This will not be Resisting One Week He Finally known until City Engineer Kimbrell has carefully gone over the Usts, which task will take at least a day,

The two remonstrances are based spon different grounds but both contain the allegation that the proceedings by which the districts were created and the assessments levied were llegal and hence null and void, and the signers of both declare they will resist any effort which the city council or of a company to which a contract for paving is let, may make to collect the assessments levied.

Inequitable and Unlawful,

The Court street remonstrance de clares that the assessment is equitable as well as unlawful and in amplifying the charge of illegality goes on to declare that "the proceedings in respect to the creation of the paving districts, the assessments, the awarding of the contracts-are unlawful, irregular and without authority of law and are void" and further that such proceedings are in violaof the constitution of the state of Oregon and of the United States.

Expense Not Justified, Besides the charge of illegality, the Alta street remonstrance cites that the class of buildings and future prospects of the street do not warrant the attending expense" and declares that in many instances the cost of improvement is equal to 50 per cent of tion of the Lloyd George speech, the present market value of the property taxed. It states that the part of COAST WEATHER BREAKS Alta street from Johnson to street will not be used for business purposes in the next ten years, nor
