

INFLAMMATION MADE HER ALMOST CRAZY

With Pain, Itching Settled from Knee to Toes. Physicians Cost a Fortune. No Relief. Went to Hospital 3 Years. Unable to Help.

Finally Used Cuticura and Was Completely Cured.

"I began to have an itching over my whole body about seven years ago and this settled in my limb, from the knee to the toes. I went to see a great many physicians, a matter which cost me a fortune, and after I noticed that I did not get any relief that way, I went for three years to the hospital. But they were unable to help me there. I used all the medicines that I could see but became worse and worse. I had an inflammation which made me almost crazy with pain. When I showed my foot to my friends they would get really frightened. I did not know what to do. I was so sick and had become so nervous that I positively lost all hope. "I had seen the advertisement of the Cuticura Remedies a great many times but could not make up my mind to buy them, for I had already used so many medicines. Finally I decided to use the Cuticura Remedies and I tell you that I was never so pleased as when I noticed that, after having used two sets of Cuticura Soap, Cuticura Ointment and Cuticura Pills, the entire inflammation had gone. I was completely cured. I should be only too glad if people with a similar disease would come to me and find out the truth. I would only recommend them to use Cuticura. Mrs. Bertha Sachs, 1621 Second Ave., New York, N. Y., Aug. 20, 1909." "Mrs. Bertha Sachs is my sister-in-law and I know well how she suffered and was cured by the Cuticura Remedies after many other treatments failed. Morris Sachs, 321 E. 84th St., New York, N. Y., Secretary of Deutscher Ostrovoter Unt-Verein, Kemper Hebrew Benevolent Society, etc." "Cuticura Soap (25c), Cuticura Ointment (50c), and Cuticura Remedies (50c) are the famous Chocolate Coated Pills 25c per box (60) are sold throughout the world. Puter Drug & Chem. Corp., Sole Prop., 125 Commercial St., Boston, Mass. Ad-Mailed free. 32-page book on Skin Humors.

FEED BARLEY IS HIGHER AT PORTLAND

POTATO MARKET IS HIGHER ON COAST

Portland Dealers Offer as High as \$1.75 in Country Shipping Points -As High as \$2.50 Offered for Barley.

An advance of 50c a ton is being offered for feed barley by local buyers. For No. 1 feed as high as \$27.50 is being bid basis track delivery Portland, although some dealers are not offering above \$27. Even the latter figure is 50c above what the same people were offering a few days ago. Entire coarse grain market continues very firm as a result of the small supplies available and the increasing demand. Experiments with Montana cats are not likely to be continued by local people this year. It is stated that the tow cars that came forward were in such bad condition that they were rejected. Shipments from Montana can be landed here around \$28@28.50 a ton, therefore it is not likely that the local market will be seriously affected by competition from there. Wheat market continues to show an erratic tone. Just what the market

is not even the largest dealers are able to say. Some are offering one price, and some another. The market has dwindled down to a nominal affair so far as volume of business is concerned.

Flour market is showing strength for patent as well as for export. However, only a small amount of business is offering in the latter line.

Potatoes Higher. Potato market is up another dime locally as well as elsewhere in the Pacific northwest.

"As high as \$1.75 is being offered and paid at country shipping points for best offerings of Oregon stock while ordinary local growth is finding an excellent demand at \$1.60 or within a fraction of that price. Additional supplies of Idaho potatoes are being purchased for southern account by local brokers. Trading is principally in the vicinity of Idaho Falls and Boise. The stock in that section consist principally of rural and pearl and latest shipments are said to show quite good quality. In fact one local broker received a telegraphic advice from the south shipment from Idaho was so good that a further lot was ordered."

Idaho potatoes cost from \$1.50 to \$1.65 per cwt. at land here and therefore with supplies quite fair the trade is going in that direction. Purchases are hard to make at local country points at any price. Potatoes are higher in San Francisco and Seattle. Prices along the coast per cwt. today: Portland, \$2; Seattle, \$2.25; San Francisco, \$2.25.

Hops on the Advance. An advance of a half cent a pound is being offered for hop contracts in California and the market for futures is firmer everywhere. At Sonoma 1000 bales have been contracted for the past two days, most of these being three-year signups at 15c a pound. For one year terms as high as 17 1/2c is being offered at Sonoma. Dealers for foreign accounts are making desperate attempts to clean up all good goods in this market and there is a report that 20c has been offered and refused for 1910s.

Foreigners are seeking contracts both here and in California but with little success locally. In eastern Washington the views of growers are especially strong. But few contracts have been written there because growers are not disposed to sign. About a month ago a 600 bale contract was made at 16c and a few weeks ago a small lot of about 5000 pounds was tied up at the same figure. Outside of these there has been practically no contracts in the north.

Cattle Market Quiet. Only two loads of cattle came into the pens at North Portland today and neither of these were of top quality, therefore yesterday's best prices were not tested today. The market for cattle usually stands at \$6.75 for good stuff, while \$6.55 was obtained only for a small lot of extra select steers.

