

## HOME OF FARMER DESTROYED BY FIRE

(Special Correspondence.)

Athens, Ore., July 15.—A. L. Swaggart, one of the wheat barons of this vicinity, lost his fine farm house Thursday by fire. The dwelling house was an entire loss together with the outhouses. But the timely and prompt action of some of the neighbors saved all of the household goods or nearly all. The buildings are an entire loss as there was little insurance. This is the second fire in this vicinity within a week. A barn belonging to D. C. McIntyre who now lives in Alberta was burned two nights ago and a good span of horses belonging to Burke & Son were burned to death. The origin of both fires is unknown.

### MOTHER'S SEARCH ENDED.

Oklahoma Woman Learns That Long Lost Son Was Killed in Box Car.

St. Louis.—The long search of Mrs. Minnie Grimes of Oklahoma City, for her son, ended in her identification of a photograph of a young man, crushed to death in a box car last April, as that of her missing youth.

Since October 20, 1910, Mrs. Grimes had had no news from the young man, whose name was Floyd McEwan, he being the child of a former marriage. At that time he sent her \$20 from Bakersfield.

Falling to hear from him, she went there, but after picking up one clew after another, followed them in vain. Then on a mere chance, she decided to come to St. Louis.

Pendergrass, Ga.—Mrs. Della Long, of this place, in a recent letter, says: "For five or six years I suffered agonies with womanly troubles. Often, I couldn't sit up more than a few minutes at a time, and if I stood on my feet long, I would faint. I took Cardui, and it helped me immediately. Now, I can do my work all the time, and don't suffer like I did."

### HARD TACK IS HARD HIT.

#### Stand-by of American Soldiers Is Discarded.

Washington, D. C.—Hard tack, the main part of the ration of the United States soldier from the days of the revolution is no more. It has been banished and hereafter, except on the rarest occasions, will be substituted the new "field bread."

The rare occasions on which hard tack will be used are purely emergency, when an organization is cut off from its supply train or is on a forced march.

In all tales of valor the humble and homely hard tack played a prominent part. It has since the beginning of the country also borne the brunt of many jokes. In the army it has been the cause of desertions, violations of rules and regulations and the cause of men "doing time in the mill" (serving a term in the guard house).

What is hard tack? It is unleavened cracker about three inches square and of about an eighth of an inch in thickness. It is hard, so hard that a trooper can carry it in his saddle bags with horse shoes, horse shoes and a hammer and subject it to the severest jolting while riding at a hard and jolting trot without breaking it. But it is nutritious.

Hard tack is made of flour, salt and water. Yeast as a part of it was never known. The flour, water and salt are mixed together, kneaded stiff, rolled out to proper thickness and then cut into squares. It is then stamped with a perforator and then put into the oven and baked slowly. When it is taken from the oven it is allowed to cool slowly, thus hardening it still more. It is then packed in boxes or barrels.

Hard tack will stand the rigors of any climate. True, much of the hard tack stored in the pyramid of Manila was mouldy, but the mould was only on the outside and could be wiped off with a handkerchief.

The new field bread is a small loaf of good baked bread, containing flour, water, salt and yeast and permitted to rise.

### SLAIN, TO CAUSE RIOTS.

Stepfather of Boy Murdered Arrested; Anti-Semite Plot Uncovered.

Knox, Russia.—Prikobko, a stepfather of Yushchinsky, the boy whose body, horribly mutilated, was found in a cave near here February 28th, was arrested today.

The authorities have confiscated in various towns pamphlets in which the writers sought to inflame racial feeling by ascribing the murder to fanaticism.

The case of Yushchinsky was used by the "Black Hundred" to arouse hostility to the Jews, and a Jewish massacre at Kiev was feared in consequence. It was intimated at the time that the boy's stepfather, who was an anti-Semite, was responsible for the crime.

### CHAUFFEUR IS ARRESTED.

#### Stole Auto Engine, Sold It to Owner of Launch, It Is Alleged.

Redwood City.—George Sterling, a chauffeur of San Francisco, was arrested charged with stealing an engine from the wrecked motor car of George Felton, whose machine was smashed by a train several weeks ago at Menlo Park. It is alleged that the prisoner sold the engine to a launch owner.

Never leave home on a journey without a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed and cannot be obtained when on board the cars or steamships. For sale by all dealers.

### WOMEN'S PLAN SQUELCHED.

#### Los Angeles Suffragettes Barred from Holding Picnics in the Parks.

Los Angeles.—Just when everything was ready and a "doughnut campaign" was about to be launched in favor of votes for women, city officials stepped in and excluded feminine political picnics from the city parks.

The suffragettes are angry, and expressed deep indignation when they learned that the city officials had classed them with political agitators, and as such barred them from the parks.

This action has put an end to the plans of the women, who had arranged to give "Votes for Women" conversations while their guests at the proposed picnics sipped coffee and tea and at doughnuts.

Mrs. Cora Lewis, Mrs. Charles Farwell Edson and other women identified with the suffrage movement protested against the ruling, declaring that they were not political agitators and that votes for women was not even a political subject. But the officials were obdurate, and the doughnut campaign, so far as the city parks are concerned, is taboo.

### OLD HUNTER TRAMPLED TO DEATH BY DONKEYS

John H. Grant of Colusa Horribly Mutilated by Vicious Burros in Trinity.

Weaverville, Calif.—John H. Grant of Colusa, while on a hunting trip, was killed by two donkeys. His body was found and his face was partly eaten off.

The tragedy happened four miles beyond the new state highway, fifty-eight miles from here. The coroner was informed that circumstances pointed to the fact that Grant had

been attacked by the donkeys, which had trampled upon his body.

Grant had two companions on the trip. While they were hunting on Sunday, Grant became separated from the others, at arriving in camp at a reasonable time, his companions hunted for their partner, and found his body on a hillside, with one donkey standing on top of him, nibbling at his face. The body will be packed out to the state highway, four miles, and will be brought here for shipment to Colusa to-morrow evening.
