### WALLA WALLA LIKES ROUND-UP BAND

Walla Walla, June 6.—In speaking of the Roundup band of Pendleton, which played here yesterday, the Walla Walla Union, in this morning's issue, says the following: "Of all the outside bands which participated in the celebration, the famous 'Round-up' band from Pendleton, which was on the streets last night was undoubtedly the most popular. Coming to the city on the 7 a. m. train yesterday they gave many selections on the street during the evening, everyone of which drew large crowds. Dressed in chaps, red shirts and red bandanas suggestive of frontier costume, the boys made a picturesque appearance, and to the stranger their music was a surprise. "The 'Round-up' band is managed by Robert Fletcher of the East Oregonian, and is composed of skilled musicians, who have had years of experience in concert work. They have a large and varied program and can certainly make melody. The star number of their repertoire is the famous 'Round-up' Indian selection, composed especially for the big frontier show which has made Pendleton famous. The piece has a weird, fan-

### Baby's Voice

Every woman's heart responds to the charm and sweetness of a baby's voice, because nature intended her for motherhood. But even the loving nature of a mother shrinks from the ordeal because such a time is regarded as a period of suffering and danger. Women who use Mother's Friend are saved much discomfort and suffering, and their systems, being thoroughly prepared by this great remedy, are in a healthy condition to meet the time with the least possible suffering and danger. Mother's Friend is recommended only for the relief and comfort of expectant mothers; it is in no sense a remedy for various ills, but its many years of success, and the thousands of endorsements received from women who have used it are a guarantee of the benefit to be derived from its use. This remedy does not accomplish wonders but simply assists nature to perfect its work. Mother's Friend allays nausea, prevents caking of the breasts, and in every way contributes to strong, healthy motherhood. Mother's Friend is sold at drug stores. Write for our free book for expectant mothers. BRADFIELD REGULATOR CO., Atlanta, Ga.

tastic harmony which is alluring in its strangeness and originality, and thrilling in its execution by the Oregon band."

### INDIAN CAMPMEETING DISBANDED YESTERDAY

After a very successful week the camp meeting held by the Presbyterian Indians on the reservation came to a close yesterday. At the camp, which was located at the site of the old agency, the fourth was given over largely to sports and to a big dinner. Games were played, a greased pole was climbed and other celebration stunts were pulled off. At the dinner yesterday there were 165 present and this number in the view of J. M. Cornelson, was very large considering that there were two other reservation camps holding forth at the same time. The church service yesterday was devoted largely to the subject of temperance and several present joined the Indian temperance society.

### SNAKE LEAPS ON CHILD.

Reptile Pounces on Little Girl in Her Grandmother's Home. Clementon, N. J. — Ethel Chambers, 19 years old, is suffering severely today as a result of being thrown into hysterics yesterday when a three-foot milk-snake leaped from a writing desk upon her breast as she was preparing to write a letter to her parents, Mr. and Mrs. William Chambers of Camden.

Ethel has been spending a week with her grandparents, Mr. and Mrs. David Grover on their farm at Aerial, near here. She had opened the writing desk and while the cover was sliding back the reptile hissed and made a spurt at her. Mrs. Grover heard the child's screams and responded with a cane, killing the reptile. The milk-snake usually frequents houses in quest of milk and mice.

### ENGINE OUT OF MUD GRAVE.

Locomotive That Skated Off Bridge Into River Not Recovered.

Burlington, Vt.—A famous old locomotive which has been sunk in the mud beside the railroad bridge between Cambridge and Underhill since Dec. 31, 1910, has at last been raised to the rails. The locomotive, attached to a local, left Cambridge on the morning of Dec. 31, bound for Essex Junction. The track runs through the mountains, and during a sudden thaw the water rose several feet over the track and then froze. When the wheels hit the ice the engine was overturned and toppled off the roadbed just beyond the bridge. When the spring thaw came it settled in the mud, disappearing from sight. As the business of the road increased it became necessary to replenish the rolling stock of the road, and for economy's sake it was decided to raise the old locomotive from her muddy grave.

### FIGHTING MERITS OF AIR CRAFT TO BE LEARNED

Government to Make Series of Tests of Dirigibles and Aeroplanes at Hampton Roads.

Washington.—For the first time in history, exhaustive tests as to the efficacy and adaptability of dirigibles and aeroplanes in war will be held at Hampton Roads about the first of August in conjunction with the naval maneuvers which will take place then. Not satisfied with the usual method of mimic war, actual ammunition will be used on the air-craft and the naval authorities will have some method of judging as to the accuracy with which the guns now in use in the navy can be relied upon to annihilate an enemy approaching in airships. For this purpose immense kites, made in shape similar to aeroplanes.

The dirigibles will be manned by deputies, representing the crew. The guns of the land and naval fortifications will then be trained on these "attacking parties" and the officials will have some ground for judging just how much they would have to depend upon, were an enemy actually to attack us through the air.

England, Germany and France have made a number of experiments regarding the efficacy of the smaller guns in repelling attacks on an air enemy, but this will be the first time in the world's history that the three and six-inch artillery has been utilized for this purpose. Another unique feature of the tests will be the fact that each vessel taking part in the experiments will be allowed to use its guns according to the ideas of its own captain for the ordnance department has announced its intention of keeping its hands off during these tests and allowing the individual theories of each ship's commander to prevail.

It is thought that in this manner a large amount of new material and methods will be discovered which would otherwise remain unknown. The ship which makes the best record during the tests will be presented with a suitable trophy.