No hogs put in appearance this morning and none have been offered at North Portland since Saturday, when only 88 head came forward. With additional weakness and lower prices for hogs at central west primary points, it begins to look as if the local market will show a further loss before long. Hogs dropped a dime at South Omaha this morning, making the top price there \$6.10 or the landing price at Pacific northwest centers \$7.20. This is still 30c below the last sales made in this market. There was a good run of sheep and lambs in the yards during the past 24 hours. While no sales were made this morning the trade felt convinced that the price of spring lambs would not range quite so high.

Eggs Not Firm. Egg market is holding generally at 18 cents a dozen front street. Supplies can be readily purchased at this figure by any one who really wants to buy and the offerings are candled, too. Parties that sent out higher f. o. b. last week for this week's delivery are making every attempt to boost the market, but without avail. The receipts to date recently have been the greatest for a similar period ever seen by the local trade.

Chicken Market Firm. The beginning of Jewish Easter has created a heavy demand for fowls and all lines of live poultry are showing excessive strength along front street today. Supplies are light and top prices are safely maintained.

Charlie's New Auto. "Charlie's perfectly wild over his new motor car," remarked a man to friend.

"Wild over it!" responded the latter. "You should see and hear him when he's under it."—Lippincott's.

COULDN'T COOK A MEAL

The Trouble Mrs. Buchanan Had, And How She Finally Overcame It With Cardui.

Liverpool, W. Va.—Mrs. N. J. Buchanan writes from this place: "I suffered for three years with womanly troubles, and had such pains I thought I would die. I could not stand up long enough to cook a meal. I would work a little, and then have to sit down. At last, I had to be in bed half the time. My husband read a Cardui advertisement that described almost the way I felt, so I sent for some Cardui. After taking it, I began to get better right away.

Now, I am cured, and I am very grateful, indeed, for what Cardui has done for me. I shall always praise it." Cardui is a woman's tonic—a strengthening remedy for women, especially for women, from perfectly harmless, vegetable ingredients. That's the reason for its 50 years of success. It will pay you to test it for yourself.

N. B.—Write to: Ladies' Advisory Dept., Chas. B. Williams Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent in plain wrapper, on request.

SUBMARINES MAY BE SENT ACROSS THE BIG POND

Washington.—The largest and most formidable submarine ever constructed for the government will be given a trial trip soon. If the craft proves a success it will have a large bearing on the future of the navy, will tend to increase the importance of sub-surface war vessels, and at the same time to lessen the importance of the great battleship. The experiment will be watched with the keenest interest in navy circles.

The submarine is the Seal, now being constructed by the Lake Torpedo Boat Company. On February 9th the vessel was launched. If her trial trip shows that she can accomplish what the inventor, Captain Simon Lake, maintains the government will accept her and will pay the contract price.

It is the intention to cruise to New York with the boat on her trial trip and then to Bridgeport. Later it is expected the strange craft will be sent across the Atlantic. Its length is 161 feet and its displacement about 535 tons. The government contract calls for fourteen knots speed, but it is expected to make sixteen. This is when the submarine is traveling on the surface. The submerged speed called for by the contract is nine and a half knots. It is designed to travel alone. The armament consists of six torpedo tubes and room aboard is provided for about twenty members. Lieutenant Kenneth Whiting of the navy is now in command.

As with other submarines, the Seal can travel on the surface, or partially submerged, or completely submerged. In theory there is nothing to prevent it from traveling for many miles under the surface, entering a harbor unobserved, poking about below water until it finds the hull of a battleship within easy reach, and then blowing it out of the water with a torpedo. If the Seal can travel as its inventor expects there is nothing to prevent it going along as an auxiliary with a fleet of battleships and in an engagement sneaking quietly under the surface into the very midst of the fleet of the enemy. In fact, if the Seal bears out all the representations made concerning it, it is easy to see that naval warfare will be to a large extent revolutionized.

Among the features of the new submarine or hydroplanes. These correspond to the planes of an aeroplane. They are designed for the purpose of steadying the boat and holding it even when under the water. Another feature is the drop keel, which weighs several tons, and can be released in case of an accident, thus adding to the buoyancy of the vessel. On the bottom of the boat are wheels, calculated to protect the bottom when the vessel drops down to the bed of the ocean. Various other features are important in the construction of this type of submarine.

Enough storage air is provided for forty-eight hours under water. The vessel is provided with powerful gasoline engines, which propel her when running at the surface. But under the water the power is furnished by storage batteries.

NOTICE OF PROPOSED CHARTER AMENDMENT.

