IN SOLITUDE.

He is not desolate whose ship is sailing. Over the mystery of an unknown sea, For some great love with faithfulness unflinching. Will light the stars to bear him company. Out in the silence of the mountain passes, The heart makes peace and liberty its own— The wind that blows across the scented grasses. Bringing the balm of sleep— comes not alone. Beneath the vast limitless spaces Where God has set His jewels in array, A man may pitch his tent in desert places. Yet know that heaven is not so far away. But in the city—in the lighted city Where gilded spires point toward the sky, And fluttering rags and hunger ask for pity, Gray loneliness in cloth-of-gold, goes by. —Verna Sheard in Scribner's.

AN OBJECT LESSON.

Eastern Oregon wool is slowly being disposed of by the growers and the prices ruling at this time are somewhat more favorable than were predicted at the opening of the season. Still the price is off and unquestionably the slump is due to the possibility of a reduction in the tariff on wool. In the present situation with reference to the wool market there is a powerful argument for changing our method of revising tariff schedules. The present way of handling the matter is unbusinesslike and tends to work unjust hardship on the growers. It is possible there should be no tariff on wool. If to remove the tariff on wool would lower the price of clothing to the people of the United States then the duty should go, regardless of the personal wishes of sheepmen. We should not have laws that benefit a particular class at the expense of the public. But against the present method of changing the tariff the growers have good reason to complain. It is not right to put sheepmen up against the danger of a radical reduction at one fell swoop. If the tariff on wool is to be reduced the process should be gradual and sufficient notice should be given so that sheepmen may be able to discount the changes and protect themselves. In Germany tariff changes are made by a commission which first investigates affairs thoroughly and without a thought to politics. When changes are made they are made gradually and they do not go into effect at once. Producers know long in advance just what to expect and so to change the tariff works no hardship on them. It would work for justice, for business stability and for the general welfare of the country to have this system adopted in the United States. The tariff is a business proposition. When changes are made they vitally affect the business welfare of the country. So they should be made in conformity with business principles. At this time we enact tariff laws by the log rolling process. If the protectionists dominate congress we are able to get high tariffs that work injustice on the consumer. When the country grows tired of this sort of thing and places the revision element in control there is danger congress will go to the other extreme and so endanger the business equilibrium of the country. Through use of a tariff commission it should be possible to protect the consumers against injustice and at the same time give the tariff beneficiaries a chance for their lives when

changes are to be made in the schedules.

IT SEEMS SUCCESSFUL. At Corvallis the students of the agricultural college have a system of self-government and it is interesting to note how they go about the enforcement of laws governing student conduct.

While at Newport with the senior excursion recently three students violated the rules regarding the use of liquors. They are Melville Herren, Otto Sitton and Harry Barrett. Accordingly they were brought before the student tribunal for trial and pleaded guilty, though they made the excuse they did not know it was illegal for a student to use intoxicating liquor while away from the school.

However, the student court considered that an offence was committed against the good name of O. A. C. and as punishment the students were ordered placed on probation with the additional requirement that publicity should be given the affair. So Messrs Herren, Sitton and Barrett are now getting some unenviable publicity. Two other students who were found guilty of using liquor in Corvallis have been recommended for indefinite suspension from the school. This recommendation is now in the hands of President Kerr and it seems safe to predict that the suggestion of the student court will be carried out.

If the O. A. C. student body continues to enforce its regulative rules in this manner the student government plan will prove effective in maintaining a high standard of conduct among the students and certainly this is something much to be desired in an institution of learning.

VAS ISS? The committee appointed by Governor West, in conformity with an act of the legislature, to revise the judicial system of the state seems to have big work on hand. The law specifies that the committee shall prepare a law or laws calling for a comprehensive judicial system and shall deal with the modes of practice and procedure in civil and criminal cases. It is understood that the judicial system in Oregon at this time is unsatisfactory to lawyers because of the initiative measure enacted last fall and which provides that three-fourths of a jury may return a verdict in a civil case. Just what the commission will have to do towards alleviating the situation does not seem particularly clear but no doubt it will be done.

Many of the arguments against the plan of applying the recall to judges could also be used against the system which provides that judges may be impeached by the legislature or that the president may be impeached by the United States senate.

What Mexico seems to need more than anything else is a strong man to take the helm and hold it until the people become somewhat better educated in the duties of citizenship.

How the winter does hold on.

MAY 24 IN HISTORY.

1589—Passage of the well-known toleration act of England, which so greatly relieved the dissenters. 1794—Battle of the Sambre, in the Netherlands in which General Kaunitz defeated the French who lost 3,000 taken prisoners and 50 cannon. 1795—Several battles were fought at different places between the English troops and the United Irishmen, in which the latter were generally defeated. 1804—As a testimonial of the country's high esteem for Lieut. Decatur's gallant conduct in taking the frigate Philadelphia, a commission as captain in the navy was issued to him. 1819—The late Queen Victoria of England born. 1829—Nicholas of Russia crowned at Warsaw as King of Poland. 1864—John W. S.S.S. CURES OLD SORES

The news value of any advertisement depends entirely on its truthfulness and common sense. Based upon these two facts we hope to make this short talk of special interest to all persons who are afflicted with an old sore or chronic ulcer. If in presenting the merits of S.S.S. as a cure for these troubles, our line of reasoning appeals to you, it will be an easy matter to prove the truthfulness of our statements by sending you a free book containing many testimonials from persons in every part of the country who have been cured of an old sore or chronic ulcer by the use of S.S.S.

