Official City and County Paper.

WHEN JUNE COMES.

When June comes, rejoicin',
with roses red an' white,
It's then we'll go a-roamin' in
valleys of delight.

It's then we'll see
What life can be—
It's then you'll kiss a rose for
me!

When June comes, rejoicin',
then love'll cease to sigh;
The birds will all be singin'
when their sweetheart's comin' by.

It's then we'll know
What love we owe
Unto a world that loves you
so!

—Frank L. Stanton.

THEY FAVOR PROGRESS.

Once more the people of Pendleton have spoken and as usual they stand for progress. By their votes yesterday the people gave the council and the water board the right to proceed with improvements long planned and which mean the betterment and advancement of the city. The results are as the East Oregonian expected them to be.

It is especially pleasing however, to note the size of the majorities rolled up for the various measures. Every amendment carried in every ward in the city. The water bonds carried by approximately a four to one vote and this despite the slanders that had been circulated in hopes of prejudicing people against the Thorn Hollow project.

The street improvements amendment, which was considered the most doubtful of all, carried by a big majority and that majority shows the people are determined to have streets that may be traveled in safety and comfort. After the amendment has been in effect a year or two it will be necessary for one to be a "rough rider" in order to drive over the main traveled thoroughfares of the city.

With the election over the responsibility is now up to the city administration. The council and water board have been given free rein to go ahead with betterments. It is the belief of this paper that this confidence will not be abused. On the contrary the officials will look carefully to see that they are right before spending money.

The Thorn Hollow project has been brought into question. This being the case it is up to the officials to fully determine the advisability of that project before undertaking it. Naturally the people do not want the Thorn Hollow water unless it is good water and there is an ample supply. The fact that the water board favors the Thorn Hollow supply speaks well for it yet there will be ample opportunity to verify the judgement of the board before taking final action. What the people voted for was a gravity water system and it is up to the officials to find the best there is. But the people do want mountain water and they want it as soon as it can be had.

In a general way the special election yesterday shows that the people are eager to see Pendleton prosper and go forward and are willing to do their part towards bringing about its advancement. If there is any virtue in the theory of self help as applied to cities and towns as assuredly there is, then Pendleton is in line for good things.

Rebellion against the United States is treason and if there is bloodshed in Alaska then the men who provided the million dollars should be the first to feel the noose.

Anarchy is anarchy whether it be perpetrated by the poor or the rich. In Los Angeles some labor leaders are held in jail for alleged dynamiting. If found guilty they should be executed. At the same time if the Guggenheims foster a rebellion in Alaska because the government does not want the syndicate to control the coal supply they should expect the same treatment as the McNamara's.

"What is sauce for the goose should be sauce for the gander."

DOING OUR PART.

There can be no complaint that Pendleton is not doing right by the branch asylum. Since that institution was located here the city has taken every step possible towards meeting its responsibilities in the matter. A new Main street bridge has already been ordered at an expense of \$35,000, sewer extensions are to be made so as to have the sewer outlet below the branch hospital grounds; a street improvement crusade has been arranged for and this will insure well improved streets leading to the institution. A mountain water system has been voted by the people and this will provide the inmates of the branch asylum with the best water obtainable in eastern Oregon. If there is anything else desired no one has mentioned it as yet.

IT WAS EXPENSIVE.

After running 15 months and having lost a total of \$500,000 the Inland Herald of Spokane has finally ceased publication entirely. The fate of that paper shows once more that there are difficulties connected with the establishment of daily newspapers in cities where the journalistic field is already well occupied. To establish a newspaper and get it upon a paying basis is the work of years and the human equation also enters very largely into the problem. All men are not adapted to the publication of newspapers. In Spokane the Herald made the mistake of training with the reactionaries in business and politics and continually fighting the Spokesman-Review which paper holds an impregnable position in eastern Washington.

Pendleton will have a fourth of July celebration and it will be intended for the entertainment and comfort of the people who come to the city on that day. That is the way a celebration should be held but until this year the city has been handicapped through not having a proper place for a celebration. We now have a celebration grounds that can not be surpassed.

The progressives are in the saddle and it is well for Pendleton they are. Yet they should not ride the horse too hard.

"Towns are built; they do not grow."

Massachusetts Elks.
Boston, May 9.—Members of the Association of Massachusetts Elks will hold their annual banquet tonight, with August Harmann of Cincinnati, Grand Exalted Ruler of the national order, as guest of honor.

S.S.S. GREATEST OF ALL TONICS BECAUSE GREATEST OF ALL BLOOD PURIFIERS

Any system that needs a tonic needs also a blood purifier, for it is the weakened and impure condition of the circulation that is responsible for the run-down state of health. We have only to recognize the importance of pure, rich blood in preserving health, to realize the danger of a weakened or impure circulation. The great majority of persons are rapidly coming to understand the importance of preventing disease; they know that a poorly nourished system cannot resist germs and microbes, and that a tonic which purifies and enriches the blood will often ward off a serious spell of illness later on.

That Spring is the most trying season on the health is a fact well known to every one. It is the time of year when our constitutions are required to stand the greatest strain, and unless the system receives the proper amount of blood nutriment the health is bound to be affected. The general bodily weakness, tired, worn-out feeling, fickle appetite, poor digestion, etc., come directly as a result of weak, watery blood.

If you need a tonic, you need a medicine that has real blood purifying properties. A great many so called tonics are mere nerve stimulants, often producing instantaneous exhilarating effect, but acting with decided injury on the system. If your system is weak and run-down you can only tone it up by supplying an increased amount of blood nutriment, and this can come only through pure, rich blood. Any tonic which does not purify the blood is dangerous, because it leaves the impurities in the circulation to constantly prey upon the health.

S. S. S. is the greatest of all tonics because it is the greatest of all blood purifiers; and it is the one medicine you can rely on to supply the system with the best tonic. It purifies the blood. The S. S. S. at this time may save you from a long spell of sickness, and it will certainly prepare you for the strain of the long hot Summer. Many people have put off using a tonic until the system became so weakened it could not resist disease, and have paid the neglect later on with a spell of fever, malaria, or some other debilitating sickness. S. S. S. Nature's ideal tonic and blood purifier. It does not contain a particle of mineral in any form, or does it contain any of the deleterious nerve stimulants that are used in so many medicines.

FEELS BETTER IN EVERY WAY

S. S. S. is a good medicine. I keep it in the house all the while. It is an excellent tonic to give strength to the system and tone to all the physical members. It gives appetite and energy and makes one feel better in every way. I have found it also an excellent blood purifier. For months I was troubled with an itching skin eruption on the face, and tried many specialists and many remedies to get a cure, but S. S. S. is the only medicine that seemed to relieve. I am now free of this eruption. I think a great deal of your medicine, believing it to be the best blood purifier and tonic known to the world today.
