It is equally beneficial for the very young and the middle aged, as it is always efficient and free from all harmful ingredients. BEST FOR BISCUITS.
A prominent teacher in one of the Domestic Science schools in Mississippi writes that she is using Cottolene with excellent results. She says:

"For biscuits Cottolene is all that could be desired. The biscuits are light and flaky, with none of that disagreeable odor often found in foods shortened with lard. Cottolene is also an excellent medium for frying croquettes and doughnuts. It gives them a clean, crisp, brown crust."

Other noted experts, such as Mrs. Rorer and Marion Harland, have given similar testimony to the merits of Cottolene. It not only gives better results than lard but is much more wholesome and economical as well.
