

WOMEN MAY AVOID OPERATIONS

By taking Lydia E. Pinkham's Vegetable Compound

The following letter from Mrs. Orville Rock will prove how unwise it is for women to submit to the dangers of a surgical operation when it may be avoided by taking Lydia E. Pinkham's Vegetable Compound. She was four weeks in the hospital and came home suffering worse than before.

Here is her own statement.
Paw Paw, Mich.—"Two years ago I suffered very severely with a displacement. I could not get on my feet for a long time. My physician treated me for seven months without much relief and at last sent me to Ann Arbor for an operation. I was there four weeks and came home suffering worse than before. My mother advised me to try Lydia E. Pinkham's Vegetable Compound, and I did. Today I am well and strong and do all my own housework. I owe my health to Lydia E. Pinkham's Vegetable Compound and advise my friends who are afflicted with any female complaint to try it."—Mrs. ORVILLE ROCK, R. R. No. 5, Paw Paw, Michigan.

If you are ill do not drag along until an operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound.

For thirty years it has been the standard remedy for women's ills, and has positively restored the health of thousands of women. Why don't you try it?

BLOOD STANDS STILL, Piles Can't Be Cured Until Circulation Is Restored.

It is useless to try to cure piles by operating or use of salves or suppositories—as long as the blood is stagnant in the lower bowel, new tumors will continue to form. Clear the blood—free the circulation. Then piles will leave for good. A successful, scientific, internal remedy is Dr. Leonard's Hem-Roid, sold under guarantee by Pendleton Drug Store and druggists everywhere. \$1 for 34 days' treatment. Dr. Leonard Co., Station B., Buffalo, N. Y. Write for booklet.

A Charming Woman

is one who is lovely in face, form, complexion and perfect health. Try mind and temper. But its hard for a woman to be charming without health. A weak, sickly woman will be nervous and irritable. Constipation and kidney poisons show in pimples, blotches, skin eruptions and a wretched complexion. But Electric Bitters always prove a godsend to women who want health, beauty and friends. They regulate stomach, liver and kidneys, purify the blood; give strong nerves, bright eyes, pure breath, smooth, velvety skin, lovely them. 50c at Koeppens.

The Well Known Chinese Doctor

Cures a y and all diseases that the human flesh is heir to. My wonderful and powerful remedies are composed of Chinese buds, barks and vegetables that are entirely unknown to medical science of the present day. They are harmless as we use no poisons or drugs. No operations. No knife used. We cure stomach troubles, liver, kidney, catarrh, lung, throat, asthma, nervous debility, female complaints and rheumatism and all disorders of the blood. We cure to stay cured, and guarantee to cure all kinds of Piles and Private Diseases of men and women. Call and see him or write. Consultation free. If you are unable to call and see him, send two cents in stamps for symptom blank. Address: THE L. CHING WO CHINESE MEDICINE CO. 309 W. Ross St. Walla Walla, Wa.

More Sick People to be CURED
Walla Walla, Wa.

To the Public:
I have taken Doctors York & York's special treatment for kidney and stomach trouble for about a month. I had suffered with this trouble for many years and doctored with many doctors as well as tried various patent medicines, but all without avail. Now I am well and able to work. I have also gained twenty pounds in weight. I am certainly glad to give these Chinese doctors this testimonial.
(Signed) ANDR. BERG.
We receive testimonials daily from grateful patients. If the public desires to investigate them, we will be only too glad to show them.
Doctors York & York successfully treat all chronic and blood diseases. Out of town people can write for free consultation paper and circular, enclose 2c stamp.
YORK & YORK MEDICINE CO. 210 1/2 W. Main St., Walla Walla, Wa.

WESTON HAPPENINGS BRIEFLY TOLD

(Special Correspondence.)
Weston, Ore., June 12.—Ira Kemp who has been in Salem for the past week returned home Friday.

Mrs. Chas. Graham from Pendleton is the guest of Mr. and Mrs. John Bonewitz at their home in Weston.

Miss Cecil Boyd, one of Athena's prominent young women who has been attending the Lewiston normal was in Weston Friday visiting Mr. and Mrs. Ira Kemp.

Mr. George Stagg, jr., who has returned from Seattle where he has been attending school for the past month, is engaged in work at the saw mill.

