Import of its spiritual message. Christian Science calls upon mankind for a frank and fearless revision of its own beliefs about the unchanging God, His man and His universe. This age, which is not afraid to fly in the face of the sun on filmy wings, is asked to display the necessary courage to pass in review the things which pertain to its own salvation from false gods. Why should not right and just views concerning God and His universe be capable of more precise statement? Why should it be thought a thing unreasonable with any one that God can become better understood by the average man than has been the case in the past? Why should not the understanding of how to grow in grace, how to deepen and broaden one's spiritual conceptions, progress according to law. And why should not this knowledge concerning the fountain-head of all knowledge, the Giver of all good gifts, the absolute eternal Principle of all life, in whom we live, and move, and have our being—why should not this knowledge constitute demonstrable Science?

Christian Scientists believe that it does; that Jesus pointed out the only true, final and real knowledge when he said, "And this is life eternal, that they might know thee, the only true God, and Jesus Christ, whom thou hast sent."

The Discoverer. It will hardly be necessary here to insist upon the fact that religion should save the sinner. Whatever may be the doctrines which divide the various branches of Christendom, all are agreed at least upon this point, that it is the natural work of religion, the business of Christianity, to save the sinner. But there is no such agreement regarding the sick. Jesus healed the sick, his disciples and apostles healed the sick, the early Christians for some three hundred years after the crucifixion healed the sick, by spiritual means; but during the intervening centuries the world has more and more relegated the healing of the sick to a special profession, using material means.

Since Mrs. Eddy's discovery of Christian Science the healing of Jesus' time has been reinstated, in accordance with his unmistakable injunction to his followers, and today hundreds of thousands of men, women and children in all portions of the globe rise to bless the good and brave women to whom they owe health and happiness.

It is difficult to speak in moderate praise of one who is performing so stupendous a service for mankind. One can only rejoice that a great and growing volume of gratitude is finding its way to her from those who, through her teachings, have been delivered from pain and sorrow, from the fear of torment and the despair of godlessness. Special circumstances seem to have fitted Mrs. Eddy from her youth for the mission of mercy to which God called her. Born of New England parents, she grew up in an atmosphere of wholesome freedom.

C. SCIENCE.—2 and received an exceptionally comprehensive education, both secular and religious. As a woman of progressive and advanced ideas, she investigated fearlessly the questions which came before the public. Especially was she interested in the healing art, and her quick recovery from the result of an accident, through the revelation of the spiritual meaning of the Bible, led to her discovery of Christian Science in 1866.

In 1875 followed the publication of her epoch-making work, the Christian Science text-book, "Science and Health with Key to the Scriptures," now widely distributed among the civilized nations of the earth. This book is proving itself to be a potent factor in the elevation of the human race, and is literally making history by remodeling the lives and careers of multitudes. Mrs. Eddy has been the active leader of the Christian Science movement from its conception, and her writings continue to mold its growth and development along the lines of the greatest usefulness to mankind. The reward of the good and faithful servant is hers, and this is a source of gratification to every fair-minded person.

Every family and especially those who reside in the country should be provided at all times with a bottle of Chamberlain's Liniment. There is no case of an accident or emergency, it is most excellent in all cases of rheumatism, sprains and bruises. Sold by all dealers.

Electric Line for Albany. Albany, Ore.—Preliminary operations for the construction of the Oregon Electric railway between Albany and Salem were begun today, when an engineering party of six commenced to run lines from the poor farm to the city limits over the right of way southwest of town. Other lines are also run.

TO CURE A COLD IN ONE DAY. Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

Forest Grove to Pave Streets. Forest Grove, Ore.—The city council last night decided to pave 19 blocks of the city streets with bituminous hard surface pavement and will have the contracts signed at once, so that the work will begin soon. It is the purpose to have the street paving decided upon completed before the fall rains set in.

