

DOCTORS FAILED. RESTORED BY PERUNA.

Catarrh of the Lungs Threatened Her Life.

Miss Ninette Porter, Braintree, Vermont, writes: "I have been cured by Peruna. "I had several hemorrhages of the lungs. The doctors did not help me much and would never have cured me. "I saw a testimonial in a Peruna almanac of a case similar to mine, and I commenced using it. "I was not able to wait on myself when I began using it. I gained very slowly at first, but I could see that it was helping me. "After I had taken it a while I commenced to raise up a stringy, sticky substance from my lungs. This grew less and less in quantity as I continued the treatment. "I grew more fleshy than I had been for a long time, and now I call myself well."

THE NOBLE FEW.

Few are the clear, strong spirits, who can bear To look on Truth in her unclouded blaze; Few are the high, heroic souls, who dare, Above the low pursuit of gain to rise Their firm, unbending purpose; few can gaze At virtue, on her pure and awful throne— Ah! few can love the thesacal coin she pays— But they must love it, for the souls alone Who master self can claim our birthright as their own. —James Gates Percival.

GETTING CLOSE TO HOME.

People of Walla Walla are discussing the feasibility of adopting the commission form of government. Already the agitation for this reform has reached the stage that the weekly commercial club luncheon this week was devoted to consideration of the matter.

The Walla Walla Bulletin is advocating the adoption of the commission plan and has forth the following to show the merits of the commission plan that may be adopted under the Allen bill passed by the last Washington legislature:

The Commission form of government abolishes ward lines, party politics and the old division of city officers into legislative, executive and judicial departments. In place of this it substitutes a board, consisting of the mayor and two commissioners, who manage the affairs of the city just as a board of directors manage the business of a bank or any large corporation, who are invested with all the powers of city government and who are elected by the people of the whole city, but without any party designation.

These three men divide the duties of the city government among themselves into three departments of Public Safety, Finance and Accounting, and Streets and Public Improvements. They can elect all the subordinate officers necessary to the conduct of the city business, such as chief of police, city clerk, city engineer, city treasurer, etc. These subordinate officers may be discharged at any time for any misconduct or lack of attention to duties. All other subordinates are selected by the men in whose departments they are to serve and are removable for cause.

It will be seen that directness and simplicity are the main characteristics of the plan. The great purposes are to make the city government feel responsive to public opinion and also to make it efficient in administration. To carry out these two fundamental ideas two other great principles have directed nearly all the details of the charter, namely: to confer upon the governing body great power, and to hold the governing body strictly responsible for the right use of that

power. Publicity and efficiency are the watchwords of commission government. Candidates must make a public statement of their campaign expenses, there can be no secret meetings of the city council, every ordinance appropriating money must be on public file for seven days before it becomes effective, all franchises must be submitted to a vote of the people for approval before they become operative, officers must have no secret obligations to public service companies in the way of passes, special rates, free service, etc. These specific provisions for publicity are designed to bring everything in connection with the city government out into the open light. Every meeting of the city council is minutely reported in the newspapers and public opinion is rendered effective by the existence of the provisions for the initiative, referendum and recall.

IN THE MELTING POT.

It is estimated that since the year 1820 upwards of 28,000,000 immigrants have come to this country, the vast majority from Europe, says the Inland Herald of Spokane. In the second generation for the most part, these people became not only Americanized as to belief and custom, but as to language. But in the first generation the numbers of strangers are so great that newspapers are published in their own vernacular. The total circulation of these newspapers is estimated to be 7,000,000, the premier place being taken by German newspapers with a circulation of over 2,000,000. Next comes French with 1,500,000; the Norwegian with 415,000; Bohemian 369,000; Swedish 300,000; Hebrew 200,000; Italian 283,000; Polish 210,000; Spanish 150,000.

But this does not exhaust the list, except for circulation exceeding 100,000. There are other newspapers numbering 148 which are published in Armenian, Arabic, Bulgarian, Chinese, Croatian, Finnish, Irish, Greek, Dutch, Hungarian, Japanese, Lithuanian, Portuguese, Roumanian, Russian, Ruthenian, Servian, Slovak, Slovenian and Welsh. The total number of foreign newspapers in the United States is 1188.