(Continued from page six.) and parcels of land should pay on account of the benefits to be derived from such proposed improvement, and the City Surveyor shall file such plans and specifications and estimates in the office of the Recorder of The City of Pendleton. If the Council shall find such plans, specifications and estimates to be satisfactory, it shall approve the same and shall determine the boundaries of the district benefited and to be assessed for such improvement and the action of the Council in the creation of such an assessment district shall be final and conclusive. The Council shall by resolution declare its purpose of making such improvement, describing the same and including such engineer's estimates of the probable total cost thereof, and also defining the boundaries of the assessment district to be benefited and assessed therefor. The action of the Council in declaring its intention to improve any street or streets or any part or parts thereof, directing the publication of notice thereof, approving and adopting the plans and specifications and estimates of the City Surveyor, and determining the district benefited and to be assessed therefor, may all be done in one and the same act. (3) The resolution of the Council declaring its purpose to improve the street shall be published for a period

of ten days in some newspaper to be designated by the Council, and there shall also be published therewith a notice that the Surveyor's estimate of the proportion of the cost of said work to be charged against each lot, part of lot and parcel of land is on file in the office of the City Recorder, and a copy of such resolution, together with the report of the Surveyor, showing the probable percentage of benefit to be assessed against each lot, part of lot and parcel of land within such district, shall be kept of record in the office of the City Recorder.

(4) Within ten days from the date of the first publication of the notice required to be published in the preceding section, the owners of 80 per cent or more in area of the property within such assessment district may make and file with the City Recorder a written objection or remonstrance against such proposed improvement, and such objection or remonstrance shall be a bar to any further proceeding in the making of such improvement for a period of six months, unless the owners of one-half or more of the property affected as aforesaid shall subsequently petition therefor. (5) If no such objection or remonstrance be made or filed with the Recorder within the time designated, the Council shall be deemed to have acquired jurisdiction to order the improvements to be made, and the Council may thereafter by ordinance provide for making such improvement, which shall conform in all particulars to the plans and specifications previously adopted.

(6) When the improvement of any street is ordered the Recorder, upon instruction from the Common Council, shall immediately invite proposals for making the same, in accordance with ordinance provided, which proposals shall be opened in the presence of a majority of the Common Council and the contract awarded to the lowest responsible bidder for either the whole of said improvement or such part thereof as will not conflict with the completion of the remainder thereof. The Common Council shall have the right to reject any or all proposals received. If all proposals shall be rejected the Common Council shall have power by resolution duly adopted, to order that such improvement, or any portion thereof, may be made under the direction of the Common Council by purchasing the materials and hiring the labor therefor. The Common Council shall have the power to provide for the proper inspection and supervision of all work done under the provisions of this article, and to do any other act to secure the faithful carrying out and the completion of all contracts, and the making of all improvements in strict compliance with the ordinances and specifications therefor, and shall have power to direct that the cost of said improvements, or any portion thereof, shall be paid for by the City.

(7) Upon the signing of the contract, or upon the determination of improvement under its own supervision by purchasing the material and the Common Council to make said hiring the labor therefor, or as soon thereafter as is reasonably convenient, the Common Council shall proceed to apportion and assess the cost of making such improvement upon the lots, parts of lots and parcels of land within the assessment district, in accordance with the special and peculiar benefits derived by each lot, part of lot and parcel of land. No notice of such hearing and assessment shall be necessary other than the notice required by subdivision 3 of this section, and all objections or exceptions to the Surveyor's estimates of percentage or any application for raising or lowering the same in any particular shall be filed with the City Recorder within fifteen days after the first publication of such notice, and at such hearing of such notice, the Common Council shall consider the said City Surveyor's estimates of assessments and all objections thereto, and shall have the power at its discretion, and without any further notice, to consider, ascertain and determine the amount of the special and peculiar benefits accruing to each lot, part of lot or parcel of land within said assessment district by reason of such improvement, and the amount apportioned by the City Surveyor to any lot, part of lot or parcel of land shall be so reduced or increased by the Common Council that it shall be in just proportion to such benefits. But in no case shall any such percentage exceed such benefit. The amount of such assessment against each lot, part of lot and parcel of land shall be declared by ordinance, and the Recorder shall thereupon enter the same in the lien docket of The City of Pendleton, and the same shall thereafter be known as the Recorder's Estimate and Assessment. The contract price, based upon the estimate of the City Surveyor, or if there be no contract, the estimates of the City Surveyor, of the cost of right of way and expense of condemning the land and a sum not exceeding five per cent of the contract price, or the surveyor's estimate as the cost of advertising, engineering and superintendence shall be deemed to be the cost of every improvement.

This notice is published pursuant to order of the Common Council, the first publication hereof being made April 3, 1911. Dated Pendleton, Oregon, April 3, 1911. THOMAS FITZ GERALD, City Recorder.

TRUSTEE'S NOTICE FOR SEALED BIDS.

Sealed bids are requested up to noon, April 21st, 1911, for stock of tobaccos, cigars, etc., with fixtures and furniture in place, in store room No. 721 Main street, Pendleton, Oregon; stock invoices \$2915.78; fixtures invoice \$1089.75; together appraised at \$3235.22; bids to be accompanied by certified check for ten per cent of bid, payable to undersigned, as trustee; right reserved to reject all bids.
