THREE MEN SUSPENDED

FROM RAILROAD SERVICE Investigation at Stanfield Saturday Brought Forth Censure for Conductor Ray and Engineer Crabbill as Well as For Motor Engineer.

(Special Correspondence.) Stanfield, Ore., May 29.—Saturday in investigation of the cause of the llision tetween freight train No. 56 and the motor car, which occurred at Stanfield Friday evening, was held here by Superintendent Wm. Bollins, Assistant Superintendents Coykendall

and Dick Buckley, and Mr. Ladd. The testimony of both train crews was considered by an investigation com-mittee consisting of Colonel H. G. wport of Hermiston and Frank Sloan and L. S. Seen of Stanfield. It was brought out that the runalng time of the freight trains from Hermiston to Stanfield is 30 minutes and, allowing five minutes for clearing the track, getting onto the stile track, 35 minutes is usually allowed

for this run. Friday evening freight train No. 56 east bound left Hermiston 31 minutes before the time that the motor was due to leave Stanfield west bound, making it necessary for the freight to make up four minutes. This was not accomplished, however, and before the freight could get onto the side track the motor came along and they met head-on. The investigation committee after

carefully weighing the testimony and the conditions surrounding the rendered their opinion that Conducfor Ray and Engineer Grabill of violating rule No. 87 which makes it incumbent upon them under such leonditions to flag any train that may
