Newsy Notes of Pendleton

Son Is Born.

Born to Mr. and Mrs. Bert Reeden of Nye, at the home of Mrs. Romagoux, 421 Marie street, an 8-pound boy.

Skaters to Barnhart.

A party of young ladies, consisting of Miss Florence Curran, Miss Edna Thompson, Miss Jennie Perry and Miss Edna Zimmerman, left this morning for the skating ponds at Barnhart. The skating is said to be good at that point at present.

Made by Planing Mill.

The Foster planing mill has just turned out a beautiful and modern cigar case for the Copeland cigar store on Main street. The mill is now doing much work of this sort and is meeting with much success in this line.

Ash Wednesday Service.

Today is Ash Wednesday and the first day of the Lenten season. In Pendleton the occasion will be observed by divine service at the Church of the Redeemer at 7:30 this evening. Services were also held at 10 o'clock this forenoon.

Assault and Battery Case.

C. Andrews, a resident of the east end of the city, has been charged by a neighbor with assault and battery. The complaint was sworn to before the district attorney and upon being served with a warrant, Andrews was released on bail.

Weather Is Moderating.

With the minimum temperature last night eight degrees above zero and the indications pointing to a further moderation of the weather tonight, many believe that the present cold spell is about to be broken. In view of the oil saying about March and the lion and lamb weather there has been much discussion today as to whether or not this should be termed a lion or a lamb day.

Levee Engineer Is Here.

John Stevens, the engineer chosen by Governor West to investigate the needs of the state with reference to levee work to protect the branch asylum site, arrived here last evening. Today Mr. Stevens has been busy down on the Oliver place making investigations. He will report to the state board his views as to the amount of levee work should be done and submit a statement showing the probable cost of the same. Mr. Stevens is in the employ of the Harriman roads and is now with the Corvallis & Eastern. He was "borrowed" from the railroad people by the governor who desired to have him pass upon the work to be done here.

Big Game Is Postponed.

The return game of basketball between the Walla Walla and Pendleton business men's teams which was to have been played in the Commercial club gymnasium in this city tomorrow evening, has been postponed on account of the illness of William McKinney and Merle Chessman, two members of the local quintet. As a further reason for postponement it was announced this morning that the cold weather of the past few days had put the gymnasium water system out of commission. The game will be played at some date in the future yet to be agreed upon.

No Blame Fixed.

That F. W. Doty, the switchman killed at Umatilla yesterday morning came to his death as the result of an accident is the verdict of the coroner's jury which investigated the affair. The verdict merely sets forth the manner of the unfortunate man's death and makes no attempt to fix any responsibility. The jury was composed of the following men: D. R. Brownell, T. S. Tillson, Harry Hull, George Simpson, Frank Cline and Arthur Means. Coroner Ralph Folsom came up from Umatilla on the motor car today after having conducted the inquest. The body of Doty was embalmed and shipped to Portland for burial.

CHICAGO TYPOS GO OUT ON A STRIKE

(Continued from page one.)

held by him until the final award was made, a strike was called at 3 p. m. yesterday in the offices of the newspapers mentioned. This strike was ordered in violation of the most binding contract and agreement to refer any and all matters in dispute to the standing committee for settlement. In taking that action, the union violated its own by-laws, as well as its contract and arbitration. "In consequence of the unwarrant-

ed strike of the Typographical union, all of the Chicago morning papers print only four pages."

The statement recites that when the "bonus scale" was inaugurated in accordance with the award, the president of the local union ordered the separation of the Examiner and American office, which had hitherto worked as one office and their operation offices, which had hitherto believing this was a matter for arbitration, the publishers agreed to the request under protest, to avoid a strike.

During the confusion the foreman resigned. Later the president of the union demanded the foreman's reinstatement. Again the publishers yielded to avoid a strike.

The third demand was the "13 ems" line of the American and Examiner to be figured on the same basis as the 13 1-2 ems line of the other Chicago papers, and when the publishers refused to accede thereto, a strike was called. The statement concludes:

"The following telegram was received last night by the Chicago Publishers' association:

"Strike unauthorized, illegal and without warrant. You are authorized to publish this dispatch.

"J. M. LYNCH.
"President International Typographical Union."

Strike Unwarranted.

Indianapolis, Ind., March 1.—Vice President Hayes of the International Typographical union today declared that the international officials of the union regard the strike of the Hearst printers in Chicago as unwarranted and say the strike will not be supported.

