Just received, fine lot of chickens for Saturday. Order early. Pendleton Cash Market.

BIDS WANTED ON NEW MAIN STREET BRIDGE

BIDDERS TO SUBMIT THEIR PLANS AND SPECIFICATIONS

Council Decides on Immediate Construction—Question of Closing Aura and Lillesh Streets Up Next Week.

Bids for the construction of a bridge across the river at Main street will be advertised for immediately, following the adoption of the tentative plans and specifications of City Engineer Geary Kimbrell at a meeting of the council last night. Just at present it has not been decided whether the bridge shall run across the river straight with the street or at an angle, and this decision will be contingent upon the ability of the city to purchase a small piece of ground on the north side of the river. However, according to the city engineer, there will be no difference in expense except a slight increase in the cost of abutments in case the bridge should be run across at an angle. Each bidder will be required to submit complete plans and specifications of his own.

Closing of Streets.

Mayor Murphy served notice on the council last night that an ordinance to close Aura and Lillesh streets at their intersection with the railroad would be read for the first time at the meeting next week and it is expected there will be considerable discussion on the matter.

Sprinkling Contracts.

Acting upon the recommendation of the mayor, the council voted to have the recorder advertise for bids for the sprinkling of the city's streets on the same plan as that adopted last year.

Sewer on Court Street.

Engineer Kimbrell also made a report to the council on the proposed extension of the sewer system past the asylum site, showing the cost and advantages of different routes. From this report it became apparent to all of the councilmen that it is most advisable to run the extension out Court street and to abandon the 2800 feet which cuts off across country to the present outlet. Councilman Sharon, who has been the chief advocate of retaining the line already laid, last night admitted that he had become convinced that the Court street extension was more feasible and with-drew his opposition. Just what size pipe will be used has not been decided but it is probable that it will be either 20 inch or 22 inch, either one of which will carry several times the present amount of sewage. The sentiment expressed last night was also in favor of the extension of the Webb or Alta street sewers in the near future in order that the southwest portion of the city may have connections. It is probable that a lateral will be run from the Court street extension to connect with the west end school, as the city engineer was of the opinion that such a line is practicable.

Roosevelt and Family AT THE GRAND CANYON

Albuquerque, N. M., March 16.—Roosevelt, his wife and Miss Ethel, arrived at Grand Canyon this afternoon. They will spend tomorrow night seeing and be in Phoenix Saturday.

Wanted—Sewing by the day. Prices reasonable. Phone Red 2551.

IN BANKRUPTCY.

In the District Court of the United States, for the District of Oregon.

In the matter of John E. Beam, a Bankrupt.

To the Creditors of John E. Beam, in the County of Umatilla and District aforesaid, Bankrupt.

Notice is hereby given, that on the 15th day of March, A. D. 1911, the said John E. Beam was duly adjudicated a Bankrupt, and that the first meeting of his Creditors will be held at the office of the undersigned, Referee in Bankruptcy, at Pendleton, Oregon, on March 29th, A. D. 1911, at ten o'clock A. M. of the said day, at which time and place the Creditors may attend, prove their claims, appoint a Trustee, examine the Bankrupt, and transact such other business as may properly come before said meeting.

Dated at Pendleton, Oregon, this 16th day of March, A. D. 1911.

THOS. FITZ GERALD, Referee in Bankruptcy.

NOTICE OF PROPOSALS FOR STREET SPRINKLING FOR THE SEASON OF 1911.

Notice is hereby given that proposals will be received by the Street Committee of the Common Council of the City of Pendleton at the office of the City Recorder in the City Hall building until March 29th, 1911, at 7:30 o'clock P. M. for sprinkling the streets of the city of Pendleton for the season of 1911, the districts to be sprinkled are as follows, viz:

District No. 1.

All streets on the north side of the Umatilla river.

District No. 2.

All streets on the south side of the Umatilla River, west of the east line of Main street, and north of the south line of Webb street.

District No. 3.

All streets lying east of a line beginning at the intersection of the east line of Main street with the Umatilla river, thence following the east line of Main street to the south line of Webb street, thence following the south line of Webb street east to the west line of Vincent street, thence following the west line of Vincent street east to the north line of Bluff street, thence following the north line of

Bluff street east, to the termination thereof, thence southerly to the City limits.

District No. 4.

All streets south of the south line of Webb street, and west of the west line of Vincent street.

The City to furnish sprinklers, wagons and water, and the contractor to furnish horses, harness and driver, and to put up and take down all stand pipes etc.; separate proposals will be received for each district, and no contract will be awarded to any one bidder for more than one district, the hours of sprinkling to be in accordance with the orders of the Street Committee, all bids shall specify the price per team and man per day or 10 hours, time when teams are not engaged in sprinkling to be deducted. The city reserves the right to reject any and all bids.

