MARSHALL CANYON BIG UNDERTAKING

Spokane, Wash.—A most difficult feat of engineering construction will be attempted in the Marshall canyon when the \$1,000,000 contract, let by the North Coast railroad company to Watson, Flag & Standifer company of Portland, Ore., is undertaken.

The contract calls for work through the Marshall canyon, including 13 miles of roadbed building from the west city limits of Spokane to Cheney, Wash.

Robert E. Strahorn, vice president of the Washington-Oregon Railroad and Navigation company, had many conferences with high officials of the Northern Pacific and Spokane, Portland & Seattle railroad companies to gain the right-of-way through the Marshall canyon, which was well taken up by the two roads.

G. M. Standifer, who negotiated the deal for his firm, said the contract called for most difficult work of the entire distance of 13 miles, this being especially so through the Marshall pass, adding: "We will establish an office in Spokane at once and the entire work will be handled from here.

We have five steam shovels at work besides many dinky trains and other equipment. Our company will establish a shop somewhere along the line of construction where all tools will be sharpened, cars built and general repairs made. I expect 500 men will be put at work on this undertaking."

SKETCH OF MIRZA ALI KULE KHAN.

Mirza Ali has resided in the United States for the past 12 years and for five has been connected with the diplomatic service of this country. He lectured at Harvard and at the University of Chicago and also in Washington. But a qualification which has endeared him to the United States is his deep and reverent admiration for all things American.

His wife is a handsome young woman of old American lineage and was before her marriage Florence Breed, daughter of Mr. Francis W. Breed and Mrs. Mrs. Alice Ives Breed of Boston. She met her husband during his Harvard days when she was delving into the lore of the orient and her marriage resulted shortly afterwards.

He is, however, altogether American and now speaks only United States despite his father's efforts to keep him familiar with the soft flowing tongue of Iran. There is a little girl of four who bears the English name of her grandmother, Alice Ives and to this has been added the lovely Persian title Marzieh Khanon, which means, "Pleasing to God."

Mirza Ali's friendship for the United States has had a far-reaching effect on his country. For instance, it was his enthusiasm for the land of Uncle Sam which caused the remodelled Persian government to adopt the American system of finance rather than the French, which was considered and almost decided. This government has recently appointed Morgan Shuster to reconstruct the Persian treasury and to adopt American methods. Mr. Shuster occupies a position under the ministry of finance which is called the treasurer general, and he will remain with the persons at Teheran until all financial matters are moving smoothly.

Everything American is enjoying great popularity, and Americans are training them for teachers.

FACE AND HEAD AN AWFUL SIGHT

Eruption Broke Out when 2 Weeks Old - Itched So He Could Not Sleep - Hair All Fell Out - Cuticura Cured Him.

"I wish to have you accept this testimonial, as Cuticura did so much for my baby. At the age of two weeks his head began to break out with great sores and by the time he was two months his face and head were an awful sight. I consulted a doctor, who said it was nothing but a light skin disease which the baby would soon get over. But he seemed to get worse so I called another doctor. His opinion seemed to be the same. They both prescribed medicine that did not do a bit of good. A friend advised me to take him to the hospital, which I did. Two doctors there gave me medicine in liquid form. It did him no good. "Nearly every day I would read a testimonial in regard to Cuticura and my wife thought she would try it to see if it would help the baby. I got a box of Cuticura Ointment and a cake of Cuticura Soap and after using these he was entirely cured. Before Cuticura cured him he could not seem to sleep, as his face and head would itch so. What hair he had all fell out but soon he had a nice head of hair and his face was perfectly clear. It is now nearly five years since he was cured and there has been no sign of the eruption returning. Chas. H. Evans, 81 Flint St., Somerville, Mass., April 19, 1910."

NOTICE OF PROPOSED CHARTER AMENDMENT.

