**Newsy Notes of Pendleton**

**Severely Cuts His Hand.**  
 Fred Weber, while engaged in splitting wood yesterday, had the misfortune to cut his left hand severely.

**Ready for Business Again.**  
 Jack Webster, proprietor of the Berlin Dye House who recently lost his plant by fire, opened again for business this morning on the corner of Cottonwood and Court streets.

**William Hilton Here.**  
 William Hilton, formerly of this city but who is now living in Portland is here on business connected with his duties as superintendent of building for the Malfour-Guthrie company. He will return to Portland in the morning.

**Annual Parish Meeting.**  
 The annual parish meeting was held at the Episcopal church last Monday, at which the old vestry was re-elected to serve another year and three lay delegates chosen for the convocation to be held on May 16 and 17 next.

On one side of the Po in a practically uninterrupted line a mile and a half in length, are the pavilions, each of distinctive national architecture, of the United States, Germany, France, Belgium, and other European and American governments. The British building is on the opposite side of the river.

As a result of the fire in the Brussels exposition, particular care has been taken in the electrical installations to prevent short circuiting. The electrical work was awarded to a Pittsburg, Pa., concern. There will be many competitions in connection with the exposition, including a \$10,000 cash prize for "any invention, discovery or contrivance applied to industry which may prove advantageous to the national economy." This is open to all nations. King Victor Emmanuel offers a royal cup for a dirigible balloon race, the course to be from Turin to Rome and back. There will also be many motor boat races and aquatic events. The exposition will remain open to the last of October.

The American commissioners of the exposition are Francis B. Loomis, commissioner general, and Albert H. Michelson, deputy commissioner.

**Spring Specials**

**LOCALS TO CLASH WITH ECHO TOMORROW**

**League Standing.**

Walla Walla	4	1	.800
Athena	4	1	.800
Weston	3	2	.600
Milton-Freewater	2	3	.400
Pendleton	1	4	.200
Echo	1	4	.200

**Games Tomorrow.**  
 Echo at Pendleton.  
 Weston at Walla Walla.  
 Milton at Athena.

Baseball fans who will journey out to Roundup Park tomorrow to see the Pendleton Buckaroos and the Echo Lizards clash on the diamond will be the first persons to occupy seats in the new grandstand which is destined to hold thousands of people before the year is over. So much progress has been made on the structure that seats for the accommodation of hundreds have already been completed and, because they will have the honor of initiating it into service Manager Nelson has decided to offer it free of charge to the fans.

**COLLEGE AIDS SETTLERS.**  
 O. A. C. Agronomist Gives Advice As to Best Crops and Warns Against Mistakes.  
 Corvallis, Ore., April 29.—Prof. H. D. Scudder of the agronomy department of the Oregon Agricultural college, has just returned from a visit to the Upper John Day valley, in the vicinity of Prairie City, where he examined a large tract of land in the interests of a group of easterners who have come with a view to colonizing there.

At Prairie City Prof. Scudder held a farmers' institute, attended by a large number of farmers and ranchers of the region, who were addressed by Superintendent Allen of the Her-

miston experiment station, who spoke on fruit growing and by Professor Scudder, whose address was an intensive farming. This was the first institute ever held in the Upper John Day valley, and the enthusiasm and interest of the farmers in attendance proved its success.

The extension of the railroad from Austin to Prairie City, in the heart of the upper valley has awakened the ranchmen of the district to a widespread realization of the fact that a more intensive and profitable kind of farming can now be undertaken, and they intend showing themselves progressive enough to grasp the opportunity.

The growing of alfalfa, field peas, clover, mangies, corn and barley, and the utilization of these crops in feeding pigs, dairy cows and chickens were advocated by Prof. Scudder and endorsed with enthusiasm by the men at the institute. He warned them of the danger of over-irrigation, waste of water, lack of thorough tillage and against long continued cropping with timothy.

**ADREW TROTH TO SAIL FOR EUROPE**  
 New York, April 29.—Andrew Troth, who was released last month from the Western Pennsylvania penitentiary after serving nineteen years for a murder of which he is now proved innocent, will sail from New York next week for Europe to see his wife. After the iron doors of the grim prison had clanged upon her husband nearly two decades ago, Mrs. Troth, heart-broken and filled with bitterness against the country in which her loved one had been so unjustly treated, returned to Austria-Hungary. There she has been waiting, weary year after weary year, for the glad news that has come at last, "Little Praying Andy" Mr. Troth was called by his fellow prisoners, because of his sublime faith that he would some day be released and the stain upon his name wiped out.

Do you read the East Oregonian?

**Will Go to Manila.**  
 J. R. English, for several years a resident of Weston, was in the city this morning enroute to the Philippines where he will do surveying work for the government. He will sail from San Francisco May 3.

**Opens Cigar Store.**  
 Fred Hook, the young man who recently purchased the J. E. Beam bankrupt cigar store, opened for business this morning. He has made several improvements about the place and will make a strong bid for his share of the business.

**Trying Divorce Suit.**  
 The trial of the Williamson divorce case was begun at 3 o'clock this afternoon before Circuit Judge Phelps. By agreement between the two sides of the case the sensational features of the case will be eliminated. Attorneys in the case are Carter & Smythe and Peterson & Wilson.

**Decree by Default.**  
 Circuit Judge G. W. Phelps today rendered a default decree in the divorce case of Louis Barney versus Chester Barney. The suit was filed from the east end of the county and the plaintiff was represented by Messrs. Woodwin & Neal. The defendant made no answer to the complaint.

