## SAYS QUININE WILL NOT BREAK A COLD

### HOW TO CURE COLDS AND GRIPPE IN A FEW HOURS

You will distinctly feel your cold breaking and all the gripe symptoms leaving after taking the very first dose.

It is a positive fact that Pape's Cold Compound, taken every two hours, until three consecutive doses are taken, will end the gripe and break up the most severe cold, either in the head, chest, back, stomach or limbs.

It promptly relieves the most miserable neuralgia pains, headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, mucous catarrhal discharges, soreness, stiffness and rheumatic twinges.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of gripe.

Take this harmless compound as directed, with the knowledge that there is no other medicine, made anywhere else in the world, which will cure your cold or end gripe misery as promptly and without other assistance or bad after effects as a 25 cent package of Pape's Cold Compound, which any druggist in the world can supply.

### INTERNATIONAL ATHLETICS.

#### Great English Universities Anxious to Meet Harvard and Yale.

London, March 23.—Athletic authorities of Oxford and Cambridge met today in joint session to consider the project for holding an international track and field meet between a picked team of American athletes from Harvard and Yale and a similar aggregation of the crack men of Oxford and Cambridge. The plan has met with much favor on this side of the water, and while a definite decision will hardly be reached today, it is understood that the delegates to the conference will do all in their power to bring the matter to a successful issue.

There is a feeling here that the Oxonians and Cantabs would be the victors in such a meet, as both of the great English universities have track teams of unusual excellence this year. In the recent intercollegiate sports the English collegians have such good records as to foster the belief that the sons of Old Eli and John Harvard would have to show unexpected form to hold their own.

The international contests, if held, will be a great sporting feature of coronation year and will be witnessed by thousands of people from all over the world. The middle of July would probably be selected as the date, shortly after the British track championships. This would be six or seven weeks after the American intercollegiate championships.

In former meets between Oxford and Cambridge on one side and Yale and Harvard on the other, the Englishmen were victors in 1899, winning five events to four captured by the Americans, while in 1901 the latter turned the tables, winning by a score of six to three, and by the same score again in 1904. The first and third meets were held here and the second in New York. Yale and Oxford held an international meet in London in 1894, Oxford winning, and in the following year in New York Yale defeated Cambridge by a score of eight events to three.

A real novelty in prepared foods would be predigestible wild oats.

## MAIL ORDER MARRIAGES

### TWO IN SPOKANE TURN OUT DIFFERENTLY

One Is Happy Culmination of Newspaper Romance, While Second Results in Prospective Groom Being "Stung."

Spokane, Wash., March 23.—When Mrs. Marie E. Gray of Akron, O., and J. E. Guy of Potlatch, Idaho, were married in Spokane yesterday, there came to a happy culmination a modern romance that had its origin in the advertising columns of an eastern newspaper, six months ago. The ceremony was performed by Rev. Dr. S. Willis McFadden, pastor of First Presbyterian church, in the parlors of a local hotel.

Guy, who is an expert machinist in the employ of the Potlatch Lumber company in northern Idaho, said that when he read the advertisement announcing that the advertiser, widowed and lonely, was tired of owning herself and wanted a manly and respectable mate, he realized his own position and lost no time in answering the appeal. After six months' correspondence Mrs. Gray came to Spokane, where the bridegroom met her, and the wedding followed. They will make their home in the town of Potlatch.

### Different Experience.

Frank Everett, a rancher at Chester, Wash., had a different experience with a "mail-order" bride. Following an interview with the Spokane agent of a transcontinental railroad, three weeks ago, he dispatched a fat envelope, containing among other things the price of a first-class ticket and sleeping-car accommodations, also \$25 for meals and extras, to a woman in Kansas City, Mo. The bride-to-be was due in Spokane on March 15 but Everett did not lose faith until after waiting five days, when he admitted being "stung."

"The girl, whose name I shall not make public, described herself as 24 years of age, fairly good looking and a first-class cook," Everett said. "She wanted to come west and marry a rancher, but I guess she changed her mind after getting my money. I've been 'bunked' and I'm going back to the ranch, but before I promise again to marry I am going to see the other party on the ground."

Montana Town Feels Quake, Thompson Falls, Mont.—Many residents

of Thompson Falls and vicinity were rudely awakened Monday night about 11 o'clock by a severe earthquake, which lasted for perhaps 30 seconds, rattled doors and windows and jarred dishes and other articles from their resting places. The sensation seemed to be a rolling movement and its course was distinctly north and south. So far, however, no damage is reported.