PRISON DOORS OPEN FOR RUEF

(Continued from page one.)

of an overhead trolley franchise for the United Railroads, the street car system acquired shortly before the fire by eastern capitalists represented by Patrick Calhoun. During the trial Special Prosecutor Francis J. Heney was shot and dangerously wounded by Morris Haas, an ex-convict whom Heney had exposed when he was drawn on the jury panel. A few days later Haas committed suicide in the county jail.

Heney's place was taken by Hiram W. Johnson, now governor of California, and after a delay of several weeks the trial was resumed with Ruef's conviction and sentence to 14 years in San Quentin as the outcome.

The case was appealed and after reading the most voluminous record ever submitted to an appellate court, the first district court of appeals affirmed the judgment and order of the lower court. Ruef's attorneys then asked the supreme court for a rehearing, which was granted on January 22 last. The order for a rehearing was followed immediately by a motion by Attorney General Webb that it be vacated.

Granted Stay of Execution.

San Francisco, Cal., March 1.—While the sheriff was preparing to take Ruef to prison, Judge Lawler, who sentenced him, gave him a seven-days stay of execution, which means he stays out for a while longer to straighten out his business.

ATHENA-PENDLETON IS STILL POSSIBLE

Although the various good roads laws were vetoed by the governor at the request of the good roads association which held them to be faulty and although the Tuttle road law has been repealed it is still possible that a permanent highway may be constructed between Athena and Pendleton.

For weeks past prominent farmers and good roads men have been agitating such a highway and sentiment seems ripe for the improvement. It is believed that the road could have been constructed under the Tuttle law or under the bonding act had those laws been allowed to stand.

Under the circumstances such a highway as proposed will have to be built out of current funds if at all. However there are many who favor doing the work in this manner or at least in doing all the work that may be done with the money available. County Judge Maloney, who is favorable to such a road, has intimated that the road might be built even though the Tuttle law and the bonding law were knocked out. Thus far no active steps towards asking for such a road have been taken but the subject is being discussed to quite an extent by farmers living along the road and others.

RUSSIA RENEWS HER DEMANDS ON CHINA

London, March 1.—Threatening to occupy Ill again, Russia is reported today as having demanded from China a more definite statement of Russia's rights in Manchuria. Ill, and Mongolia than given in China's recent reply to Russia concerning the treaty of 1881. It is reported that Russia asserts her demands must be met fully immediately.

FORCES IN GOVERNMENT MINTS TO BE DECREASED

Washington, March 1.—Sweeping reductions will be made in the forces employed at the mints in San Francisco and Denver is the prediction made here this afternoon by Director of the Mint Roberts. It is said that such action will be taken on account of the passage of the recent bill permitting the treasury to issue gold certificates against foreign coin in the rough bullion.

Men who owe all they have and all they are to an industrious, economical wife, too often leave her out when they boast of their success, as most successful men are prone to do.

Winter Forgotten

Old Jack Frost and Winter have been relegated to the past at this store--all thoughts now are of spring

Our entire store is a busy scene of rearranging, displaying spring goods and preparing for the coming season, which we expect to eclipse all our past season's records.

During our great sale, just closed, we succeeded in cleaning out all the old stock and are now showing nothing but the very latest—all new goods.

VISIT OUR STORE AND IMBIBE THE ATMOSPHERE OF SPRING.

The New Boston Store

MUST HAVE NEW HIGH SCHOOL, SAYS BROCK

As a result of a brief sojourn in southern California, W. E. Brock, who is a member of the school board, is more convinced than ever of Pendleton's need of a new high school building.

"When I left for California I was favorable to building a new high school here," says Mr. Brock. "But I did not by any means appreciate the importance of that improvement as I do now. In southern California I paid particular attention to school affairs and visited many schools in San Francisco, Los Angeles, Pasadena, and smaller places with a view to learning what I could upon the subject."

"The southern California towns of any consequence are erecting splendid school buildings. There are towns down there that are not in as favorable a position as Pendleton to do such work yet they are maintaining school structures that far exceed those we maintain. At Hollywood a suburb of Los Angeles and which has but about 10,000 people, the people have just erected a new building costing

FOLEY KIDNEY PILLS.

Tonic in Action—Quick in Results.

