## SMYTHE URGES THE RESIDENTS TO HELP

(Continued from page one.)  
kind ever seen in the west. The advertising from last year's show and the knowledge of the enormous expenditure of money and labor in providing the best grounds in the country and a far superior show to that of last year, has already attracted thousands of people who are coming here next September.

**Pais City on Map.**  
It is conservatively predicted that Pendleton never received as much favorable advertising and notice as has come from her "Round-Up." She is again on the map and it is now up to her citizens to keep her there. The eyes of the entire northwest are now watching to see how Pendleton is going to take care of her guests. We must tell them and tell them honestly and frankly, too, just what we can do in the way of accommodations, weeks before the date of the show.

**A Civic Duty.**  
The Pendleton spirit, and her loyalty to maintain and hold the prestige we now enjoy must come forward. It is not a question so much of the money that is to be made from the sale of accommodations as it is to pull off "the biggest show ever," this year; to maintain and perpetuate the great frontier exhibition for years to come; and to demonstrate to the west the kind of fette Pendleton is made of. We can and we must open our homes to the "Round-Up" visitors and bend every effort to make them comfortable while within our city. It will mean that a reasonable charge should be made for meals and bed, and this will necessitate extra trouble and labor, but it is simply up to us to make good. Every loyal Pendletonian should consider the duty we have to perform, the good name of the city to uphold, rather than entirely the money to be made or the labor and trouble that can be avoided. If all do their part, the committees on accommodations will care for every visitor that comes to Pendleton. But the committee, the Commercial club or the officers and directors of the "Round-Up" are helpless and can do very little without this united aid, co-operation and support.

**Beds Are Bought.**  
The most feasible plan for taking care of a large number of guests in the homes, residence district and in fact the business district has been suggested by the purchase of folding beds with woven wire top, supported by spiral springs upon which is a cotton top mattress and a raised headpiece to be used for a pillow. September can be called a summer month and very little bedding is necessary to go upon these folding beds. This can be furnished by each family from the supply now on hand and used only in the late fall, winter and early spring months. In other words, by purchasing a bed at a very low cost every home in Pendleton can, by using their extra bedding, supply good accommodations for one guest at least, and most of our Pendleton

homes can care for many more, probably as high as ten to fifteen visitors.

**Large Number Ordered.**  
The "Round-Up" association has entered into a contract with John Baker, the furniture dealer, by which we are to sell a large number of these folding beds at factory cost. This ridiculously low price was obtained by ordering a large quantity and the loyalty of Mr. Baker to assist the "Round-Up" in every possible way, has enabled the association to offer this as the cheapest method of procuring additional accommodations. The only interest the "Round-Up" association has in disposing of these beds is to assist in every way they possibly can in helping take care of "Round-Up" visitors. They are sold at factory cost and no profit is made. These beds will be ready for delivery between August 15 and September 10, but in order to determine the exact number to purchase from the factory, over and above the number guaranteed, to get the low cost price, orders must be taken within the next few days. Accordingly, the services of Mr. Gay Hayden has been secured and he will go to all Pendleton homes and solicit the number each house

can use. He is doing this solely for the "Round-Up" association, in order that we can supply ample accommodations for all our guests.  
Samples of the folding beds will be on display and can be seen at the John Baker furniture store, Alexander department store, the Peoples Warehouse, C. E. Roosevelt's Boston Store and Ralph Folsom's furniture store.  
**Visitors to Come Recommended.**  
Your earnest and loyal consideration of the accommodation problem is being urged and we believe no better way to handle it than by purchasing these folding beds can be suggested. We will ask all visitors to bring letters of introduction or identification with them, from their local bank, merchant, fraternal or civic organizations so that the residences may be assured of the best class of our visitors. Later and during the "Round-Up" clerks of the accommodation committee will call upon you for a list of rooms and accommodations available for use at headquarters. It is suggested that the uniform price to be charged each for a bed should be one dollar each night—no less—no more.
