In Masculine Attire. New York—Dr. Mary Walker is today celebrating a semi-centennial all her own. It was just fifty years ago, according to the newspaper records that Dr. Mary Walker, then a handsome young woman, adopted masculine attire. Ever since 1861 she has always appeared in public clad in trousers, frock coat and high hat. She has bravely outlived the criticism and merriment caused by her action and her clothes are now accepted as a matter of course by the statesmen at Albany, to whom she is a familiar figure.
When she first began to wear pants, Dr. Walker declared that all American women would speedily follow her example. While disappointed in this belief she finds encouragement in the harem skirt, which she points out is a revival of the bloomers invented by Mrs. Amelia Jenks Bloomer back in 1864, and which had a short vogue in this country. While the harem skirt is an improvement over skirts, says Dr. Mary Walker, it is not nearly as good as the trousers.
Dr. Walker asserts that corsets and skirts are responsible for much of the disease and sickness in this world and that men suffer as well as women since no woman can be perfectly healthy and bear healthy children under the present regime.
That women are free, legally, to adopt masculine attire whenever they wish is the declaration of Dr. Walker, who brands as a falsehood the old story that she had a special law passed by congress giving her the right to wear pants. All a woman has to do, she says, is to adopt men's clothes and keep on wearing them until the clamor subsides. There is no law to prevent, she asserts. Women have legs as well as men, declares Mrs. Walker, and they ought to have them protected as well as men.
