Deafness Cannot Be Cured
by local appliances, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

LIVESTOCK MARKET GENERALLY FIRM

QUALITY OF SHEEP AND LAMBS POOR AND LOW

Cattle Take Little Spurt Upward While Hogs Show Good Advance—Wheat Regains Decline.

(From Monday's Journal.)
The livestock market was generally firm today although weakness and lower prices were forced in the sheep and lamb trade.

There was again a big offering of sheep and lambs at North Portland and this together with the fact that much the larger per cent of the arrivals were of poor quality, brought down the range of values.

Top lambs went at \$5.25 and receivers were very glad to be able to squeeze that figure out of a depressed and generally unfavorable trade.

The overloading of the Portland trade with so many sheep and lambs of very poor quality, can have but one effect—lower prices. With every feed lot filled with stock that has arrived during the past two weeks and with no diminishing of the showing, packers are less inclined than ever to bid favorable quotations for this class of stuff.

Had it not been for the fact that the present marketing of sheep and lambs is likely to affect quotations in this line later in the season, buyers would not be paying and offering present values. Feed stock is selling down as low as \$2.50 for wethers, but this price seems to be satisfactory to shippers, for they continue to make offerings to butchers.

Today's run of sheep and lambs in the local yards totaled 2761 head, compared with 2232 head last Monday and 1942 the previous week for the same day.

Sheep and lamb prices at North Portland today:

Yearlings \$3.75
Wethers \$3.00@3.50
Ewes 2.50@3.00
Lambs 5.25
Feed sheep \$2.00@2.50

A year ago today sheep and lambs were steady with no change in prices.

Cattle Market Up Dime.
An advance of 10c was forced in the cattle market today at North Portland when one sale was made at \$6.25. This was for a lot of 1070 pound steers shipped in from the Walla Walla country. The stock was of excellent quality and found takers early in the morning. The sale was made at an advance of 10c over the figure recently obtained for a select lot of California cattle.

Total run of cattle at North Portland over Sunday was 135 head. This compares with 473 head last Monday and 259 two weeks ago.

With the exception of one load from Walla Walla that sold at \$6.25 cattle arrivals of the day were generally of ordinary quality, although one load of steers went at \$6 at the same time that the toppers brought the extra amount. The \$6 stuff averaged 1124 pounds.

A year ago today while there were heavy arrivals of cattle, the market price was unchanged.

Cattle values at North Portland are:

Best steers \$6.25
Ordinary steers 6.00
Best cows 4.75
Medium cows 4.50
Poor to fair cows \$3.99@4.00
Best bulls 4.50
Fancy bulls 4.00
Ordinary bulls \$3.75@4.25

CALVES.
Best light \$7.50
Ordinary 7.25
Poor \$3.00@4.00

Hog Market is Higher.
On this day a year ago there was a very firm tone in the swine trade and an advance of 15c put the price at \$10 for toppers. Today while the price did not go beyond \$7.15, the market was 15c higher than last week. One lot of light stuff that averaged 213 pounds went at the high mark and another lot that averaged 180 pounds went at the same figure.

Heavier stuff was likewise up a dime with a sale of seven head that averaged 341 pounds at \$6.30.

There were light offerings of hogs in the North Portland yards today and over Sunday only 135 head were received, compared with 473 last Monday and none on this day two weeks ago.

The strength in the hog trade here is a reflection of the advance that

packers have been forced to pay in the central west owing to diminished offerings. This has naturally had its effect upon the trade here.

Nominal swine values at North Portland:

Best blockers \$7.15
Medium light 7.00
Heavy packers 6.50
Rough packers \$5.00@6.50
Feeders 7.00@7.25
