among those who attended the Com-
mercial club banquet from the pro-
ject town. He returned to his home
this morning.

THINK MOTHER IS MURDERER.

(Continued from page one.)

visions and great pain, while they
say the two dying lads showed more
the effects of narcotic poisoning, be-
ing in a stupor some time before
death ensued. Dr. Herbert Leiser,
one of the physicians called into the
case, says that he doubts the theory
of ptomaine poisoning and believes
that a narcotic is responsible for the
deaths of the lads. He found a box
of a proprietary medicine said to
contain a strong narcotic in the room
and took possession of it. He also
took charge of the tin pall which the
Chinese noodles were carried to the
Goodwin rooms by the lads.
When the children became ill and
began to vomit the woman says she
gave them mustard in the hope of re-
lieving their pain, but she did not
consider them sick enough to call a
physician.
When the autopsy is held the cor-
oner plans to send the stomachs of
the dead boys to the state chemist at
Seattle and on receipt of his report
will determine whether or not a cor-
oner's inquest will be held.
While the mother of the two boys
has a police court record in this city
she has always taken care of her chil-
dren, and made an effort to keep the
family together, and she is reported
as having been very fond of the two
boys who are now dead. She is in
hysterics this afternoon and a phy-
sician has been at her side to care for
her.

The case is one of great mystery
and the authorities are making a
thorough investigation of the whole
occurrence.

IN POUND.

The following described animal has
been taken up by the marshal of the
city of Pendleton, to-wit:

One white mare about 16 years old,
brand not visible.

If said animal is not claimed by the
owners or those entitled to the pos-
session of it, costs and expenses
against it paid and it taken
away within ten days from the date
hereof, then at 2 o'clock on the 5th
day of April, 1911, the said animal
will be sold to the highest bidder,
at public auction, for cash, at the city
pound, at the Oregon Feed Yard, in
said City of Pendleton, the proceeds
of such sale to be applied to the pay-
ment of such costs and expenses of
making sale.

Dated this 24th day of March, 1911.
THOS. GURDANE,
City Marshal.

TRAINS ARE RUNNING OVER DOUBLE TRACKS

NO. 17 IS FIRST TO MAKE
TRIP ON THE NEW RAILS

Conductor Patrick H. Murphy Pilots
First String of Passenger Coaches
Over Improvement.

The first train to be run over the
double tracks of the O.-W. R. & N.
between this city and the Deschutes
river, was No. 17, due here last eve-
ning at 5 o'clock. In charge of En-
gineer Ben Wilkes on engine No. 198,
and Conductor "Hon." Patrick H. Ma-
haffey, says yesterday's The Dalles
Chronicle. The new system gives ad-
ded facilities for handling of traffic,
putting into service a pass-track 15
miles in length which will save con-
siderable time and trouble in hand-
ling trains. Although the running
time of the passengers will be no
faster, better time can be made.

Active operations are on in the
preparations to continue the double
track east of the Deschutes river
bridge to Blalock, 45 miles from The
Dalles. Twohy Brothers also have
the contract for the construction
work and have established camps at
mileposts 114, 115 and 118. At these
points spurs have been cut into the
main line for the use of work trains.
Twelve carloads of supplies, includ-
ing dump cars and pony engines, have
been unloaded at these camps. Crews,
numbering 500 men, are now on the
ground and this number will be in-
creased to 3000 before many weeks
have passed.

The double-tracking will eliminate
to a great degree the heavy curva-
tures and to accomplish this a great
deal of heavy cut work in solid rock
will be necessitated. Ninety pound
steel is being used for the double
tracks, all of which will be protected
by a double block system that prac-
tically eliminates all possibility of ac-
cidents.

NEW SETTLERS FOR WEST END

(Continued from page one.)

would take too much time. There are
two alternatives, the construction of
a reservoir on the hill south of the
town or the erection of a standpipe
and tank of sufficient capacity and
height to meet all needs. The for-
mer proposition would be much more
expensive because of the extra amount
of pipe it would take to bring the wa-
ter from the hill. Some decision will
be reached shortly as the people are
insistent that they be provided with
a modern water system.

Many trees are being set out at
Hermiston and vicinity at present.
One hundred thousand locust trees
are being put in the ground, which,
if planted in a straight row, would
extend for a distance of twenty miles.
According to R. W. Allen of the ex-
periment station, settlers on the gov-
ernment project are planting in the
neighborhood of 75,000 fruit trees as it
has been proved beyond a doubt that
the irrigated lands are adapted to
horticulture and that such industry
will be one of the most profitable
ones in that section of the country.
Many other improvements are un-
der way on the watered lands and the
settlers of that community, with
hardly a single exception, are satis-
fied and pleased with the country
which they are assisting to reclaim.

Gas Heaters

WHEN THE WINDS WITHOUT ARE
HOWLING, WHEN THE THERMOME-
TER IS IN THE NEIGHBORHOOD OF
ZERO, IS IT NOT REAL COMFORT TO
BE ABLE TO PULL YOUR CHAIR UP TO