Dated at Pendleton, Oregon, this 16th day of March, A. D. 1911.

THOS. FITZ GERALD, City Recorder.

NOTICE OF BIDS FOR BRIDGE CONSTRUCTION.

Notice is hereby given that the Common Council of the City of Pendleton will receive bids for the construction of a steel bridge across the Umatilla river on Main Street, in the City of Pendleton, Umatilla County, Oregon, at the City Recorder's office in the City of Pendleton, until March 29th, 1911, at 5 o'clock P. M. Said Bridge to be of the material, and constructed in accordance with the tentative Plans and Specifications therefor prepared by and now on file in the office of the City Surveyor of the City of Pendleton. Each bidder to furnish his own plans, and each bid must be accompanied by a Certified Check in the sum of 1 per cent of the amount of the bid. Payable to the order of the Mayor of the City of Pendleton.

Such bridge to be placed in such position across the Umatilla river as directed by the Common Council. The Common Council reserves the right to reject any and all bids.

Dated this 16th day of March, 1911.

THOS. FITZ GERALD, City Recorder.

An Endless Chain of Sickness.

There are upwards of one million deaths each year in the United States. In 99% of cases the people who die are less than sixty years of age. The diseases due to disease can be escaped just in proportion as the conditions and habits that bring on disease become more widely understood.

Then too a chronic disease which may baffle the skill of the general practitioner may yet be permanently cured by the Physician who has made one line of disease a specialty.

It would be just as absurd for the Professor in a medical college presuming to lecture on all subjects as for the one-Physician who has made one line of disease a specialty.

That is why Dr. B. V. Pierce established the Invalids' Hotel and Surgical Institute many years ago—with a full staff of Physicians and Surgeons—who though educated to practice in all departments of medicine are here assigned to a special department only—to which each specialist devotes his entire time, study and attention.

The sick who have been treated at Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., have much to say in regard to this wonderfully equipped Sanitarium, where all electrical apparatus, as well as electric water baths, Turkish baths, static electric machines, high-frequency current, and other most modern and up-to-date apparatus are used for the cure of chronic diseases. The treatment of chronic diseases that are peculiar to women have for many years been a factor in the cures effected at the Invalids' Hotel and Surgical Institute.

The physicians and surgeons employed are among the most experienced and skillful in the country, men who have made these diseases their life study, and whose highest ambition is to excel in their treatment.

How well they have succeeded may be judged from the fact that their practice embraces cases from every State and Territory of the Union as well as from foreign lands. Many thousands are annually treated, either through correspondence or at Dr. Pierce's Institution. It is an old adage that "Experience makes perfect" and the skilled specialists in this field of practice cure thousands of cases which have been abandoned as incurable by general practitioners.

One of the most wonderful electrical appliances is the X-ray used at the Institute which may be used both in the treatment of various diseases and in the diagnosis of many obscure conditions. With its aid the interior of the human body is no longer the sealed book it has been heretofore. Abnormal states of the bones, gall stones, stone in the bladder or in the kidneys, are shown plainly by what are known as X-ray photographs. Internal tumors, and the enlargement of the diseased organs, are also discovered by this means and in the diagnosis of tuberculosis of the lungs this agent has proven a most valuable aid. When applied to some of the less fatal chronic ailments of germ origin it has proven very effective as a curative agent.

Another interesting proceeding is the violet-ray treatment produced by concentrating the violet or chemical rays from an arc light with a specially prepared carbon upon any portion of the body that may be the seat of pain. Sufferers from neuralgia, sciatica, rheumatism, strains, sprains, or from the obscure exhausting pains the origin of which cannot at times be accurately determined frequently find immediate relief from a single treatment and usually with a little persistence in the use of this aid, comfortable health or perfect recovery is obtained.

The incandescent light bath, consisting of a cabinet in which the patient is bathed in the combined rays of many electrical light globes, has produced really wonderful results in diabetes, sciatica, rheumatism, obesity, anemia, and some forms of kidney and heart trouble. It has also proven valuable in chronic bronchitis, bronchial asthma and various skin diseases. As a general hygienic measure its efficiency can scarcely be over-estimated.

Hundreds are brought to this Institution from far distant states and they go home in a few weeks well and strong. Quite as marvelous are the thousands of cures annually accomplished through correspondence, while the patient remains quietly at home. Others consult in person, and after being examined are provided with especially prepared medicines and return home to carry out the treatment.

Everyone who consults the specialists, whether by letter or in person receives the most careful and considerate attention. Great care is exercised not to over-encourage those who consult the specialists of this institution that no false hopes may be raised.

Consultation by letter or in person is absolutely free—no charge whatever—so that the public when afflicted are invited to write Dr. Pierce at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y.
