W. J. Warner arrived here today from Pendleton, where he was married to an eastern girl last evening. Mr. Warner is one of Hermiston's attorneys being in partnership with J. T. Hinkle. The friends of Mr. Warner knowing that he would arrive home this morning at once went to his home and commenced to "fix" things up for their arrival, taking a wagon load of old tin cans, etc., to the house, and putting signs on the walls to insure a hearty welcome to the bride and groom.
John W. Campbell, one of Hermiston's business men, attended the Pendleton Commercial club banquet last evening and made an address boosting the Umatilla project.

JAMES JOHNS MAKES GOOD AT UNIVERSITY

(Special Correspondence.)
University of Oregon, Eugene, Ore., March 25.—An eastern Oregon student that is blazing a trail of glory through college is James Johns of Pendleton. Johns is a junior and has become one of the most influential at the university.
Like all other eastern Oregon representatives he first came into the student limelight by a phenomenal aptitude for track athletics, and he made Bill Hayward, Oregon's famous trainer, who had just turned Dan Kelly, another eastern Oregon athlete over to the world, open his eyes when he ran the quarter mile in 59 2/5 seconds, smashing the college record of 51. And "Jimmy" claimed that he had never run a race before. Since that surprise Johns has taken practically all the first places in this event in intercollegiate meets. The total number of points made by him in two years total well up to a hundred.
The quarter mile race is the hardest event in the whole track meet, for it is a distance run, covered in sprint time. For a whole quarter of a mile he runs at a speed of 17 1/2 miles an hour. He is a perfectly built runner, with long tapered legs and a stride that seems to defy distance.
Johns was assistant football manager last year and this year he has been given the honor of manager. Already he has prepared his 1911 schedule, and is now planning upon a successful financial season. In football several thousand dollars must be spent and earned and the position is one of great responsibility.

Every Mother is or should be worried when the little ones have a cough or cold. It may lead to croup or pleurisy or pneumonia—then to something more serious. Ballard's Horehound Syrup will cure the trouble at once and prevent any complication. A. C. Koeppen & Bros.

Woman's Nature

It is the nature of women to suffer uncomplainingly, the discomforts and fears that accompany the bearing of children. Motherhood is their crowning glory, and they brave its sufferings for the joy that children bring. No expectant mother need suffer, however, during the period of waiting, nor feel that she is in danger when baby comes, if Mother's Friend is used in preparation of the event. Mother's Friend relieves the pain and discomfort caused by the strain on the different ligaments, overcomes nausea by counteraction, prevents backache and numbness of limbs and soothes the inflammation of breast glands. Its regular use fits and prepares every portion of the mother's system for a proper and natural ending of the term, and it assures for her a quick and complete recovery. Mother's Friend is sold at drug stores. Write for free book for expectant mothers. BRADFIELD REGULATOR CO., Atlanta, Ga.

EVEN LEAVES NAMES BEHIND. The somnarium rest cure establishment which has just been opened in Houraine, France. The only duty enforced on patients there is to sleep. On entering the patients leave the outside world behind. All clothes worn outside must be discarded for new ones. The patients are sufferers from nervous depression, harmless manias, loss of will power, loss of memory, melancholy, drunkenness, or just worry and a too busy Paris season.

They leave not only their clothes but their names behind on entering. They assume the names given to the rooms they occupy. The rooms are called after famous doctors, and the inmate of the Charcot room, for instance, is known only as Monsieur or Madame Charcot.

The practical arrangements of the Somnarium seem judicious. All the rooms for patients in acute stages are painted in indigo blue, a color thought to be soothing to neurasthenics and comforting to dipsomanics. When the period of convalescence is reached patients are removed to apartments painted green, this color being still and soothing and a tonic as well. For the rest the only imperative order is sleep. If patients cannot obey and cannot sleep somniferous scents are wafted about the establishment, such as perfumes of cardamon, hennane and myrr—European Letter to the New York Sun.