Mr. Frank King is beautifying his home on Water Street by a new coat of paint. Mr. Barnett who is engaged in painting is doing the work.

Avery & Lytle, Blue Mountain saw mill men were in town Friday on business.

Mrs. Frank Taylor and daughter Mammie were down from their home on Read and Hawley mountain Friday on business.

Joe Henderson who has been attending O. A. C. arrived in Weston Friday evening and went Saturday to his home on Weston Mountain.

D. B. Jarman and his nephew Eddie were Athena visitors during last week.

O. M. Richmond and wife of Walla Walla were in Weston looking after their residence which has been vacant during the winter.

Mrs. Lucretia Maloney has gone to Walla Walla for medical treatment.

Mrs. Alice Banister who has been in Walla Walla for the past few days, returned to Weston Friday.

Mrs. Ralph Lane and children were over from Walla Walla visiting Mrs. A. Kennell last week.

Mr. and Mrs. John Banister returned Saturday evening from the Festival and Mr. and Mrs. William MacKenzie arrived in Weston Sunday morning from Portland.

Mr. and Mrs. L. S. Kennard were in Athena visiting friends during last week.

Miss Lillie Miller was over from Athena Friday on business.

Mrs. Verma Bell was down from her ranch on the Read and Hawley mountain Friday to visit her mother Mrs. J. Van Slyke.

Miss Bessie Martin who has been staying with her grand parents in Tyh Valley, Oregon.

Loss of Appetite is commonly gradual; one dish after another is set aside. It is one of the first indications that the system is running down and there is nothing else so good for it as Hood's Sarsaparilla—the best of all tonics.

N. P. OFFICIALS TO TOUR CENTRAL OREGON

Next Tuesday morning a special train conveying a large party of officials of the Northern Pacific railroad, half owner of the Oregon Trunk line, and heads of Portland newspapers, will leave Portland for a tour of the vast empire of central Oregon that is being opened by the Northern Pacific and Oregon Trunk railroad, says the Portland Journal.

The party will go to Madras, Metolius, Culver, Opal City, Raymond, Laidlow, Bend and Prineville, where they will be entertained by the commercial clubs and civic bodies of these bustling interior towns. From each point they will visit by automobiles the surrounding country with a view to ascertaining the needs of the country from a transportation standpoint, and for the purpose of becoming acquainted with conditions generally.

From Prineville the party will cross the interior to Medford, visiting the towns and points of interest that lie between and will then take the Southern Pacific line to the north. They will stop at Ashland, Roseburg and Grants Pass in southern Oregon, if time permits. They have also planned to visit Eugene, Albany, and Salem, where they will meet and get acquainted with the citizens and commercial bodies. From Salem the party will return to Portland on the Oregon Electric, which is also owned by the Northern Pacific road.

This will be the first visit to central Oregon by most of the members of the party, and the Northern Pacific officials will take this opportunity of meeting their patrons in the newest Oregon country.

The party will be in charge of A. D. Charlton, assistant general passenger agent of the Northern Pacific railroad, who will spare no efforts to make the trip an interesting and valuable one both to the members of the party and cities and territory which will be visited.

Following are the names of those who will comprise the party: Carl Gray, president Spokane, Portland & Seattle railway; Portland; H. C. Nutt, fourth vice president Northern Pacific railway, Tacoma; J. G. Woodworth, traffic manager Northern Pacific railway, St. Paul; A. D. Charlton, assistant general passenger agent Northern Pacific railway, Portland; Hery Blakeley, general western freight agent Northern Pacific railway, Tacoma; F. H. Fogarty, assistant general freight agent Northern Pacific railway, Portland; L. J. Brockner, immigration agent Northern Pacific railway, St. Paul; O. D. Wheeler, advertising department Northern Pacific railway, St. Paul; E. B. Piper, managing editor Oregonian, Portland; John F. Carroll, general manager Telegram, Portland; C. S. Jackson, Portland; B. S. Cook, official photographer and stenographer.

A Dreadful Wound

from a knife, sun, tin can, rusty nail, fireworks, or of any other nature, demands prompt treatment with Bucklen's Arnica Salve to prevent blood poison or gangrene. Its the quickest, surest healer for all such wounds as also for burns, boils, scres, skin eruptions, eczema, chapped hands, corns or piles. 25c at Koeppens.

