought land to the extent of 950 acres, valued at \$25 an acre. In addition, he had land leased to the extent of 1400 acres.

Mr. Fanshier died at his country home, eight miles northwest of Pendleton, February 24. He had not been in good health for a period of two or three years, but was taken very ill last Saturday and lived but a few days.

He leaves to mourn his loss a widow and six children, ranging from six to 19 years of age.

Baby Hands

will get into mischief—often it means a burn or cut or scald. Apply Ballard's Snow Liniment just as soon as the accident happens, and the pain will be relieved while the wound will heal quickly and nicely. A sure cure for sprains, rheumatism and all aches. Price 25c, 50c and \$1. A. C. Koepfen & Bros.

Wanted—Housekeeper. Only two men to cook for. Enquire "D" at this office.

UMATILLA TEAM DEFEATS MILTON

(Special Correspondence.)
Umatilla, Ore., Feb. 26.—The Umatilla basket ball team added another victory to their season's playing to-night. When they defeated the Columbia college Milton boys at one of the finest exhibitions of basketball ever seen in Umatilla, the score being 55 to 12 in favor of Umatilla. The play was fast throughout and each player was as much at home in his position as the other. Umatilla team has not been defeated yet this season. A well known Portland traveling man who attended the game, who is a very enthusiastic fan, states that Umatilla had one of the swiftest teams he has ever seen anywhere in Oregon.

Jas. Hogan, the popular O-W. conductor of Portland, spent Sunday in this city.

F. W. Green and family of Minneapolis, are here to look at farm lands and will locate somewhere in eastern Oregon.

A cut and short article on the little St. Patrick's Catholic church appeared in the Oregon Journal Sunday and it showed our first church to good advantage.

H. N. Putnam of the Continental Casualty company, Chicago, has been here for the past few days.

Rev. J. E. Youell, of Union, Ore., who had been conducting services here in the school house for the past week, closed the services tonight. Mr. Youell leaves today for Heppner to join his family and expects to locate in the Wallowa, where he has accepted a call.

Rev. C. Butler held services in St. Patrick's church here Sunday and the attendance was unusually large. The reverend father preached a forceful sermon on the gospel of the Sunday.

R. Lingo, former O. R. & N. yardmaster, left today on a business trip to Spokane.

O-W. officials asked me to write a short piece in favor of the Greek foreman, John Nilson, who is now on \$1000 cash bail, charged with having received stolen goods. The fellow really did not know he was receiving stolen goods and as he has heretofore held a good character, they want him to get a suspended sentence if possible. He has been in Umatilla 10 months and has been employed by the O. R. & N. for three years. He has a wife and three small children in Europe whom he is trying to support. Ignorance of the customs and laws of the country are in a great measure to blame in his case.

CHRONIC ULCERS INDICATE BAD BLOOD

Where the blood is pure any wound or laceration of the flesh heals "by first intention." This is true because nature has provided a constituent to the circulation known as Plasma, which joins and holds the place together until the fibres and tissues can permanently knit and interweave. Whenever the ulcer becomes chronic it is because this healing quality of the blood has been impaired by some impurity in the circulation, and the place remains open, infecting all surrounding flesh, until the character of the circulation is changed. No sore can heal where the blood is bad; because the morbid impurities on which it thrives are constantly deposited into it by the burdened circulation. Cleanse the blood and the sore will heal of its own accord, because then its very source and foundation will have been destroyed. S. S. S. cures Chronic Ulcers of every kind for the one great reason that it thoroughly purifies the blood. It goes into the circulation and removes every particle of infectious or morbid matter, enriches the corpuscles, and assists nature in the formation of the necessary plasmic qualities of this vital fluid.

No matter what source the impurities of the blood came, S. S. S. will remove them. Book on Sores and Ulcers and any medical advice free to all who write. THE SWIFT SPECIFIC CO., Atlanta, Ga.

MOST CERTAIN WAY TO END A BAD COLD

RELIEVES SEVERE GRIPPE MISERY IN A FEW HOURS

It is a positive fact that a dose of Pape's Cold Compound taken every two hours until three consecutive doses are taken will cure grippe or break up the most severe cold either in the head, chest, back, stomach or limbs.

You distinctly feel the cold breaking and all the disagreeable grippe symptoms leaving after the very first dose. It promptly ends the most miserable headache, neuralgia, pains, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, mucous catarrhal discharges, soreness, stiffness and rheumatic twinges.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.

Take this harmless Compound as directed, with the knowledge that there is no other medicine, made anywhere else in the world, which will cure your cold or end grippe misery as promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.

ating freshmen from intercollegiate track meets. Columbia is leading the opposition, as such a change would seriously cripple the Morningglade track team.

Slightly used Royal Standard typewriter will sell at sacrifice. Price, \$25. Address Typewriter, E. O. office.