This number of foreign newspapers with their vast circulation is being cast into that great melting pot from which shall emerge the American nation, and no wonder governments are occasionally crude and legislatures puerile when so great a variety of people has to be educated in the principles which underlie American social life. It is a task worthy of the best statesmanship in the nation and it is a task that as long as the immigration goes on in the manner which it has been doing for so many years past, will never cease. That here and there inequality or injustice crops out, is hardly to be wondered at; that so much has been done, so much progress made in face of the tremendous difficulties, is that which is the real wonderment. It is that which makes the rise of the United States into its

HOW HE CURED HIS SKIN DISEASE

About twenty years ago I began to break out with Eczema on my head, legs and arms, and commenced treatment with the local doctors, but did not get much relief. I continued to treat the disease under the direction of different physicians for two years, and at the end of that time they said the disease was chronic. I then quit them and tried various ointments, salves, lotions, etc., for another two years, but soon I was as bad off as before, so I finally decided to let medicine alone, and for twelve or thirteen years I suffered intensely from the Eczema. During the time I lost about half of my hair. At last I began S. S. S., doubtful of a cure, because the disease had run on so long, but I soon discovered that your medicine was doing me good, and continued to take it. After taking S. S. S. for awhile I was completely cured of the Eczema, not having a single spot left on my body, which before was almost completely covered with the eruption. I waited until the Spring to see if it would return, but have seen no signs of it, and am satisfied the cure is permanent. It has been several years now and I do not believe I will ever have any return of the trouble. 1017 Hackberry St., Ottumwa, Iowa. R. C. NORFOLK.

What S. S. S. did for Mr. Norfolk it can do for every one who is afflicted with a Skin Disease. He is just one of the many thousands who have cured themselves by the simple process of purifying the blood and removing the cause from the circulation. We want you to be cured if you have any skin trouble, and shall endeavor in this short talk to tell you just why S. S. S. will accomplish the desired result.

The skin is composed of two distinct layers. One is known as the epidermis or outer skin, which has no fibres, and serves principally as a covering to the body. The other is known as the derma or true skin, and is composed of elastic fibres, fat tissue, glands, lymphatics, nerves, etc. The thousands of tiny veins and arteries with which this lower section is interlaced, supplies the cuticle with healthful properties from the circulation to keep the skin smooth and healthy. We can therefore readily see how necessary it is for the blood to be pure if the skin remain free from disease, and also why humors and acids in the circulation always find their way to the surface and cause skin affections.

All skin troubles are due to a humor or acid in the blood. Instead of supplying rich, nutritive properties to the cuticle, the circulation constantly deposits an acid impurity into the sensitive fibres and tissues. This causes inflammation of the under layer of the skin which splits or breaks the thin outer tissue and causes an ulceration of the glands, producing a discharge upon the surface, in the form of Eczema, Tetter, Salt Rheum, etc. There is likewise a dry form of skin disease, such as Acne, Psoriasis, etc. In these varieties the humor in the blood, diseases the pores, hair follicles, etc., causing them to swell and protrude to the outer surface. Pimples, rashes, eruptions and like troubles are all due to impure blood, and only a blood purifier can cure them. Salves, washes, lotions, etc., will perhaps afford some temporary relief from the itching, and assist in keeping the skin clean, but such treatment can have no effect on the humors in the blood, and therefore never do any permanent good.

S. S. S. cures Skin diseases of every kind by neutralizing the acids and removing the humors from the blood. S. S. S. cools the acid-heated circulation, builds it up to its normal strength and thickness, multiplies its rich, nutritive corpuscles, and adds to its purity and nourishing qualities in every way. Then the skin, instead of being irritated and inflamed by fiery humors and acids, is nourished, soothed and softened by a plentiful supply of rich, pure blood. S. S. S. is the greatest of all blood purifiers and therein lies its ability to cure skin diseases. It cures Eczema, Acne, Tetter, Salt Rheum, pimples, boils, rashes and all eruptions of the cuticle. These troubles cannot remain when the cause has been removed, and S. S. S. will certainly remove the cause by purifying the blood. Book on Skin Diseases free to all who write.
