AN UNEQUAL STRUGGLE.
 Our laws relating to public lands and other resources make "money politics" for syndicates that are out to acquire control of certain resources, such as timber, coal and water power. The syndicates are always ready to spend money to get the control of the syndicate. It is asserted that men representing the syndicates have secured the older road as a concession, Alaska, and that by doing so they backed up the bill part that remained outside the control of the syndicate. The syndicates are prepared to pay the cost of the syndicate on the theory that they can control the coal resources of the Oregon coast if they can control the ports through which that coal must be shipped. The scheme is similar to the scheme of the trans-continental railroads to bar ocean competition by controlling the water fronts and preventing independent steamship lines from obtaining wharf facilities.

In the case of the railroads the coast cities are checkmating them in their scheme by providing public wharves as the railroads already own the water frontage it is a matter of difficulty.

Senator Vollette has introduced a resolution providing for an investigation of the seizure of Controller Bay. It is possible the coup of the Guggenheims may be frustrated. If they are able to do so, it is a great light for the octopus is strong and crafty.

Some people think it would be just as well to let the Morgans and the Guggenheims go ahead and acquire everything and then have done with it. It is a matter of difficulty among people who only need the stuff. Such things have been done before and may be done again without hurting anyone else. There are ways of killing a duck ashore from drowning him.

President Wilson says that most of the trouble in the order is due to the fact that America is participating in a revolution. The most striking thing about the movement is the fact that it is a revolution. The revolution would not be worth half the price of admission were it not for a few Americans like Stanley Williams.

Oregon is given a new congressman by the house committee and under the terms of our reapportionment bill he will hail from eastern Oregon. Who will he be?

A BUILDING erected on a weak foundation is likely to cause trouble.
 In the same way it may be said that clothing made out of a part-cotton fabric is sure to give unsatisfactory wear.
 That is the reason only "All-Wool" fabrics are used in making Kirschbaum Hand-Tailored Clothes.
 Starting with the best fabrics for a foundation, all of the other materials are as carefully selected.
 The result is that every part of a Kirschbaum suit or top-coat—like "The Deacon's One-Horned Shag"—is as serviceable as every other. In addition, they are the latest expression of style.
 The "Kirschbaum Label" guarantees satisfaction.
 The "SH" "Reggy" is the suit for young fellows who want distinctive style.

A Snap!
 One of the best places on Riverside. Good house, fine orchard, 2 acres berries, 2 of grapes, chicken houses, barns, gasoline engine and pumping plant, windmill, hot and cold water in house, in fact everything in A-1 condition. This is certainly a dandy suburban home place. Very reasonable. Would consider residence property in Pendleton for part payment. See about it today. Must be sold at once.
