ASYLUM PLANS TO BE COMPLETED BY AUG.

There are many local people inquiring concerning the commencement of construction work on the branch insane asylum for which the last legislature made an appropriation. For the benefit of these people, Secretary Jack Keefe of the Commercial association recently wrote to Secretary of State Ben W. Dicot, asking the status of the plans. In a letter from that official this morning, Mr. Keefe is informed that the state architect, W. C. Knighton, is now at work on the plans and will have them completed by August 1, immediately after which advertisements for bids will be printed.

MILLIONS IN LAND OPEN.

70,000,000 Acres in Northwest States Ready for Entry Soon. Seattle, Wash.—Seventy million acres of government land, now closed, will be thrown open to entry upon the completion of investigations of fourteen government survey parties now in the field in North and South Dakota, Montana, Wyoming, Idaho, Washington, Oregon, Utah and Colorado, according to W. G. Calvert, government geologist.

Calvert is making a general inspection of work done by the geologists of the survey parties. Calvert said today that this land would be opened by the interior department just as soon as the amount of coal in the land was ascertained.

The coal on these reservations is practically the only thing that has

caused them to be held up until this time.

ANTI-HORSE THIEF CONVENTION IS ON

Arkansas City, Kan., July 19.—While the method involving a rope and a convenient tree is no longer in vogue in dealing with horse thieves in this section, the defenders of the sanctity of property rights in "horse-flesh" are still well organized. Several hundreds of farmers and stockmen met here today in the annual convention of the Anti-Horse Thief association of Kansas and Oklahoma, which represents, it is said, a membership of nearly 50,000. The organization has been so active in dealing with rogues who steal horses that most of them are in prison and the remainder are plum discouraged and have been forced out of the "business."

Now and then, however, some horse disappears, and the association never lets up until the animal is found and the thief placed behind the bars. Aside from the main object of the association, it is prominent in the social activities of the farmers and stockmen of the southwest. The annual conventions are always big affairs, with entertainments galore, and in nearly every community where the association has members there are annual picnics and county gatherings held under its auspices. President Taft was invited to attend the convention here today, but was forced to decline.

New York, July 19.—La Fayette Post G. A. R., of Brooklyn, today adopted resolutions denouncing the blending of the blue and gray battle flags at the Bull Run reunion and declaring that a public burial of the Confederate flag should form part of the ceremony.

Taking Trusses of Bridge Down.

The force of laborers of the Coast Bridge company, which is constructing the new Main street bridge, is today engaged in taking down the trusses of the old bridge. A trestle has been built underneath and the weight of the bridge will rest upon this false work until it is taken out. The steel for the new bridge is expected here about the 25 of the month and after that date, wagon traffic will be diverted to other bridges.

Crazy Man in Woman's Garb.

Garbed in woman's habiliments from picture hat to corset cover, John Sweeney was taken into custody near the rail road bridge this morning by the county officers and is now in the bastille minus the garments in which he has masqueraded so long. He gives many evidences of an unbalanced mind besides his penchant for apparel belonging to another gender, but offers no explanation for his singular preference. Both county and city authorities have been notified many times of women masquerading as men but this is a new experience to them.

Husband Lazy and Worthless.

Flora Dunagan has commenced suit for a divorce from her husband, William Dunagan, alleging in her complaint that for the past two years since they moved to this county from Kentucky, her husband has refused to contribute a cent for the support of herself and one year old child. She further charges him with cruel and inhuman treatment, alleging that he has struck and cursed her many times, falsely accused her of adultery. She is now living with her mother, Rebecca May, her husband having departed for Pocatello on April 1. Besides the decree she asks for custody of the child and the restoration of her maiden name, Flora May.

ATTEMPTED DEATH REVEALS CHILDREN'S SUICIDE PACT

Chattanooga, Tenn.—Attempts of 14-year-old Alma Whaley, a child of the cotton mills, to kill herself by drinking carbolic acid have brought to light the existence of a solemn suicide pact among a number of the small toilers in Knoxville mills.

Alma drank one and one-half drams of the acid and it was all physicians could do to save her.

Later she was visited by Mrs. W. J. Oliver, the wife of the millionaire contractor, and the kindness of the charitable woman drew a confession from the child that she and several other children, utterly weary of their work and appalled by the long cheerless vista before them, decided to die.

"We wanted to die," said the little girl. "We had no time to play or to go anywhere except to the mills and back home. We go to work at 6 and work until six and there's nothing in the future for us but work, and we thought it would be better to die."

Mrs. Oliver will give this child a

long vacation and the incident may serve to lighten the labors of the other mill children.

ALUMNI TO VOTE ON 8 QUESTIONS BY MAIL.

Oregon Agricultural College, Corvallis, Ore.—Eight questions of importance are to be voted upon, through a mail ballot, by the graduates of the Oregon agricultural college, as one part of the general reorganization of the Alumni association.

The plan is to band together more closely the 1200 or more graduates of the institution to make them more actively useful to the state, to the various communities in which they reside, and to their alma mater.

