WOLFGAST FAVORITE OVER BRITON IN BETTING

San Francisco, June 29.—Convicted that the Wolfgast-Moran prize fight to be held here in July is likely to go the limit, barring knockouts local fight fans today have settled down to 19 to 1 odds on the champion. The real rush of Moran began today, but the wise ones are taking the long end, as they seemingly believe that Wolfgast's work is more consistent than the Briton's.

SAY THOMPSON IS A PARTIAL SLEUTH

From the tenor of a communication received by the East Oregonian today it is evident that Messrs. Bundy and May of Athena, do not think highly of the methods employed by E. B. Thompson, special game warden who caused their arrest recently. The communication is as follows and is published as a matter of news:

Athens, Ore., June 29, 1911. This is to state that Warden Thompson fished with us on the Unatilla river Saturday, June 24th, and that he gave us the fish he caught, and to the best of our knowledge he may have put small fish in our basket as well as ourselves, as they were all in one basket. He never notified us he was a warden or that it was illegal to keep small fish. He also let the Wilson boys go with small fish in their basket after examining their catch. Having told us he examined their baskets and as they had a fine catch he passed up what few small ones they had, Bert Wilson told us they had eight small ones.

LAFFERTY WOULD REPRESENT PORTLAND

Congressman Lafferty will not again seek the votes of the people of eastern Oregon. If he runs for office again it will be as a resident of Portland.

This information is contained in a letter just received by Secretary Jack Keefe of the Commercial club and which was read at the weekly luncheon of the board of managers today. The announcement was made in connection with a discussion of the Lafferty bill for the creation of an eastern Oregon judicial district with headquarters at Baker.

In commenting on his bill Lafferty made the contention that his bill does not discriminate between Pendleton and Baker and that in the event of its adoption the federal judge could reside in either town he desired.

However, a reading of the bill, inclosed with the letter, shows this statement to be untrue. The bill provides that the regular terms of the court shall be held at Baker beginning on the second Mondays of April and November and at the city of Pendleton on the first Tuesdays in June and December in each year. This wording in the view of President Smythe, an attorney, makes Baker the headquarters for the court in the event the bill is adopted.

Furthermore the Lafferty bill specifies that the marshal and clerk for the new district shall appoint at least one deputy at Pendleton.

Secretary Keefe was instructed to notify the congressman that the wording of his bill is unsatisfactory and that Pendleton people would prefer to have the bill so drawn as to have the regular sessions here and to have the deputy named for Baker.

Another matter passed upon by the board today was the rejection of a claim from Baker to the effect that Pendleton should bear all the expense of publishing the initiative argument for the branch asylum. W. L. Thompson, of the public policy committee to which the claim had been referred, reported no deal had been made whereby the club assumed more than one third the expense. As one third the amount has already been paid the matter of paying the remaining two thirds was laid upon the table.

about all English ports is expected. At Liverpool today the White Star lines company announced that it had discharged all its sea employees save the officers and engineers. Hereafter the company will employ only non-union men.

All shipping, save the Transatlantic liners, is paralyzed. Reports from other big ports tell of serious riots and other disturbances.

London, June 30.—Determined to fight to the last ditch against the Seamen's union, the Shipping Federation today decided to lay up half their tonnage and apportion loyal workers to the other half.

"In answer to this announcement, the strikers immediately ordered that every port be tied up at any cost, and unless Premier Asquith's peace plan prevents, a bitter struggle centered

DAVID CAPLAN, REPORTED CAPTURED IN LONDON

Governor Johnson of California and State Officials at Washington Partially Confirm Rumor.

Sacramento, Cal., June 30.—That David Caplan, one of the originally indicted persons for the Los Angeles Times dynamiting, has been captured in London and his requisition has been asked for the return of the fugitive, is seen in the evasive answer of Governor Johnson of California, today.

When asked whether Secretary of State Knox had been asked to issue a requisition for Caplan, the governor said: "This is a matter that I don't feel at liberty to discuss," and he refused to talk any more.

Confirmed at Washington. Washington, June 29.—The state department today partially confirmed the report that David Caplan, accused of being concerned in the alleged dynamiting of the Los Angeles Times, has been captured by the British police in London.

The officials admitted some man had been arrested and intimated that it might be either Caplan or Schmidt, another man who is sought in this country for dynamiting.