Whenever a sore or ulcer becomes chronic or refuses to heal, it is because of bad blood; the healing qualities of the circulation have been weakened by impurities or poisons in this vital fluid.

The blood is the great source of nourishment for all flesh tissues. As it constantly circulates throughout the system it carries the necessary nutrient properties to every portion of the body. It is because of this continual replenishment that the flesh remains firm and healthy and free from disease. Since the blood exercises such an important and necessary function we can easily understand why impurities or poisons in this vital fluid so often infect and disease the flesh at some particular spot, and by continually discharging impurities into it cause the formation of old sores or chronic ulcers.

Every symptom of an old sore suggests diseased blood. The inflammation, discharge, discolored flesh, and the fact that external applications never have any curative effect on these places, show that deep down in the circulation there is a morbid cause that prevents the place from healing. But more convincing proof that bad blood is responsible for old sores is furnished by the fact that even removing every visible trace of the ulcer by surgical operation, does not cure. THEY ALWAYS RETURN.

Only by cleansing the blood of the poisonous cause can an old sore be cured. S.S.S. heals them by going down into the circulation and removing the cause from the blood. When this has been done there is no longer left any inflammatory impurity or infectious matter to irritate the place, and nature causes the natural and permanent healing of the ulcer. When S.S.S. has purified the blood and the place is once more nourished with pure, rich blood, then every symptom disappears, and it is not a surface cure, but the place is firmly and solidly healed from the bottom to the outer skin. S.S.S. is recognized as the greatest of all blood purifiers, and therein lies its ability to cure old sores. It is purely vegetable, containing no mineral in any form, and its fine tonic effects are always helpful in overcoming the impure systemic effects of an old sore. Forty years of cures is the record of S.S.S., and what it has done in thousands of cases we feel perfectly safe in saying it will do in your case if you are afflicted with an old sore.

We have a special treatise on Old Sores which we will be glad to send free to all who desire it. It contains the statements of many witnesses as to the efficacy of S.S.S., some of whom you may know. We will also be glad to send free any special medical advice you desire. THE SWIFT SPECIFIC CO., ATLANTA, GA.

CURED MAN AND WIFE. It gives me pleasure to relate my experience with S.S.S. Both my wife and myself have cause to believe it the greatest of all blood purifiers. I at one time had an old sore on my nose which caused me a great deal of uneasiness, being afraid it was malignant. My wife also had an ugly old ulcer on her face which gave her considerable worry. We knew of no cause for these old sores so concluded they were due to bad blood. We both used S.S.S. and it cured us sound and well. This was some years ago but neither of us have ever had any signs of a return of the sore. I cheerfully recommend S.S.S. as a cure for Old Sores. G. W. LOGAN, Taylor, Texas.

defeated attempt to establish a republic. 1873—Warner Silver Bill passed the house, opening United States mints to the unlimited coinage of silver. 1888—Marriage of Prince Henry of Prussia and Princess Irene of Hesse at Charlottenburg. 1902—Lord Pauncefort, British ambassador to this country, died. 1903—French and Spanish governments ordered the automobile race from Paris to Madrid discontinued. Six persons had been killed and many injured. 1910—Halley's comet visible in Boston. FOR CLEANER ELECTIONS. (Chicago Record-Herald). A British prelate once said that he dreaded elections because of the venom, filth and imbecility under which they buried the kingdom. The same feeling has been expressed by thousands of sane and reasonable men. Mr. Adolph Kraus, in his vigorous protest against contest in this city, utters words of soberness and truth with which most thoughtful men will sincerely sympathize. Electoral campaigns are fights, and in the heat and stress of fighting men are not likely to be scientifically accurate. Faultless courtesy to "enemies." Exaggeration, bias, and personalities are inevitable. But we are civilized enough to draw the line at many things which are, alas! too popular with campaigners. It is not really necessary to be utterly silly, reckless, vicious and idiotic. It is possible to regain some self-respect and some respect for common sense and elementary decency. In fact our campaign oratory and political discussion could easily be elevated to a much higher plane without violence to average human nature. Lies, slanders, gross and puerile misrepresentations, wild charges and wholesome indictment do not help any cause or ticket to the extent imagined by some—if they help at all. Mr. Kraus is not at all Utopian in pleading for some restraint, discretion and fair play in campaigns. The Record-Herald fully agrees with him and finds earnest advocacy perfectly consonant with rational and just treatment of opponents. Wanted—a movement to moralize and rationalize election methods. You will never reach the right place on the wrong road.

For Sale 3 miles east of Echo along the Umatilla river, 385 acres good rich land under the Farnish ditch, 50 acres in alfalfa and 135 acres more can be put in all under the ditch. All machinery and hay for small price of \$17,500 on easy payments if sold at once. 160 acre wheat farm 4 miles west of Pendleton for \$2250, all cash; must be sold at once, parties needing money.