The eight questions upon which ballot is to be taken include matters of general organization, incorporation under papers prepared by Attorneys Y. W. Masters of Portland and Frederick Steiwer of Pendleton, the election of honorary members at annual meetings, the handling of all routine business by the executive committee, the use of the mail vote for all matters of importance, the advance of the dues to \$1, establishment of local branches and the establishment of club rooms in Portland.

GUN WILL SHOOT BEYOND HORIZON

Battleship Will Be Able to Send Projectile Fifteen Miles.

Washington.—A gun that will carry its projectile clear out of sight is the style that is to be placed in the turrets of the new battleships of the New York type. One of these guns has been made at the Washington factory and a dozen others are to follow as rapidly, as the great lathes can turn them out.

The gun has been tried out at the proving ground and has shown that it is without doubt the most powerful naval weapon in the world.

With a muzzle velocity of 2400 feet a second, the shell will have a range of about 14 or 15 miles, consequently it will land far beyond the horizon at extreme elevations. It might hit a ship that the gunners could not see a friend or an enemy, perhaps. Hence the ordnance officers will be unusually careful when ships mounting these great guns go out for target practice.

Chicago, July 19.—Merger of the Chicago & Eastern Illinois and the Evansville & Terre Haute lines which form part of the Frisco system, will be completed this week. Seattle, Wash., July 19.—Nearly half a hundred lodges were represented in the state convention opened here today by the Modern Brotherhood of America. Seattle and Washington state will send a number of delegates to the national convention of the fraternal order, to be held in Denver, Colo., August 8 to 12.

GOVERNOR ACTS AS PORTER.

Pennsylvania's Executive Carries Woman's Valise From the Train.

Harrisburg.—When Governor Tener reached Pittsburgh the other day he gave his grip to a porter and started out of the train. Just ahead of him on the platform was a woman struggling with an old, battered imitation alligator valise of generous size, a baby coach and a lively baby. The governor gravely picked up the antiquated satchel and walked with the woman to the gate, while she pushed the baby coach. Then he turned over the valise and paid the porter a quarter for carrying his own.

HE DRANK 47 LEMONADES.

Thirsty Coach Driver, on a Bet, Causes Pushcart Drouth.

New York.—"Red" Dugan, a coach driver, returned from a funeral on Long Island very parched and stopped in front of Harry Bloomstein's lemonade stand in front of Dave Reiff's barber shop at N. 47 Pitt street. He bought a drink and complained of the small size of the glass. "I could drink forty of them," said he. Bloomstein was incredulous and Reiff, who knew Dugan once won a bet by eating forty bananas, offered to pay for all Dugan would drink if he didn't finish more than forty glasses.

Woman Adopts Her Son.

Chicago.—Mrs. Vernon L. Sawyer, 3201 Parnell avenue, adopted her own son before Judge John E. Owens in the county court.

The boy, Edward, 10 years old, was given in adoption to Edward E. Nason of Hammond, Ind., when one year old, after the death of his father, whose name was Hobson.

M. L. Igoe, attorney, appeared in court and told Judge Owens that Mrs. Sawyer desired to regain her boy and that she was in a position to support him.

Mrs. Sawyer's husband is a ticket agent for the Chicago, Rock Island and Pacific railroad at the Thirty-first street station.

STARTS FIRE WITH GASOLINE; BURNED

(Special Correspondence.)

Echo, Ore., July 19.—The little daughter of E. E. Elder was quite badly burned yesterday in attempting to start the fire with the aid of gasoline. Dr. Dorn was called and the little patient is somewhat easier this morning.

Every body is getting ready for the big harvest. Indicative by the big, broad smile of the local farmer, the wheat is better and the yield is greater per acre than it has been in previous years.

Messrs. George and Lewis have just returned from La Grande. They made a quick trip in the Lewis car.

The extreme hot weather here has caused the fortunate townsmen to hie to the cool of the mountains. Among those who took the early morning train were Mr. and Mrs. L. Scholl, Jr., Misses Eugenie and Ewer Scholl and Miss Opal Callison.

Misses Keeler, Watson and Ward took the early morning train for

Meacham where they intend to camp for a week or ten days.

The genial host of the Echo hotel, Chas. Friedley, along with a jolly crowd of young sports, among whom were Davy Thom, Ed Scrivner, Walter Thornton and Irvy Gaunt returned yesterday from Hildaway Springs, where they have been enjoying a week's outing. They made the trip in Mr. Friedley's big touring car.

Echo looks quite metropolitan these evenings. All the available livery rigs are in evidence and young and old enjoy the cool of the evening by getting out on horseback.

Miss Agnes Donahue is quite sick at the Hotel Hoskins. She is threatened with fever.

Druggist J. Frank Spinning is getting ready for his annual outing. A. W. Tiedeman of Portland, will have charge of his store during his absence.

Mrs. C. P. Bowman was a Pendleton visitor, going per motor.

Never leave home on a journey without a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed and cannot be obtained when on board the cars or steamships. For sale by all dealers.