(Continued from page six.) and parcels of land should pay on account of the benefits to be derived from such proposed improvement, and the City Surveyor shall file such plans and specifications and estimates in the office of the Recorder of The City of Pendleton. If the Council shall find such plans, specifications and estimates to be satisfactory, it shall appoint the boundaries of the district benefited and to be assessed for such improvement and the action of the Council in the creation of such an assessment district shall be final and conclusive. The Council shall by resolution declare its purpose of making such improvement, describing the same and including such engineer's estimates of the probable total cost thereof, and also defining the boundaries of the assessment district to be benefited and assessed therefor. The action of the Council in declaring its intention to improve any street or streets or any part or parts thereof, directing the publication of notice thereof, approving and adopting the plans and specifications and estimates of the City Surveyor, and determining the district benefited and to be assessed therefor, may all be done in one and the same act.

(3) The resolution of the Council declaring its purpose to improve the street shall be published for a period of ten days in some newspaper to be designated by the Council, and there shall also be published therewith a notice that the Surveyor's estimate of the proportion of the cost of said work to be charged against each lot, part of lot and parcel of land is on file in the office of the City Recorder, and a copy of such resolution, together with the report of the Surveyor, showing the probable percentage of benefit to be assessed against each lot, part of lot and parcel of land within such district, shall be kept of record in the office of the City Recorder.

(4) Within ten days from the date of the first publication of the notice required to be published in the preceding section the owners of 50 per cent or more in area of the property within such assessment district may make and file with the City Recorder a written objection or remonstrance against such proposed improvement, and such objection or remonstrance shall be a bar to any further proceeding in the making of such improvement for a period of six months, unless the owners of one-half or more of the property affected as aforesaid shall subsequently petition therefor.

(5) If no such objection or remonstrance be made or filed with the Recorder within the time designated, the Council shall be deemed to have acquired jurisdiction to order the improvements to be made, and the Council may thereafter by ordinance provide for making such improvement, which shall conform in all particulars to the plans and specifications previously adopted.

(6) When the improvement of any street is ordered the Recorder, upon instruction from the Common Council, shall immediately invite proposals for making the same, in accordance with ordinance provided, which proposals shall be opened in the presence of a majority of the Common Council and the contract awarded to the lowest responsible bidder for either the whole of said improvement or such part thereof as will not materially conflict with the completion of the remainder thereof. The Common Council shall have the right to reject any or all proposals received. If all proposals shall be rejected the Common Council shall have power by resolution duly adopted, to order that such improvement, or any portion thereof, may be made under the direction of the Common Council by purchasing the materials and hiring the labor therefor. The Common Council shall have the power to provide for the proper inspection and supervision of all work done under the provisions of this article, and to do any other act to secure the faithful carrying out and the completion of all contracts, and the making of all improvements in strict compliance with the ordinances and specifications therefor, and shall have power to direct that the cost of said improvements, or any portion thereof, shall be paid for by the City.

(7) Upon the signing of the contract, or upon the determination of improvement under its own supervision by purchasing the material and the Common Council to make said hiring the labor therefor, or as soon thereafter as is reasonably convenient, the Common Council shall proceed to apportion and assess the cost of making such improvement upon the lots, parts of lots and parcels of land within the assessment district, in accordance with the special and peculiar benefits derived by each lot, part of lot and parcel of land. No notice of such hearing and assessment shall be necessary other than the notice required by subdivision 3 of this section, and all objections or exceptions to the Surveyor's estimates of percentage or any application for raising or lowering the same in any particular shall be filed with the City Recorder within fifteen days after the first publication of such notice, and at such hearing the Common Council shall consider the said City Surveyor's estimates of assessments and all objections thereto, and shall have the power at its discretion, and without any further notice, to consider, ascertain and determine the amount of the special and peculiar benefits accruing to each lot, part of lot or parcel of land within said assessment district by reason of such improvement, and the amount apportioned by the City Surveyor to any lot, part of lot or parcel of land shall be so reduced or increased by the Common Council that it shall be in just proportion to such benefits. But in no case shall any such percentage exceed such benefit. The amount of such assessment against each lot, part of lot and parcel of land shall be declared by ordinance, and the Recorder shall thereupon enter the same in the lien docket of The City of Pendleton, and the same shall thereafter be known as the Recorder's Estimate and Assessment. The contract price, based upon the estimate of the City Surveyor, or if there be no contract, the estimates of the City Surveyor, the cost of right of way and expenses of condemning the land and a sum not exceeding five per cent of the contract price, or the surveyor's estimate as the cost of advertising, engineering and superintendence shall be deemed to be the cost of every improvement.
