In which they are investigating the subject of horticulture. They are studying that subject from A to Z and it will not be long until they will know just what to do in order to get the very best returns from their irrigated tracts.

**YOU SHOULD BE THERE.**  
The Commercial club luncheon this evening promises to be an occasion of even greater interest than the first monthly affair held in March. With C. C. Chapman, secretary of the Portland Commercial club, as a guest, and with important subjects up for consideration every member of the club should be in attendance. The interest in the work of the club is now stronger than it has been in several years and this interest should be maintained until some positive results are obtained. The club has some good work underway at present. It is after a new theatre and likewise a permanent home for the club itself. It looks now like both these improvements may be had. They will be forthcoming if only the right work is done.

Be on hand tonight.  
**GET BOTH OF THEM.**  
There are a great many people who would regret it should the agitation for a Commercial club home interfere in any way with the move for a new theatre. But there is no reason why there should be any conflict. Both improvements are needed and probably can be had this summer. In the view of the East Oregonian, Commercial club people should work for both enterprises though it would be proper to give the new theatre first place upon the program. This because the sentiment of the local public demands that a new playhouse be provided before another theatrical season arrives.

Get a new theatre and then a club house. There is no danger of doing too much.  
No sooner is an "inside story" published relating to the mobilization of troops on the Mexican frontier than an authorized denial is sent forth from Washington. It is hard to know just what to believe in such cases. Especially so with a presidential election not many months distant.

If an election should be held here at this time to decide who is the most unpopular man Harry Hart, the dog catcher, would have a walk over.  
It might be well to wait until the ball team has played a few more games before deciding upon an appropriate name for the bunch.  
Boosters are always welcome to Pendleton.

**OWED IT ALL TO HAINES.**  
Bob Haines, actor is a graduate of Missouri University at Columbia. Some years ago he was a member of James O'Neill's company playing "Monte Cristo." Through him the O'Neill company obtained a date at Columbia university under the auspices of the students. Everybody knew Bob and therefore wanted to see the show do well. They all got out and sold tickets. Bob's fraternity worked especially hard. The result was that the company played to \$1-500 in one night.

The news spread around in theatrical circles that the O'Neill company had played to \$1500 at Columbia, and other companies began to arrange their routes to get to the town. Some of them made long jumps.  
Last summer Haines visited Columbia just to spend a week with old friends. One night a man stopped him on the street.  
"Say," the man said, "were you the fellow who got James O'Neill \$1500 here with the 'Monte Cristo' company?"  
"Yes," Haines replied. "Who are you?"  
"My name is Burke," the man replied. "When I heard of that \$1500 I jumped my 'East Lynne' company 500 miles to get here. We played to \$32."

"What are you doing here now?" Haines asked.  
"I'm a truck gardener three miles off. I couldn't get out of town. Now I'm doing well—thanks to you."  
—Kansas City Times.

**TODAY'S BIRTHDAY SKETCH.**  
Viscountess Helmsley, who has been nicknamed the health crusader of English society, is receiving congratulations today. She is not quite as frank about her birthday as about her splendid work, but congratulations are none the less sincere.

**STANFIELD STRAWBERRIES**  
The Stanfield Fruitgrowers' association has purchased 75,000 strawberry plants from Hood River people. They are the Clark Seedless, the variety that has made the Hood River strawberry famous. It is the belief of the settlers on the Furnish project that they have a good strawberry country and that the 75,000 plants now arriving will demonstrate this fact.  
Certainly the settlers in that section have a right to believe strawberries and other small fruits will do well there. The climate and altitude of the project favor growing such fruits. Also they have the soil, the water and good transportation facilities. Aside from these things all that is needed are people who will work carefully and intelligently. That the people in the west and are of this sort is indicated by the manner

# S.S.S.

## CURES BLOOD POISON

A great many so-called remedies for Contagious Blood Poison are composed almost entirely of strong mineral ingredients. They seem to be compounded with the idea that one poison will counteract another—provided the stomach and delicate portions of the system can withstand the effects of the strong treatment. These concoctions are intended to kill the poison in the system. In this article we want to tell you of S. S. S., a purely vegetable remedy for Contagious Blood Poison, a medicine that not only cures the disease, but one which from the first dose has a fine tonic effect upon the stomach and the entire system. Nor does S. S. S. attempt to kill the germs within the system, but cures by REMOVING them from the blood—which is absolutely the only way to cure the disease.

