BIG CROSS COUNTRY RUN NEXT FRIDAY

One of the most important and interesting athletic events on the calendar of the local high school is the second annual interclass cross-country which will be pulled off over a three and one-half mile course on Friday afternoon. Although this is but the second year of the "Modified Marathon" it is very popular and more students participate in this sport than any other line of athletics. Already there are twenty-six entries and there will probably be at least thirty men who will start the race. Last year twenty-three out of the twenty-five starters finished the race. There will be a bronze medal awarded to the winner and pennants to the next four men who cross the tape. The class rivalry is very keen, especially between the Juniors and seniors. The scoring is the same as that used by the different colleges in cross-country running, that is, the first man to finish receives twenty points for his class, the second man receives nineteen for his class and so on down. The first five men of each class to finish win points for their class. Thus it is necessary for five men from each class to finish in order to win the race. There are several strong men in the race this year and it is hard to pick the winner. Boylen, winner of last year's race will be handicapped thirty seconds, or two-hundred yards, whichever he may choose. The highest point winners of last year's race, who will run again, are A. Jordan, Elmer, Phinell, Carroll, Sturdivant and Strain. Among the new men who are showing up in good form are Nolle, Russell, Dorsey and Ferguson. The full list of entries of each class, the officials and the time of the start will be given out at a later date.

Dickson Will Retire.

New York—Something of a sensation has been caused in financial circles by the announcement of the retirement of William B. Dickson as first vice-president of the United States Steel corporation, to take effect on May 1. Dickson is another of Andrew Carnegie's "young men," and his retirement is looked upon as proof of the purpose of J. P. Morgan to rid the "steel trust" of the Carnegie influence. Wall street believes that Dickson has been forced to "walk the plank," just as did Schwab, first president of the "steel trust," and Corey,

who succeeded him; Gayley, first vice-president under Schwab; Preston and Edensborn, third vice-presidents, and others—all Carnegie men, and, for that reason, it is alleged, marked for elimination by the Morgan interests. It has been ten years since Morgan secured control of the United States Steel corporation, and since then one man after another of those whom Carnegie helped to the top have been cast into the discard.

Barbers Waging Battle.

At 2:30 this afternoon, Attorney Slater for the defendant in the Mark

Patton vs. W. B. Humphrey suit concluded his case and the plaintiff was called to the stand by Attorney Roy Raley. The case will probably be finished by evening. This is the case in which Patton, who was a former partner with Humphrey in the Court street barber shop, asks for an accounting and a division of the profits of the business, alleging that Humphrey had refused him access to the books.

"Just struck one," said the athlete as the footpad went down before his stinging blow.