Give prompt relief from BACKACHE, KIDNEY and BLADDER TROUBLE, RHEUMATISM, CONGESTION of the KIDNEYS, INFLAMMATION of the BLADDER and all annoying URINARY IRREGULARITIES. A positive boon to MIDDLE AGED and ELDERLY PEOPLE and for WOMEN.

H. M. Beatty, Little Rock, Ark., says, "For two years, I have been troubled with severe kidney trouble. The pains across my back and over my hips were so bad that they almost meant death to me at times. I used several well known kidney remedies which gave me no relief until I used Foley Kidney Pills, and these I can truthfully recommend as they have made me sound and well." A. C. Koepfen & Bros.

\$225,000. At Azuma where I visited with relatives there is also a splendid high school and I attended the Lincoln day exercises there.

"If Pendleton maintains its place as a progressive little city it simply must build the new high school. The present building is antiquated and is actually dangerous as well as inadequate. We must vote the bond issue and prepare to hold up our reputation as a live and progressive town.

Mr. and Mrs. Brock returned several days ago from their southern trip.

TACOMA WILL TRY TO RECALL HER MAYOR

Tacoma, Wash., March 1.—The meeting today of the citizens committee pushing the recall of Mayor Fawcett and the city commissioners today decided to hold the recall election of Fawcett April 4th. Later the recall election of the commissioners will be held.

Much of what all love at first sight falls when it comes to the second, sober view.

Admission 10c. Children 5c.

COUNTY COURT NOW IN MARCH SESSION

JUDGE MALONEY WILL SUGGEST ROAD POLICY

Would Do Away With Supervisory Work by Commissioners and Employ Practical Road Men for Purpose—Road Near Adams Is Changed.

The March term of the county court is now under way and though the time today has been devoted almost entirely to the auditing of bills, there are a number of important road matters to come before the judge and commissioners this session. Thus far the subject of the county's road working policy has not been discussed but it will be taken up before the session closes. Judge Maloney is intending to again recommend that the county adopt the plan of having three district roadmasters to supervise work in their respective sections instead of having the members of the court do this work themselves. Though the court virtually decided at a previous meeting to do this supervisory work themselves the county judge is hopeful that his colleagues will change their minds upon the subject. Whether or not they will be willing to do so remains to be seen. Among good roads advocates and others there is objection to again resorting to the old plan of having

members of the court do supervisory work. It is asserted that much better results may be obtained by getting practical road men to do this work and to remain "right upon the job" when the work is underway.

Change Near Adams.

By action of the court today the county road leading up Wild Horse creek into Adams will be changed for a distance of half a mile. A right of way through the place of Mrs. John Adams has been purchased for \$250 and the road is to be constructed on the north side of the creek. By this change two bridges will be eliminated, the road will be kept out of some overflow land and incidentally the distance into Adams will be shortened.

POSTMASTER GENERAL HAS ENEMY ARRESTED

Denver, Colo., March 1.—Charging him with having violated the postal laws United States Marshall Chadwick this afternoon arrested Urban Walter, editor of the "The Harpoon," the organ of the railway clerks. No specific information is contained in the complaint. It is believed Walter's attacks on Postmaster General Hitchcock in his campaign for shorter hours and more wages for the postal clerks is behind the arrest.

MONIS WILL BE PREMIER OF FINANCE

Paris, March 1.—Antonio Monis, is expected to formally accept the proffered to formally accept the premiership as soon as he selects his cabinet.

5 Per Cent. Money

A Home is within the reach of those who will make an effort

Make the effort today, as you will never accomplish anything by waiting. Your stack of rent receipts has bought you nothing.

Some of the Things That We Do For Our Patrons:

1. Furnish the money to buy a home outright, or build it according to their own plans, in any town or city they may select in the United States.
2. Furnish the money to pay off a mortgage.
3. Furnish the money to purchase lot and improve it at one and the same time, thereby insuring a home about two years sooner (and saving that much rent) than would be possible if the lots were purchased by the usual installment method, and then the money obtained to improve them afterwards.
4. Furnish the money to buy additional property if you already own a home.
5. Provide easy terms of repayment of loans without making extra charge for so doing.
6. Provide a very low rate of interest.
7. Furnish them with a loan that can be cancelled at any time, without paying a bonus or extra interest.
8. Furnish them with protection for their families in case of death.
9. Furnish them with protection against loss of their homes in case of sickness, loss of employment, etc.

The Standard Real Estate Loan Company (Inc.)