FROM COTTON FIELD TO KITCHEN. Cottolene comes from the oil of the nutritious cotton seed. Without touch of human hands, it flows through the factory from one process to another, and finally into pails sealed air-tight by special machines, and protecting the Cottolene also from dust and odors.

Compare this with most other cooking fats—made from hog fat, which is always more or less indigestible, and inferior in quality—and marketed in tubs or loose-covered pails. From cotton field to kitchen, Cottolene is made with the single aim of purity, healthfulness, cleanliness. Of what other cooking fats can this truthfully be said?

LECTURER TOLD OF CHRISTIAN SCIENCE

W. D. McCracken Addressed Large Theatre Audience

Religion Founded by Mrs. Mary Baker Eddy Explained to Pendletonians—Speaker Was Introduced by President Smythe of Commercial Club.

To an audience that filled the Oregon theatre last evening W. D. McCracken, author and lecturer, delivered his address upon the subject of Christian Science. The speaker was introduced by Dan P. Smythe, president of the Commercial club, and for two hours he held the close attention of his audience. Mr. McCracken is a scholarly lecturer and speaks with earnestness. The following is a synopsis of the address given last evening.

Synopsis of Address. The message of Christian Science is simple and straightforward and responds to a universal need. It is not easily treated as an academic theme, nor is it, strictly speaking, a debatable question, because it provides the proof of its own correctness, day by day and hour by hour, and these proofs are final and convincing. Christian Science does more than preach or promise; it fulfills. While it arouses the noblest aspirations and expectations of mankind, it also justifies its teachings by definite results. Like the good Samaritan, it comes to those who have fallen among thieves, whom false conceptions have robbed of health and happiness, whom material methods have passed by on the other side, and pours into their wounds the oil and wine of gladness and inspiration, takes them to the inn of shelter, and leaves

with them the coin of priceless value which will insure their complete recovery and, in time, their complete salvation.

Religion is Progress. This is an age of practical achievement, and Christian Science is in thorough accord with the demands made for proofs. It lives and grows in favor with the needy of the earth by reason of its fruits. Christian Science makes no claim which it cannot substantiate and so, in this day of advance in every department of human activity, it is demonstrating its right to be known as the religion of progress.

Not that God, who constitutes the basis, foundation, and Principle of all true religion, ever changes or progresses; not that the teachings of Jesus the Christ, the Founder of Christianity, need to be revised or the Bible rewritten. We read in the Scriptures that with God there is neither variableness nor shadow of turning; and we also believe that the precepts and warnings of Jesus can never become antiquated, and that the Bible of our fathers, the great treasure-house of Christendom when spiritually interpreted by Christian Science suffices for our daily needs. The thread of gold which gleams throughout the fabric of the Bible will shine forth forever to be apprehended by the receptive thought everywhere.

So it is not a new Bible which Christian Science contemplates, but one and the same Bible, explained in a spiritually progressive manner. It is not a new God which it proclaims, but the only true God, our Father which is in heaven. It makes no attempt at an improved Christ, for there is but one Christ, who is in the bosom of the Father, perfect, eternal and indestructible. Christian Science is progressive, and marks an advance in religion because it throws the strong light of Science upon the nature and attributes of Deity, upon the teachings and works of the Christ, and because it picks out from the Bible's make-up the essential imperishable

Healthy Mothers

The bearing of children is frequently followed by poor health for the mother. This supreme crisis of life finding her physical system unprepared for the demands of nature, leaves her with weakened resistive powers and sometimes chronic ailments. This can be avoided if Mother's Friend is used before the coming of baby, and the healthy woman can remain a healthy mother. It is the only remedy that perfectly and thoroughly prepares the system for healthy motherhood, and brings about a natural and easy consumption of the term. Women who use Mother's Friend are always saved much suffering when the little one arrives, and recover more quickly, and with no ill effects, or chronic troubles. Every expectant mother should safeguard her health by using Mother's Friend, thus preparing her physical condition for the hour of motherhood. This medicine is for sale at drug stores. Write for free book for expectant mothers.

