STORE CLOSED ALL DAY
Mon. and Tues.

LISTEN

Wednesday morning at 9 o'clock we will open in our store the greatest bargain event ever presented to the people of Pendleton. Merchandise of all classes will positively be sold at lower prices than were ever before quoted in the city. Every article in the place will be offered for sale at a mammoth reduction. If you would buy elsewhere before this sale opens, it would be like taking a portion of your money and throwing it away. We guarantee to save you money on any and every article or garment you purchase. The whole store from wall to wall will be ablaze with bargains and the great price reduction tickets shall be seen throughout the house. We are billing the country for miles around with large sale circulars and expect to see the largest gathering of people who ever attended a Pendleton sale. You can just as well be one of the early shoppers, so be sure and keep it in mind that this great money saving event starts Wednesday morning of next week.

IMPOSSIBLE

It is absolutely impossible to buy merchandise in any other store for less money than we will be selling it, as we have gone the limit. Yes, have forgotten all about profit and cut the prices to rock bottom. When we mark goods for a sale we see how low we can make the prices. It never entered our head as to how much the customer would be willing to pay for the article. He might be willing to pay twenty per cent more than we ask, but that makes no difference. The people will become educated that when we say sale we mean it from a bona-fide standpoint. We have always done business on a legitimate basis and will continue to do it that way. Many ladies know the exact retail price of our cloaks, suits and skirts. We especially invite these ladies to attend this sale, as they will be able to fully appreciate the great reductions being made. You are always safe at the Peoples Warehouse. A child could shop here and do equally as well as a grown person, as in all cases it is one price to all.

THE TRUTH

It is the absolute truth in every sense of the word, when we say we are selling merchandise for less than we ever sold it before. This is not a profit making sale but a positive loss to us. However, our loss does not interest the customer, it is up to him to buy merchandise for as little money as he can secure it, regardless of who is losing. We have over one hundred and fifty thousand dollars' worth of the highest class merchandise money will secure, which we will throw on the market at prices which will tempt all to buy. We wish to state there is not one dollar's worth of merchandise in the store which will be reserved. You will have your choice in any department of this immense store. To miss this sale is positively a great loss of money to you, to go elsewhere and make purchases would be foolish, but to buy from us during this bargain festival means cash in your pocket. We are here with a bunch of surprises which will make the buying public wonder in amazement how merchandise can be sold at such low prices.

\$50,000.00

We wish to raise fifty thousand dollars with which to pay our bills. We must have this money by the last of the month. That gives us about fifteen selling days in which to do three months' business. If the public appreciates high-class merchandise for little money, we will make good. Conditions which exist could only be overcome in one way and that was by having a mammoth sale in each and every department. It was not a case of think the thing over and decide what was best to be done, but a case of no choice, as much as we regretted putting on a sale in the heart of the selling season. We are not appealing to anyone for help, but just putting our merchandise at a price which will guarantee the sale of fifty thousand dollars' worth of it within the next fifteen selling days. We invite all and will be more than pleased to have you attend this great forced cash raising sale.
