At the sheriff's office today a big check was received from the O.-W. R. & N. company in paying of the taxes due from the Umatilla county portion of the Harriman roads. The company's taxes amount to \$95,678.98 and by paying the cash at this time the company draws down a rebate of \$2959. A check for the amount due the county was presented the sheriff today.

Suit to Collect.
T. J. Means has brought suit in the circuit court to collect the sum of \$1896 and \$250 costs from H. E. Allen et al. The complaints set forth that the plaintiff had a claim of \$2160 against the defendants for building work done at Stanfield. Only the sum of \$554 has been paid and he asks judgment for the balance. He is represented by R. J. Slater and Will M. Peterson.

Wants Custody of Child.
Through a suit filed in the circuit court today by Albert Stickler against his former wife, Maggie Stickler, the plaintiff asks for the custody of their four year old daughter. Mrs. Stickler was granted a divorce in December and the child was awarded to her by the court. The father now sets up the claim that she is an improper guardian and asks that he be given the child so that he may send her to the St. Joseph's academy for schooling. Attorneys Fee and Slater represent Stickler.

Weather Moderates Slowly.
Notwithstanding the promises of warmer weather being sent out by the northwest chief of the weather bureau, the temperature in this section of the state, at least, is moderating very slowly. The minimum temperature last night was 9 degrees above zero or one degree above the minimum for the night before, while the maximum temperature today was 38 above, which is one degree warmer than yesterday. For seven days in succession, the maximum temperature has ranged from 34 to 38 degrees.

Elks Election Tonight.
This evening the members of Pendleton lodge No. 288, B. P. O. E., will hold their annual election of officers and as usual the event is awakening much interest among those in the brotherhood. The chief interest centers in the selection of an executive ruler and several prominent members are being boomed for that position. However, no particular candidate seems to have clear running and the outcome of the contest will not be known until the ballots are counted.

Six and one-half inches of snow fell during the month, which is approximately the average snowfall for February. The records disclose one peculiarity of the month and that is that the first day of February was the warmest and the last day the coldest. You can surely end grippe and break up the most severe cold either in head, chest, back, stomach or limbs, by taking a dose of Pape's Cold Compound every two hours until three consecutive doses are taken. It promptly removes the most miserable neuralgia pains, headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, mucous catarrhal discharges, running of the nose, soreness, stiffness and rheumatic twinges. Take this harmless compound as directed, without interference with your usual duties and with the knowledge that there is no other medicine made anywhere else in the world, which will cure your cold or end grippe misery as promptly and without any other assistance or bad after-effects as a 25 cent package of Pape's Cold Compound, which any druggist in the world can supply. Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars, and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.

HIRED MAN ELOPES WITH FARMER'S WIFE

The old story of the hired man eloping with the farmer's wife who deserted her children, was retold in police headquarters in Portland after the arrest of Mrs. Pearl Grant and Ralph Underwood, in a rooming house at 133 1-2 North Sixth street, on complaint of the woman's husband, D. C. Grant. Grant has a ranch near Condon, and last spring Underwood applied to him for work. Grant took him in, and shortly after discovered things that made him suspicious but on asking his wife was reassured that nothing

was wrong. Last November, the wife and Underwood came to Portland on the same train and later Grant came. The couple lived at the home of the woman's parents and the woman secured work in a downtown drug store. Recently the woman has been staying out late at night, it is said, claiming that she has been working overtime. Two or three nights away from home entirely aroused Grant's suspicions and Tuesday night he gave Patrolman I. J. Helms information that the couple were together in the rooming house and the arrest followed. Underwood was found locked in a clothes press. Underwood was sentenced to 40 days on the rock pile.

SEWER WILL BE EXTENDED AT ONCE

COUNCIL INSTRUCTS ITS COMMITTEE TO GET BUSY

No Time Will be Lost in Providing West End Residents With Sewer Connection—Outlet West of Asylum.

At the meeting of the city council last evening the greater portion of the session was devoted to consideration of construction work that is now in view. The question of sewer extension, new Main street bridge and the Round-up grounds came in for discussion. Owing to the fact that the city attorney had not yet completed the necessary legal work the matter of a special election to vote water bonds was not taken up. However, City Attorney Raley has been given instructions upon this subject and the matter will come before the council at its next meeting.

Sewer Extension.
Last evening the council instructed the sewer committee to get busy with surveys and other preliminary work in connection with extending the sewer system to the entire west end section of the city and to providing an outlet below the branch asylum grounds. The extension will start at the corner of Court and Star streets and will lead down West Court and through the Doherty place to the river at the mouth of Tutuilla creek. Rights of way have been virtually secured and

seemingly the city will soon be ready to proceed with this work. It has not yet been determined as to the size of the main. According to Councilman Sharon, chairman of the sewer committee, a 20, 22 or 24 inch main will be laid. He says that the sewer pipe may now be had about five per cent cheaper than it could have been purchased when the city formerly figured upon the extension.

Main Street Bridge.
City Engineer Geary Kimbrell submitted a tentative plan for the new Main street bridge last evening and the plan was referred to the street committee for consideration. The plans drafted by Mr. Kimbrell are of a general nature and he suggests that when the city asks for bids upon the bridge that each bidder be invited to submit detailed plans of the structure upon which he wishes to bid. In this way he figures that a fair deal would be given all bidders. The recommendation seems to be taken favorably by the mayor and councilmen.

Round-up Grounds Accepted.
By resolution the city accepted the title to the Round-up grounds last evening. However the resolution provides that in the event the \$4000 mortgage now outstanding against the title is not paid, by the Round-up association the city may cancel a lease which is given the Round-up people. This lease is given for a period of ten years for a nominal consideration of \$1.

Bills for the past months were paid last evening and other routine business transacted. Dividends on Grand Trunk Railway third preference stock, which were suspended in 1907, have been resumed with a payment to holders of one-half of 1 per cent.