SETTLEMENT REPORTED IN CANADIAN COAL STRIKE

Nelson, B. C., June 30.—It has been reported of good authority that a settlement with the Alberta Crows Nest coal strikers is arranged. It is reported that the operators have agreed to offer a seven per cent wage increase and to make other concessions, not including the closed shop, and that the workers have agreed to accept. Official announcement of the strike ending is expected momentarily. The strike has been on for several months.

ROYALTY ENTERTAINS 100,000 CHILDREN IN LONDON

Greatest Gathering of Youth Ever Witnessed in British Metropolis—Each Guest Receives Present From King and Queen.

London, June 30.—Never before in the history of London has been witnessed such a mammoth gathering of youth as that present today at the children's coronation fête at Crystal Palace. More than 100,000 children are guests of King George and Queen Mary. The affair did much to enhance the popularity of the royal couple. Each child was presented with a royal gift in the shape of a beaker which bore portraits of the king and queen with their autographs on it. This evening the king and queen will be guests of Premier and Mrs. Asquith at a dinner.

SEE TO HIDE BEHIND WOMAN IN DEFENSE

Chicago, June 30.—Outlining the defense of Evelyn Arthur See, Attorney Cantwell today indicated that See would attempt to hide behind his woman adherents.

He promised to show that Mrs. Bridges, Mildred's mother, Mona Rees and another disciple wrote some of the sensational passages of his "Book of Truth" which is practically a defense for "free love."

Mrs. See's attorneys, who are handling her divorce proceedings, say they will prove that See wrote the book himself.

CONVICT ABE RUEF IS ALSO A PLAYWRIGHT

San Quentin, June 30.—The annual fare, given by the prisoners of the California penitentiary here July 4, was written by Abe Ruef, the former political boss of San Francisco, who is a prisoner in the institution.

PLOT TO DESTROY NAVAL TUG DISCOVERED

San Diego, Cal., June 30.—An alleged plot to destroy the United States army tug, Lieutenant Harris was discovered today when twelve packages of explosives were found in the hold of the vessel. No clues can be found that would indicate who is responsible for the attempt.

Two companies of the coast artillery were being carried from San Diego to Fort Rosecrans on the tug. It is believed it was the intention of the plotters to destroy the vessel while the militia was aboard.

The explosive was found in the hold of the vessel, and while he was taking coal aboard the tug. It has not been determined what the explosive is.

MRS. RUMBALL'S HEARING POSTPONED TO JULY 3

Oroville, Calif., June 30.—Through unreadiness on the part of both the prosecution and defense, to proceed, the preliminary hearing of the charges against Mrs. Rumball and her brother, Archie Lewis, for the killing of Helen Rumball, her stepdaughter, was today postponed. The hearing will probably be held Monday, July 3.

After a severe sweating the impression is growing among the authorities that Mrs. Rumball broke the child's neck in the attic of her home by jerking the rope after having tied the child to a rafter and feeling is high against them.

The prisoner's attorney will probably plead that the girl deserved punishment but that her death was purely accidental.

POSSE MAY HAVE MET TRAIN ROBBERS

Glendale, Ore., June 30.—Passengers on the Southern Pacific south-bound passenger train arriving here this morning from Portland, say they heard many shots while coming through Cow Creek Canyon. Three posses are there hunting for the Oregon Express bandits, but owing to lack of communication facilities, it cannot be ascertained whether or not the bandits and posses have fought a battle. Bloodhounds that were put on the track of the men, lost the trail near Cow Creek siding last night and were today brought here in an effort to relocate it.

The dogs had worked both sides of the track without finding the scent. No Claws Found.

The officials here frankly acknowledge that they are without any clues as to the direction taken by the robbers.

Many mountaineers and woodsmen are joining the posses, being attracted by the large rewards offered by the Southern Pacific company and the government. All tramps are being stopped and closely questioned at this place.

COIN IN HEART OF OLD TREE

Best Keeping Place for Copper Penny of Ancient Vintage.

Darby, Pa.—In the heart of the two-foot trunk of an old ash tree, where it has laid probably for nearly a century, Albert Watson, Jr., of Main street, above Ridge avenue, found an old copper penny dated 1817 yesterday, while putting up the trunk. The tree was blown down in the storm of Monday night.

Washington, June 30.—Naval officers will be selected for compulsory retirement under the personnel law by the elimination board of rear admirals which convened here today for that purpose. The board consists of Rear Admirals Richard Walnwright, president; S. J. Conly, G. B. Harbor, T. B. Howard and H. Osterhaus. The officers retired under the personnel act will be advanced in grade.

