Will Open Next Month.
A. D. Frost and wife, who are to have charge of the new Golden Rule store, arrived in the city yesterday to prepare for the opening of that establishment. They declared this morning that it would be between the first and fifteenth of next month before they would be ready to open their doors for business.

Elks Practicing Hard.
The Elks and their helpers in the minstrel show held practices both Saturday night and Sunday afternoon, and under the capable direction of A. C. Grubbs, they are rapidly developing a show of the finest variety. Some of the features of the entertainment will be given in tomorrow's issue.

Popular Catcher Back.
Dave Ward, the popular catcher on the Pendleton team last year, arrived back in the city yesterday from Sprague, Washington, where he has been working for the past few months. He will accept the position of night clerk at the Hotel St. George.

Making New Front.
T. Moser, proprietor of The Workmen's Clothing Store on the corner of Main and Webb street, today began the remodeling of the front of his place of business. He is extending the windows back six feet which will give him much additional display space.

Will Get More Books.
City Superintendent J. S. Landers is today preparing the list of books to which the city schools are entitled from the money out of the county-state fund for that purpose. Pendleton's portion for this year is \$150. Following the receipt of these additional books next October, the schools will turn over to the city library all of their volumes of fiction, keeping only the reference books.

100 Acres of Onions.
G. H. Upthegrove, secretary of the Hermiston Commercial club who spent Saturday in Pendleton, is authoritatively for the statement that there will be one hundred acres of land in the Hermiston district sowed to onions this year. He says the Fort Wayne colonists have proved that this odorous vegetable can be grown with great success on the irrigated tracts.

Returns from England.
Charley Hammond, who went to England for a visit at his old home, last September, returned to Pendleton Saturday night. This was his first visit to his native land in 49 years, he having consumed that much time in making a tour of the world. Hammond says he enjoyed his visit to the old country very much but declares that Oregon is good enough for him.

To Condemn Hendricks Land.
As a seeming first step towards the condemnation of the Hendricks tract, adjoining the branch asylum grounds, the state board has ordered an abstract of the title to the tract. This was forwarded today to Salem by Captain Charles Murphy. The deed to the Myers tract was signed today and the state board is now in possession of all the bottom land desired save the Hendricks tract.

Back From Enterprise.
Deputy Clerk W. C. E. Pruitt returned yesterday from Enterprise where he had been to take testimony in the disputed land cases at that place. He will leave for Baker tomorrow night on a similar mission and at the conclusion of the work there will be through with his duties as referee. The testimony will then be submitted to the land office and the decisions handed down thirty days thereafter.

A Picnic in March.
Yesterday was an ideal day in Umatilla county and there were many who took advantage of the warm sun to make excursions into the country. One crowd of picnickers, consisting of Mr. and Mrs. Sam Thompson, Mrs. A. C. Hampton, the Misses Una Smith and Daphne Leasure and the Messrs. Clarence Bishop and Merle Chessman, took the local in the morning for Coe and spent the day at the Furnish dam, returning on the local in the evening.

Local Men Seem Timid.
For the purpose of bidding upon the work of laying the water main from the end of the present city main to the branch asylum grounds a representative of the Jahn Bros. construction company is here today. His company desires to bid on the asylum extension, upon the new sewer work and upon the proposed gravity water system. Thus far there has been a total absence of local bidders on the branch asylum work despite the fact that any local plumbing firm

could easily handle such work.