PENDELTONIAN SLATED FOR APPOINTMENT

EX-CONGRESSMAN ELLIS MAY SUCCEED MALCOLM

Rumor That Local Man May Be Appointed by Taft for Collector of Customs—Many Believe That Nomination Has Been Decided Upon.

Rumor has it that ex-Congressman W. R. Ellis of this city is slated by President Taft for appointment as successor to P. S. Malcolm, collector of customs, and there are those who profess to believe that his nomination has been tentatively decided upon. Mr. Ellis is now in Portland and when questioned upon the matter by an Oregonian reporter, stated he had heard nothing authentic after inquiring first if the report had emanated from Washington.

At the same time the president is expected to send to the senate for confirmation the name of another republican to succeed United States Marshal Colwell, according to the Oregonian. Who this nominee will be is an unknown quantity, but the chances favor John B. Coffey of this city. The third federal plum available at this time that of appraiser of Customs, probably will go to C. V. Johnson of Corvallis. It is believed the president will choose Johnson as successor to the late General Summers.

Ellis Close to Taft. The probable appointment of Ellis comes as a decided surprise. While in congress, Ellis was a consistent supporter and friend of President Taft. As a candidate for Malcolm's place Ellis is believed to have the hearty support of Representative Hawley in addition to the cordial offices of the president himself. Hawley and Ellis have been intimate in their official relations at Washington.

For several days it has been intimated strongly in political circles that President Taft would not send to the senate the name of either Malcolm or Colwell for further consideration in the way of reappointment to offices they now hold. In the regular session the nominations of these men for reappointment were reported upon unfavorably by the committees to which they were referred. Rather than have the nominations fail of confirmation by the senate, the president withdrew the names of both appointees. At the last minute, the president sent Colwell's appointment back to the senate, but congress adjourned before any action could be taken. Malcolm, having once been confirmed, continues to hold office until his successor is appointed and qualifies.

Report that Ellis and Johnson and probably Coffey will be named by the president for the three federal posts in this state now open to appointment is generally taken to indicate an alignment between Representatives Hawley and Lafferty with National Committeeman Williams as the third member. The object of this supposed compact is to enable this trio, if possible, to control the distribution of patronage in this state. Lafferty's friends, however, insist that he is pursuing an independent course at Washington, having a desire to work in harmony with the other members of the delegation without committing himself definitely to either faction.

Will Stop Land Frauds. Hood River, Ore.—Hood River Realty board members propose to stop if possible, any crooked work on the part of promoters of Hood River orchard lands, operating in the east. A promoter in Minneapolis, selling Hood River lands under false pretenses, as is alleged, is a subject of investigation by the board. A committee appointed to investigate the 80-acre tract being disposed of there in small holdings, returned a report yesterday that there was but a small fraction of the tract fit for orchard purposes and the secretary of the board has telegraphed the report to the Minneapolis real estate firm from which the Hood River promoter operates. Hereafter the Hood River Realty board desires closely to scrutinize Hood River promotion projects to protect the public from imposition.

Steamer Burned at Newport. Newport, Wash.—While lying at her moorings in the Pend Oreille river Wednesday evening the steamer Ruth burned to the water's edge. It was lying opposite the Fidelity mill at the time the fire started.

Chamberlain's Stomach and Liver Tablets assist nature in driving all impurities out of the system, insuring a free and regular condition and restoring the organs of the body to health and strength. Sold by all dealers.

Connell Has New Marshall.

Connell, Wash.—A. S. Scott has been appointed marshal of Connell and assumed the duties of his office today. This is the first time that the people of Connell have had an officer of their own. With the support of the council, it is expected that the town will have a general cleaning.

"Gee!" said the crook, as myriads of stars were clouding his vision. "I'm glad I didn't meet you an hour ago."

SIMPLE REMEDY CURES APPENDICITIS