Vancouver, B. C., June 30.—Wireless telegraph reports today say the steamer Spokane went on the rocks in Seymour Narrows last night but that all the passengers were landed at Plumbers Bay, save two who are still missing. The steamers Prince George and Admiral Sampson are standing by the wreck.

HINES SCORES POINT BEFORE COMMITTEE

Washington, June 30.—Productions of bills from a Washington hotel, which indicated that he could not have been in Chicago at the time Clarence Funk swore he was asked for a contribution to the Lorimer "slush fund," was a surprise sprung today by George Hines, the Chicago lumberman, before the senate investigating committee.

The bills indicated he was in Washington from February 7 to March 5 between the dates Funk placed for his alleged conversation with Funk.

He flatly declared that he had not even talked over the fund with Tilden of the packing company, who, it is alleged, collected it.

QUITS CHICKS FOR KITTENS.

Mother of Fine Brood Shows Unnatural Longings.

York, Pa.—After accomplishing the commendable feat of hatching thirteen chicks from as many eggs, a Plymouth Rock hen owned by James M. Cross deserted her brood and undertook to mother four baby kittens which arrived the same day. The old cat had been given quarters close to the hen's nesting place and for four days the hen spent most of her time covering the kittens, driving away the mother cat whenever she appeared. To keep the kittens from starvation under their unnatural mother it was necessary to confine the hen in a box.

HARVARD AND YALE ARE EVEN IN FIRST EVENTS

New London, Conn., June 30.—To the cheers of thousands, Harvard and Yale broke even in the first two events of their annual races. Yale captured the freshman race, by two lengths over a two mile course. Harvard won the four oared race by two and a half lengths. Harvard forced to the front from the start and held it easily. The wind was blowing and the water was choppy. The varsity race is being run this afternoon.

SYRIAN SERVES SENTENCE AND STARTS SUIT

Tried and convicted recently for having stolen a suit case from the American Express company at Athens and having served his sentence of fifty days in jail, H. Najjar, a Syrian peddler, is now bringing suit against the company for failure to deliver the same suit case, thus presenting a peculiar situation. The case has been instituted in the court of Walla Walla county, Wash., the supposition be-

ing that Najjar considers that the company will have a harder fight than if held in the local court.

The Syrian alleges that he shipped a suit case from La Grande to Athens, which suit case contained jewelry to the value of \$1,200, that the company accepted it at that valuation but failed to deliver it and has now asks for \$1,200 damages. He

Building Falls and Scow Sinks, Simultaneously, on Buffalo Water Front

Buffalo, June 30.—Four were killed and a score were injured today when a pumping station at the foot of Porter avenue collapsed shortly after 9 o'clock. The injured were rushed to the hospitals in several ambulances, and an army of physicians mustered to attend them. It is estimated that the damage will amount to more than \$1,000,000.

Victims Were Machinists. The victims were machinists and were engaged in installing new machinery in the plant. They were buried under many tons of brick that carried them into a pit fifty feet below the surface. The walls which were 300 feet long, as well as the roof, collapsed. Firemen are engaged in seeking the bodies. Of those who are injured, many are fatally hurt.

Shortly after the pumping station accident, a scow belonging to the Empire Engineering company, nearby, turned turtle and sank. Six men who were on the vessel are missing and are believed to be dead.

TEACHERS COLLIDE IN DENSE FOG; PASSENGERS UNHURT

Quebec, June 30.—The steamer Aramora, in a dense fog this morning, ran down and sank, in thirty fathoms of water, the steamer General Wolfe, below Murray Bay. Both boats are owned by the Holiday Brothers of this city. The latter vessel sank within half an hour after being rammed. All passengers were rescued. A valuable cargo was lost, which together with the vessel was insured. Most of the wrecked passengers were residents of the coast. Some of them had narrow escapes from drowning.

CHASE DISCOVERS NEW PLAY TO INCREASE SCORE

Newark, N. J., June 30.—Manager Hal Chase thinks he has discovered another play to net scores and he is seeking to patent it. It is to be worked when with two out there are fast men on second and third. The man on second is to take a big lead and draw a throw from the catcher. Then the man on third scoots home. If the catcher heaves the ball to third the runner on second is to jockey around until he pulls a throw to second from third thus giving the runner on third a chance to score. Hal says it ought to work three out of four trials.

NEW YORK BANKER IS SENTENCED TO PENITENTIARY

New York, June 30.—Joseph Reichman the former president of the Carnegie Trust company, who was convicted of making false reports to the state banking department, was today sentenced to four and one-half months in the penitentiary.