**Who Sent the Money**  
 Someone sent a remittance from Pendleton to the American Woman's League, University City, St. Louis, Mo., last October 25, to pay for a first note due November 1, without signing the letter. Miss Boyd, 314 Water street, would be glad to hear from the person sending the remittance as she has received several inquiries from the head office about it.

**Judge Knowles on Bench.**  
 On Monday Circuit Judge Knowles of La Grande, will arrive here to take Judge Phelps' place on the local bench. Luring his stay he will take up a number of civil cases in which Judge Phelps participated to an extent before becoming circuit judge. Demurrers in these cases will be argued and passed upon and the cases themselves will go to trial at a later date.

**John Schmidt is Sued.**  
 John Schmidt, well known former saloonman of Pendleton and owner of the Schmidt block on Main street, is made defendant in a suit filed in the circuit court today. Wilhelmina Rudolph is plaintiff and it is set forth in the complaint, filed by her attorneys, Carter & Smythe, that she holds a note for the sum of \$1083.33 given by the defendant on January 14, 1908. The plaintiff sues for judgment for this amount plus interest and for the sum of \$150 as attorney's fee.

**KING OF ITALY OPENS EXPOSITION**  
 Turin, Italy, April 29.—With the United States and all other leading governments represented, the Turin International Exposition, which commemorated the semi-centennial of Italian unity, was formally opened today by the king and queen. With the opening of the gates this morning a vast crowd, including thousands of American tourists, flocked into the grounds, which occupy a beautiful site on the outskirts of the city on both sides of the River Po.

The exposition is among the largest ever held and compares favorably in extent and beauty with the world's fairs at St. Louis, Chicago and Paris. The area is 1,000,000 square metres.

**MANY HOBOES GATHER IN NATIONAL CAPITAL**  
 Washington, April 29.—On the hoof, by fast freight and "Pullman sleeper," forming another Coxe's army on a small scale, the hoboes of the nation are arriving in Washington today for the annual convention of the unemployed. Some of the "delegates" have walked the entire distance from St. Louis and other points in the central west.

The convention of the "hoboes" will open Monday. Among the matters to be taken up will be an appeal to congress to establish a minimum wage scale of \$15 a week. Resolutions will also be presented to congress asking for legislation to revise the tariff and secure cheaper food and to better labor conditions. At the last national convention of the hoboes a resolution to affiliate with the socialist party was introduced, but was turned down almost unanimously. As a result of this action, a number of prominent and wealthy socialists who participated in previous meetings of the "unemployed" will remain away from this one. Socialists here say that the hoboes now almost universally sell their votes to the old parties and that as long as this condition prevails there is no hope for them.

**CHESAPEAKE ROAD INCREASES CAPITAL**  
 Richmond, Va., April 29.—Stockholders of the Chesapeake & Ohio Railroad held a special meeting here today and authorized an issue of \$125,000,000 of 5 per cent twenty-year mortgage bonds. Only about \$30,000,000 of the new bonds will be issued at once. Outstanding general funding and improvement bonds, amounting to \$11,000,000, will be retired, and certain outstanding equipment obligations will be paid. The remainder of the bonds are to be reserved under proper restrictions for construction or acquisition of additional lines, terminals and equipment for betterment and improvement.

**OBSERVE TUBERCULOSIS DAY TOMORROW**  
 New York, April 29.—Tuberculosis Day will be observed tomorrow in 200,000 American churches with special sermons on the prevention of consumption. The National Association for the Prevention of Tuberculosis has also asked all ministers and priests to collect statistics regarding the ravages of the white plague among the members of their congregations. Those figures will show among other things the number of deaths from tuberculosis in the church.

**PENDLETON HAS AGENCY FOR FAST AUTOMOBILE**

Manager May, of the Nissen Implement Co., of this city, which company has the local agency of the "E-M-F 30" automobile, is a very happy man today, over the result of the aeroplane vs. automobile race held during the aviation meet at Walla Walla Thursday.

Commenting on the event, the Walla Walla Union says:  
 "Brookins then raced against Klymer, a 14-year-old auto driver of this city, who beat the aeroplane in a five mile contest. The time for the auto was 5:26 1-2; for the aircraft, 5:28." The machine driven by Klymer, was an "E-M-F 30" car, and Mr. May, referring to this wonderful performance of the car for which his company has the agency, said: "It only goes to show that the car is all we have claimed it to be and even more. It proves the car has the speed and endurance and is easy to handle, when a 14-year-old boy can drive it and win, in a contest against the most famous aviator in the United States."

The light weight and great power of the "E-M-F 30" make it an ideal roadster and hill climbing machine for use in this country. The price of this automobile laid down in Pendleton is

**KRYPTOK LENSES**

KRYPTOKS do away entirely with those two pairs of glasses. KRYPTOKS are good looking. They actually rest the eyes and always are perfect for far and near vision. They do not suggest oddness, nor do they indicate advancing years. To all appearances they are solid single vision lenses without seam or cement.

**GOING TO BE SOLD**

640 acres all in wheat, a fine prospect for 40 bu. per acre. Pure water piped into the house and barn. This land is in a good section of the wheat belt, and all tillable. You can buy it including the crop and machinery for \$40 per acre. The reason he offers it so cheap is because he wants it sold, and his reason for selling is his business.

If you want to clinch a bargain, you had better get busy.