It does not require any argument to establish the fact that a blood disease can be cured only by a blood purifier; every one will admit the truthfulness of this statement. The question of most importance therefore is, what medicine has proven by actual results its superiority as a blood purifier? We claim this distinction for S. S. S., and offer as proof the fact that for more than forty years it has been sold under this claim and the demand for it has steadily increased, and we have thousands of testimonials from cured patients from all parts of the country.  
Contagious Blood Poison, as the name implies, is an infectious blood taint which may be communicated from one person to another. Its virus is of a most insidious nature, multiplying from an insignificant germ in the blood, until it becomes a thorough systemic poison. Its first symptom is usually a tiny sore or pimple, but it rapidly spreads, and in a short while the entire body gives evidence of the poison in the blood. The mouth and throat ulcerate, glands in the groin swell, the hair begins to come out, copper-colored spots appear on the body, and frequently running sores and ulcers break out on the flesh.

A condition of such serious nature requires proper treatment. Not only must the disease be driven out, but the system which has been weakened by the ravages of the poison, must be built up before health can be restored.  
**S. S. S. CURES CONTAGIOUS BLOOD POISON BY PURIFYING THE BLOOD.** It goes into the circulation and removes the last trace of the infectious virus, acts with fine tonic effect on the stomach, bowels, kidneys and all portions of the system, and thus makes a perfect as well as lasting cure. S. S. S. is made entirely of roots, herbs and barks, each of which has a specific action on the system. Not a particle of mineral of any kind enters into the composition of this great medicine. S. S. S. is perfectly safe for any one to take, and instead of upsetting the stomach as mineral medicines do, it tones up this important member and makes digestion easy. Thousands have cured themselves of Contagious Blood Poison by the use of S. S. S., and if you will write and request it we will send you, without charge, a Home Treatment Book, which will give you all necessary information for curing yourself at your own home. We will also give you free any special medical advice you ask for. S. S. S. cures by making pure, healthy blood—Nature's real remedy.

**S. S. S. CURED HIM.**  
I was afflicted with a terrible blood disease, which was in spots at first, but afterwards spread all over my body. These soon broke out into sores, and it is easy to imagine the suffering I endured. Before I became convinced that the doctors could do me no good I had spent a hundred dollars, which was really thrown away. I then tried various patent medicines, but they did not reach the disease. When I had finished my first bottle of S. S. S. I was greatly improved, and was delighted with the result. The large red spots on my chest began to grow paler and smaller, and before long disappeared entirely. I regained my lost weight, became stronger and my appetite greatly improved. I was soon entirely well, and my skin as clear as a piece of glass.

body at least once a week. Work but do not worry.  
Lady Helmsley from the first, has been the leader of this English campaign.

**TURNING THE TABLES.**  
The bridegroom and his bride were starting on their honeymoon. Just as they had taken their seats in the train one of the bridegroom's chums hastily came along to bid him good bye.  
As the young husband extended his hand the friend snapped a handcuff on his wrist. The groom had been expecting a trick of some kind and before the practical joker could play a similar trick on the bride, he found the other handcuff snapped round his own wrist. He was chained to the happy bridegroom himself!

"That's a good one against me, Harry," he said, with a sickly smile, "but I shall have to ask you to come to the door with me and get the key for these things. A man on the platform has it."  
Just then the guard's whistle sounded and the train started off, and it made no stop for the next fifty miles. Before that, however, the guard, with the aid of a file, succeeded in separating the "prisoners."  
The joker meanwhile had to pay full fare both ways—London Express.

**GRIEF ALL AROUND.**  
A young woman from the east who married a Seattle man recently had a novel experience when she engaged her first Chinese cook.  
"What's your name?" she asked when the preliminaries had been settled.  
"My name Hong Long Soo," said the Celestial with much gravity.  
"And I am Mrs. Harrington Richard Buckingham," said the new employer. "I am afraid I shall never be able to remember your name—it's so long. I shall call you John."  
"All right," returned the Chinese with a suspicion of a smile. "Your name too long, too. I shall call you Charley."—Harper's Magazine.

**Peruna Secrets You Should Know**  
Golden Seal Root.  
Golden Seal, the root of the above plant, is a very useful medicine. Many people gather it in our rich woodlands during the summer. Few people know how valuable it is in dyspepsia, catarrh, and as a general tonic.  
Many thousand pounds of this root are used each year in the famous catarrh remedy, Peruna. This fact explains why everybody uses Peruna for catarrh.
