HIGH SCHOOL LADS LOSE AT ATHENA

(Special Correspondence.)
 Athena, Ore., April 1.—A large crowd attended the benefit ball of the baseball club of this place at the K. P. hall last evening and the proceeds were very good. Quite a number of people were here from the neighboring towns.
 The Weston high school baseball team defeated the local high school team here today to the tune of 8 to 1. The visitors displayed considerable team work and done some grandstand playing. One boy in center field, in an attempt to catch a fly, fell just as he touched the ball and the ball being detracted from its course went up into the air and dropped into the hands of the fielder who was lying flat on his back. The local boys have not been together much and the result was that a number of errors were made, which cost the boys the game to Weston.

day.
 Reginald Vell, of London, brought the suit, which involves \$1,800,000. Early in his career as a railroad builder, Mr. Moffat was bitterly fought by several railroad interests in Colorado and had great difficulty in securing funds to finance his railroad projects. When everything seemed darkest he met in this city the English promoter, Vell, who said he could raise the money needed in England. An English engineer was sent out to Colorado at Moffat's expense to look over the property. Vell, according to Mr. Moffat, failed to produce results and Moffat secured the needed money elsewhere. Later Vell brought the \$1,800,000 suit against the Colorado railroad builder, alleging that a memorandum which Moffat had made was a contract and embraced an option on the bonds of the Moffat road. Moffat's attorney contend that the memorandum was neither a contract nor an option, and that whatever it was, Vell was unable to carry out any part of it.
NORTHERN PACIFIC AGREES ON SUMMER TOURIST RATES
 Walter Adams, agent Northern Pacific Railway company, has been advised that summer tourist rates, and dates of sale for coming season, have been agreed upon. Tickets will be on sale on various dates during the months of May, June, July, August and September. In past seasons it has been the custom to put these tickets on sale but four days in each month. This has been found unsatisfactory on account of forcing the travel on these days resulting in congestion. To avoid this a large number of additional dates of sale have been arranged for the coming season and it has been decided to make the going transit limit fifteen days instead of ten days as in the past. The final limit will be ninety days from date of sale, but in no case later than October 31st, 1911. Stopovers will be granted at any point within the transit limits of the ticket, and the dates of sale have been arranged so as to accommodate the different conventions to be held throughout the east during the summer months. Full information as to dates, routes, sleeping car accommodations, etc., can be obtained by calling upon Mr. Adams.
PILES CURED IN 6 TO 14 DAYS.
 PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.