A Problem That Stumped Rousseau.

A curious little book is an old, old treatise on aeromatics by Jean Jacques Rousseau, entitled "Le Nouveau Dedale." Like Leonardo da Vinci and Cyrano de Bergerac, Rousseau was haunted by the dream of aerial navigation. We read: "Men walk on the earth, they sail on the water and swim in it. Is not the air an element, like the others? What business have the birds to shut us out of their premises while we are made welcome in those of the fishes?" Rousseau took no stock in any theories propounded by the Darius Greens of his day. He sifted the matter for himself and thought it involved two problems. First to find a body lighter than air, so that it would rise. He imagined that sooner or later such a body might present itself. There was no telling. But what stumped him was his second problem—how to make that obliging body stop rising and how in creation to make it come down. This was too tough for Jean Jacques, and he wound up his book by admitting it. For a long time "Le Nouveau Dedale" remained unpublished, appearing only in 1801.

When a Ship Turns Turtle.

To "turn turtle" means, in nautical language, that a ship rolls too heavily, fails to recover herself and after a brief period on her beam ends turns topsy turvy, so that her keel points skyward. Then, of course, she sinks. Frequently the compressed air imprisoned in her hull blows her bottom out as she goes down, or if she is a steamer her boilers burst, with like results. As a rule, ships turn turtle because they are burdened with too much "top hamper" or from lack of sufficient ballast, or both causes combined. Rarely does it happen that there are any survivors, but there is one notable exception in the case of the battleship Captain, which was lost after this fashion in the bay of Biscay. In her case exactly three minutes elapsed from the time she first turned turtle until she finally sank, and forty of her crew of 500 men clambered up her side as she rolled over and on to her keel. Of these eighteen men were eventually rescued and were able to describe later on precisely what occurred.—Pearson's.

Mining For Coffin Planks.

One of the most curious industries in the world is the business of mining for coffin planks, which is carried on in upper Tonkin, a portion of the French possessions in southeastern Asia. In a certain district in this province there exists a great underground deposit of logs, which were probably the trunks of trees engulfed by an earthquake or some other convulsions of nature at a comparatively recent period. The trees are a species of pine known to the natives and also to some extent to European commerce as "bam-bou." The wood is almost imperishable and has the quality, either through its nature or as the result of its sojourn underground, of resisting decay from damp. This quality makes it particularly valuable for the manufacture of coffins, and for this purpose it is largely exported to Europe. The trees are often a yard in diameter. They are buried in sandy earth at a depth of from two to eight yards and are dug up by native labor as demand is made for them.—Harper's Weekly.

How to Cool Things.

A newlywed named Jones was talking to his friend Casey the other day about the heat in his flat and was asking the other for a little advice.

"Do you know my dining room is the hottest place in the world?" began the newlywed. "Do you know of any way I might cool it off?"

"From experience I should say that a very good way to bring about a change in atmospheric conditions," remarked the older married man, "and one that is sure to bring results one way or the other, is to take a friend home to dinner when your wife isn't expecting company."—Philadelphia Times.

His Line.

A charming young member of a woman's literary club, who adds the distinction of being a bride to successful authorship, recently met a gushing stranger at a club reception.

"Oh, Mrs. Blank, I am so glad to meet you. I enjoy your stories so much, and your husband's too." Then adding as an afterthought, "He is literary, too, isn't he?"

"Thank heaven, no!" replied the bride. "He's in the coal business."—New York Press.

Progressing.

"I think Arthur would have proposed to me last night if you hadn't come in the room just when you did."

"What reason have you for believing that?"

"He had just taken both of my hands in his. He had never held more than one of them at a time before."

Wide Mate in 1798.

An artist has advertised that he makes up wornout umbrellas into fashionable gypsy bonnets. The transition is so easy that he is scarce to be praised for the invention.—London Times, July 7, 1798.

Solid Goods.

"What became of that cake I baked for you?" demanded the fiancée.

"I sent it downtown to have my monogram engraved on it," replied the fiancé.—Kansas City Journal.

The Worst to Come.

"Do you think we have heard the worst of the disorders in our party?"

"Not yet," replied the musical man. "Just wait till our glee club gets to practicing."—Exchange.

