JAMES J. SAYER VISITS STANFIELD

(Special Correspondence.)
Stanfield, Ore., April 30.—The Ladies' Aid society of Hope Presbyterian church met Thursday afternoon at the home of Mrs. G. L. Hurd and after the routine business was finished some time was spent socially and delightful refreshments were served by the hostess.
On Saturday the school children of the primary and intermediate grades were entertained by their teachers, Miss Applegate and Miss Farley, who gave the children a picnic, which was a very enjoyable affair, being attended by about 50. Conveyances were provided by the teacher and the party drove to a point on the Umatilla river about three miles below town, where a suitable picnic site was selected. Bountiful lunches were taken along and those who were fortunate enough to be among the party report having had a fine time.
The young men of Stanfield gave a dance at the Ewart building last evening which was well attended by the young folks of town and vicinity. Good music was provided and the occasion was most enjoyable.
James J. Sayer, field secretary of the Oregon Development league, with headquarters at Portland, honored Stanfield with a visit yesterday and today. He was shown about the project by Frank Sloan and G. L. Hurd, president and secretary, respectively, of the Stanfield Commercial club, and in the evening Mr. Sayer gave a very interesting talk to the members and friends of the club. The Oregon Development League is doing great work in increasing the interest of local communities in public matters and in getting them into closer touch with the league with a view to working in harmony for a greater Oregon. The slogan of the league is "More People on Farms," which tells briefly the great need of this section of the country.
Supreme Judge Henry J. Bean and Mrs. Bean visited Stanfield Friday.
Miss Minnie Baker, principal of the schools here, went to Pendleton Saturday morning to remain over Sunday.
Miss Luta Dunbar, who has been stenographer for the Inland Irrigation company the past few months, left for Portland yesterday, where she will remain a few days before going to San Francisco to make an extended visit. Her place here will be filled by Mrs. Burt who has been in the Portland office of that company for some time, as the office there will be closed and all business of the company transacted here.
Mrs. R. N. Stanfield is leaving today for Pendleton to visit for a short time, after which she will go to Portland to remain for several weeks.
Attorney A. W. Gray was in Pendleton on legal business Friday.
E. P. Marshall, vice president of the Inland Irrigation company, was down from Pendleton Friday.
W. J. Furnish went to Portland on business Thursday night.
Mrs. Charlotte Bell was a Hamilton visitor today.

Many Helps for the busy housewife. The needs of the busy housewife at house cleaning time are surely met in every way this spring by our hustling merchants, Huls & McAtee. Their windows have been showing almost unreamed of ways for making the housework easier. This week they suggest a few of many uses in the home for enamels. The display has attracted unusual attention as the simple display is handsomely finished and a fine example of what is possible to do with the goods they offer.

The Chicago school board is sponsor for a plan which its members hope will provide this country with a new and distinctive national song. It has been arranged for each one of the three hundred thousand school children in Chicago to contribute one cent each toward a prize for the successful competitor in a contest to supply a national song. The only restriction to be made by the board is that it shall not be a war song.
Annual interest is shown in the joint debate which is to be held at the National Press Club of Washington tomorrow evening by Senator John W. Kern of Indiana, former Speaker Cannon, Representative Nicholas Longworth and Representative Ollie James of Kentucky. The affirmative has been placed in the hands of Messrs. James and Longworth, who long ago lost interest in the price of a hair cut. The negative will be upheld by Messrs. Kern and Cannon. The former wears a beard of the type of Justice Charles

E. Hughes, while the latter has a Lincoln-like hirsute adornment.

BIG AIRSHIP ATLANTIC LINER IS PROPOSED

London.—Germany seems to have made a specialty of gigantic passenger-carrying air vessels. From France aviation news is generally of a military character, but from Germany comes accounts of long-distance flights in dirigibles capable of carrying 20 passengers or more.
In fact there are rumors of the construction of an airship with a capacity of 120,000 cubic meters or eight times as large as Count Zeppelin's Deutschland II. Some idea of its dimensions will be gained by the number of the crew, which, it is said, will be 100, to say nothing of the passengers of whom there will be 200. This mammoth of the air, so the rumor says, is to ply between New York and London.
This is, however, but a possibility of the future; in the meantime the Deutschland II, Count Zeppelin's new airship, has but lately made a successful voyage of 1620 miles, carrying 20 passengers. Her ultimate destination was Dusseldorf, where she will be stationed during the summer months for the purpose of going trips with passengers.

NEW PUBLIC LIBRARY TO OPEN IN MAY

New York.—The month of May will witness the formal opening in this city of the fourth greatest general library. It will be surpassed in number and range of volumes only by the Bibliotheque Nationale, in Paris, the British Museum Library, in London, and the Imperial Library in St. Petersburg. The Congressional Library in Washington has more volumes than the New York Public Library, but it is not a general or popular institution. For circulation of volumes the New York library doubtless leads the entire world. Cards of admission are required by the Paris, London and St. Petersburg institutions, but the New York collection of books is open to all.
The new library building occupies two blocks at Fifth avenue and Fort-second street. Nearly two thousand readers may be comfortably seated at tables in the main and special reading rooms. Applications for books will be served quickly by means of
