SPokane Campaign Ends.

Women Take Active Interest in Selection of First Five Commissioners.

Spokane, Wash., March 7.—Several big rallies last night marked the end of one of the liveliest political campaigns witnessed here in recent years. In the election in progress today five commissioners will be chosen to replace the present mayor and council under the new form of government adopted by Spokane. There are 92 candidates for the five commissionerships but it is believed the possibility of the election rests with not more than 20 of these.

Women have taken a very active part in the campaign, the wives and daughters of many of the candidates having been particularly active. The ballots incorporate first, second and third choice and in view of this feature and the long list of names it will probably be late before the result is known. The polls will close at 8 p. m.