Art is long, life short, judgment difficult, opportunity transient.—Goethe.

TO TEACH COOKING AND SEWING

Special Courses in Domestic Science This Summer at Agricultural College.

Oregon Agricultural College, Corvallis, Ore., June 10.—A special two-weeks course of teaching domestic science subjects in the grade and high schools will be given this summer at the Oregon agricultural college, beginning June 19, in addition to the regular six weeks course from June 19 to July 28.

The purpose of the new course is to meet the needs of those interested in introducing domestic economy into the grammar grades and the high schools of the state, and who wish suggestions as to the cost of installing it with the necessary equipment, as to the courses of study to be followed, and the methods of catching and holding the interest of the pupils.

Young women recently graduated from the college normal course will teach the classes of children cookery and sewing as demonstrations to the summer students, that they may see how practical problems are met in the daily classes. Conferences with the regular members of the college staff may also be arranged if there are problems on which information is desired.

In the lectures to be given as illustration of the way laboratory practice may be supplemented by lecture instruction, such subjects will be taken up as marketing and menu planning, art in the home and its application to sewing, dressmaking and millinery. The dean of the department will give a series of lectures on the place of domestic science in the curriculum, and its introduction into country schools; a comparison of the plan of domestic science and art work at the Oregon agricultural college and at similar eastern institutions; and the preparation that domestic science and art work gives a young woman for professional life.

The six weeks course will afford young women who are busy during the winter an opportunity for a study of home problems in cookery, dietetics, serving, plain sewing, dressmaking, home nursing and sanitation. For teachers interested in introducing such work into the schools where they are to be next year, suggestions will be given with regard to what should be taught children of different ages, and how to arouse and sustain interest. Cookery, dressmaking, other sewing and laundering will be included in the instruction.

Among the representatives of O. A. C. at the Y. W. C. A. conference at Breakers, Wash., are Ruth Smith, '11, Marshfield; Alice Riggs, '14, Rickeral; Anna Fell Lee, Great Falls, Mont., and Charlotte Huff, '12, Portland.

Deafness Cannot Be Cured

by local appliances, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; unless cases out of ten are cured by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular free.

F. J. CHENEY & CO., Toledo, O. Send for circular free. Take Hall's Family Pills for constipation.

A GREAT PHYSICIAN.

What He Said of Germs That Cause Disease.

M. Pasteur, sometimes called the greatest physician, often said, "I believe that we shall one day rid the world of all diseases that are caused by germs."

Of all the diseases caused by germs catarrh is one of the most persistent and loathsome. Catarrh can be cured, but only by destroying the germs.

Breathe HYOMEI (pronounce it High-o-me) and cure catarrh by killing the germs. The HYOMEI method is the only sensible method, because you breathe the highly antiseptic and germ killing air directly over the entire membrane infested with catarrh germs.

HYOMEI will cure catarrh. There may be some complicated cases where it will fail, but the chances are ten to one in its favor, and the sufferer from catarrh takes no risk, because HYOMEI is a guaranteed remedy, and if it doesn't cure Tallman & Co. will refund the purchase price.

HYOMEI will also give instant relief and cure in bronchitis, coughs, colds and croup. A complete outfit, including hard rubber pocket inhaler, costs only \$1. If you now own a Hyomei inhaler you can get a bottle of HYOMEI for 50 cents.

ANGER IN DELAY.

Kidney Diseases Are Too Dangerous For Pendleton People to Neglect.

The great danger of kidney troubles is that they get a firm hold before the sufferer recognizes them. Health is gradually undermined. Backache, headache, nervousness, lameness, soreness, lumbago, urinary troubles, dropsy, diabetes and Bright's disease follow in merciless succession. Don't neglect your kidneys. Cure the kidneys with the certain and safe remedy, Doan's Kidney Pills, which has cured people right here in Pendleton.

J. D. Morrow, 517 Marie street, Pendleton, Oregon, says: "For about three months I had backache and if I did any work that required stooping, sharp twinges darted through my loins and over my right kidney. The secretions from my kidneys were unnatural and irregular in passage and pained me intensely when being voided. On a friend's advice, I used Doan's Kidney Pills and they corrected my trouble. I gladly give this preparation my endorsement."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.
