### MAY TAX CITY TO SUPPORT COLLEGE

Spokane, Wash.—Announcing in an official statement that the general education board, endowed by John D. Rockefeller with \$4,000,000, has decided Spokane is the logical point in the northwest for the establishment of an institution of higher learning, Dr. B. F. Westmore, president of Spokane College, today submitted a plan to the city commissioners to supplement private aid with municipal assistance. The idea is to levy a special tax of not more than three-tenths of a mill, or 30 cents annually on an assessed valuation of \$1000. This would provide a fund of between \$19,000 and \$20,000, in addition to which there will be a certain revenue from tuition, ranging from \$50 to \$75 a year. Aside from the fact that as a

financial proposition a college is the best investment a community can make, Dr. Westmore adds that it will be of vast benefit to students who are forced by circumstances to earn their way through the five-year courses. It is also planned to cooperate with industrial and commercial institutions, galleries and libraries and aid in the solution of municipal problems.
