**BAD BOYS DID NOT
 SLAY ANY POLICEMEN**

Although each had secured a gun and threatened to shoot any officer who attempted to arrest them, Willie Ruper and George Howard, two 14-year-old boys, were taken into custody this afternoon at 2 o'clock by Chief Gurdane and Truant Officer John Halley and they will be given a trial next Monday.

The boys were taken up on the complaint of Will Powell, who alleges they have been stealing his fruit jars and shooting his chickens. This is not young Ruper's first trouble for the past few years and is pronounced by them to be inexcusable. At one time he stole a case of eggs from the Alexander grocery and a basket full of the same merchandise from the same store on another occasion. And, it is alleged, at another time he was engaged in a systematic stealing of bottles from the Northern Pacific freight depot.

One of the boys was found at his home on West Webb street and the other one was in school when arrested.

**STEAMER SHAVER IS
 DAMAGED BY FIRE**

Portland, April 21.—Fire, originating from some unknown cause, in the forenoon of the steamer Shaver shortly after 3 o'clock yesterday morning gutted the amidships and after portion of the interior of the vessel, cremated the ship's mascot, a canary, whose cage was hung in one of the burned cabins, and narrowly missed

causing a disastrous water front fire, when the boat was carried by the current from her moorings at the foot of Davis street to the proximity of the gas company's oil and gas tanks at the foot of Everett street.

The damage to the vessel is approximated by the police at \$15,000. She is insured for that amount, but J. M. Shaver, owner of the Shaver Transportation company, which operates the vessel in the towing trade here, said this morning that the loss was probably greater than this figure as the fittings of the boilers and engines had suffered irreparable damage, as had also the electric lighting plant. The hull of the vessel was undamaged except for being badly scorched inside.

Owing to the headway gained by the flames before their discovery by Clyde Petet, the vessel's watchman, several of the crew, who were asleep in the after part of the ship, barely escaped with their lives. None of them were able to save any clothing. Mrs. Alma Seeley, the ship's cook, who was asleep in one of the upper cabins, made her escape to the deck clad only in her nightgown. She left the canary behind in her haste. A collie dog, which was thought to have been caught in the flames, was discovered after the fire hiding under a berth in an empty state room in the forward part of the ship.

Mrs. Conn reports between three and four hundred members in Seattle, and that they have secured a lot for the location of their chapter house.

War Rumors Float About.
 One of the most inexplicable rumors that start from nowhere, and spread like a prairie fire made the rounds of Pendleton streets last evening. It was to the effect that the United States had declared war upon Mexico and there was much excitement manifested, but happily the reports today from Washington do not indicate that Uncle Sam has donned his warpaint and dug up the tomahawk which has been buried these ten years and more.

**TWO DOG OWNERS
 ARE UNDER ARREST**

Jim Dupuis and an Irish girl who waits tables at the Greek restaurant were arrested this afternoon by Officer Ed Stansberry for violating the ordinance which relates to the keeping of dogs within the city limits. As City Attorney Roy Italey is at present in Portland, the cases could not be tried this afternoon but were set for 2 o'clock tomorrow.

These are the first arrests to be made in the campaign being made to compel all dog owners to purchase licenses as provided by the city ordinance. Most of the delinquents have been notified of the arrest which follow any further delay on their part and, in almost every case, they have hastened to pay over the stipulated amount. Dupuis and the Irish girl, however, the officers assert, have positively refused to purchase any license, the latter even going so far as to abuse the officers and threaten them if they attempted to carry out their expressed intentions.

Accordingly, Harry Hart, the dog catcher, this afternoon swore out two warrants and they were given to the officer for service.

Hart last night secured the street addresses of fourteen additional persons who are keeping dogs on their premises until the crusade is over and these addresses have been turned over to the officers who will commence action at once.

The city authorities believe by this time they have impressed upon the public their earnestness in compelling compliance with the dog law but are ready to use further measures to this end if necessary.

DIAZ REPLY IS MODIFIED.

(Continued from page one.)

had just appeared, and many read the rebel leader's declaration as they elbowed their way to positions of vantage.

Men loyal to the government, and men who doubtless would like to see Madero win, but who realize the danger involved, listened to every word of the minister as if under high tension.

It was not a crowd that applauded. It was one that wanted to learn something more than it knew.

That desire was not realized and the optimism of the minister did not appear to have the effect of reassuring the deputies and spectators.

The thousands who had been unable to gain access to the chamber eagerly purchased and read newspaper extras containing the full text of the report.

Minister de la Barra expressed his surprise upon being told of Madero's statement that he would not listen to a proposition of an armistice at this time.

Petition to Recall Troops.
 Berger, the socialist congressman today presented a petition signed by 80,000 American citizens to the house, demanding that the troops on the border be recalled. Berger said he had positive proof that "the bloody character of the Diaz government is understood and the justice of the uprising is appreciated by the majority of Americans."

SECRETS MONEY IN LOG.

Farmer Finds Old Hermit Dead and Log Plugged With Many Gold Coins.

Spokane, April 21.—A heavy oak log with veins of \$10 gold pieces was discovered recently in the cellar of a hut occupied by Jacob Zeis, aged 74, hermit.

On Wednesday Herman Klasterman, who lives on a farm near the Zeis hut and who had not seen the old man for several days, went to his home to investigate the cause of Zeis' absence. Zeis was found dead in bed. A note on the table said he was too ill to go to a doctor and that he had considerable money in the cellar. Coroner Wilhelm was called and made an investigation.

Search of the cellar revealed a heavy oak log in one corner and when this was examined closely a number of small holes with wooden plugs were seen. One of the plugs was extracted and gold pieces fell to the floor. An hour's work rewarded the coroner with a pile of \$10 gold pieces amounting to \$300.

Zeis being without relatives, the money was turned over to Public Administrator Zimmer of Monroe county.

**EXPERIMENT STATION
 RECEIVES MANY LETTERS**

Corvallis, Ore.—More than 1000 letters a month are being received in one department of the O. A. C. experiment station. Some of these ask for bulletins, some ask for advice on a specific subject, but by far the largest number are from prospective colonists who wish more authentic information than can be secured from commercial clubs. Demands for bulletins are coming from England and

South Africa, China and Chile, and from time to time nearly every large agricultural country in the world has been heard from. This, together with the number of requests that are coming from farming communities all over the state for institutes, is very encouraging to the department. The fact, however, that the experiment station was refused funds to continue this educational work among the farmers tempers this self-congratulation.—Corvallis Gazette-Times.

Nothing is permanently ahead of well-matured ideas.