### ALASKA COAL FOR NAVY BASE.

Wickersham Has Bill for Establishment of Naval Reserve.

Washington.—The establishment of a permanent naval coal reserve in Alaska for the use of the federal government in the highest grade of coal-bearing territory is provided for in a resolution introduced by Delegate Wickersham of Alaska. It is designed to meet the agitation over the inroads of private enterprise on the big coal fields in Alaska.

### PRESIDENT TAFT MAKES CHANGES IN FORESTS

Washington.—A number of changes in the national forests of California, Oregon, Idaho and Wyoming, made in the interest of more convenient and economical administration and especially of better protection against fire, have just been announced. These changes have been accomplished by President Taft through a series of proclamations signed at different times in June, but all becoming effective July 1. The proclamations were drawn so as to dovetail into one another, with the result that taken all together they substitute twenty-six national forests for a former seventeen.

In Oregon changes were made in the Cascade, Chelan, Crater, Deschutes, Fremont, Malheur, Oregon, Siskiyou, Umpqua, Wallowa, Whitman and Umatilla forests and the new Minam, Ochoco, Okanogan, Paulina and Santiam forests were established and transfers from the other forests mentioned. Transfers occurred as follows: From the Umpqua to the Cascade, 168,508 acres; from the Cascade to the Santiam, 216,821 acres; to the Deschutes 594,864 acres, and to the Paulina 147,729 acres; from the Chelan to the Okanogan 1,722,820 acres; from the Crater, 9,200 acres to the Klamath, and 61,379 acres to the Paulina; to the Deschutes 174,139 acres from the Oregon; 594,864 acres from the Cascade, and from the Deschutes 699,729 acres to the Ochoco and 497,129 acres to the Paulina; from the Fremont to the Paulina, 411,990 acres; to the Malheur from the Umatilla 178,550 acres; from the Malheur to the Ochoco 119,310 acres; from the Oregon to the Santiam 492,849 acres; to the Deschutes 174,139 acres; from the Siskiyou to the Crater 12,400 acres; to the Siskiyou from the Klamath 352,000 acres; in connection with which were added 13,755 acres to the Siskiyou; from the Umpqua to the Cascade 168,508 acres; to the Paulina 306,149 acres; from the Wallowa to the Minam 448,530 acres; from the Whitman to the Umatilla 273,179 acres; and from the Umatilla to the Malheur 178,550 acres; to the Umatilla from the Whitman 276,170 acres. Eliminations from the forests in Oregon occurred as follows: 320 acres of patented land from the Chelan, 27,931 acres from the Crater, 32,935 acres from the Deschutes, 10,608 acres from the Oregon, 2610 acres from the Siskiyou, and 41,914 acres from the Umpqua. The lands embraced within these eliminations consist of many small bodies lying along the borders of the various forests which upon examination were found to be non-forest lands or patented lands that could well be excluded from the forests.

### NEWS OF PILOT ROCK AND VICINITY

(Special Correspondence.)

Pilot Rock, Ore., July 6.—J. W. Lynch left Saturday evening for Portland on business.

Susie McReynolds who has been working on Frank Byrd's during the summer, returned to her home Sunday evening at Pilot Rock.

timore, Cardinal Gibbons offered up a mass of thanksgiving in honor of the most momentous event of his long career. He has completed fifty years of a successful priesthood and twenty five years as Cardinal and nominal head of the Catholic church in the United States. It was in 1861, that Father Gibbons, after finishing his education for the priesthood at St. Mary's seminary, was ordained at the cathedral here by Archbishop Kenrick. Just twenty-five years later, the red hat was conferred on him, also at the cathedral.

Only a Few Saw Him Ordained. While at the first event there were present in the edifice only a few relatives and friends of Father Gibbons, at the second when the cardinalate was conferred upon him, there were present representatives of the government, hundreds of leading churchmen and a throng of admirers and friends from this and other cities. The cardinal arose at his usual hour, 6 o'clock, and with a single assistant celebrated a low mass, without any musical program and with only the members of the household attending. Religious Celebration in October. Following the great nonsectarian demonstration here in the cardinal's honor on June 6, in which President Taft and other high government officials participated, the religious celebration will be held at the cathedral next October.

### A Golden Wedding.

means that man and wife have lived to a good old age and consequently have kept healthy. The best way to keep healthy is to see that your liver does its duty 365 days out of 365. The only way to do this is to keep Ballard's Herbina in the house and take it whenever your liver gets inactive. 50c per bottle. A. C. Koepfen & Bros.

is interested and should know about the wonderful MARVEL Whirling Spray. The new Vaginal Sprays. Best—most convenient. It cleanses instantly.

Ask your druggist for it. If he cannot supply the MARVEL, accept no other. It is a small stamp for illustrated book—sealed. It gives full particulars and directions invaluable to ladies. MARVEL CO., 44 East 23d Street, New York

### Terrible Suffering

Eczema All Over Baby's Body. "When my baby was four months old his face broke out with eczema, and at sixteen months of age, his face, hands and arms were in a dreadful state. The eczema spread all over his body. We had to put a mask or cloth over his face and tie up his hands. Finally we gave him Hood's Sarsaparilla and in a few months he was entirely cured. Today he is a healthy boy." Mrs. Inez Lewis, Barine, Maine.

Hood's Sarsaparilla cures blood diseases and builds up the system. Get it today in usual liquid form or chocolate tablets called Sarsatabs.
