No Foundation to Rumor.
There has been a rumor circulated around the street for the past week that Gus La Fontaine would take over the management of the Quella restaurant on the first of August. That there is no foundation to the report has been proven by the fact that the present managers are still very much on the job. Furthermore, they claim their business is gaining and they have no intention of making any change.

HERMISTON WATER QUESTION MUDDLED

MIXUP BROUGHT TO LIGHT AT A MASS MEETING

Matter of Issuing Bonds to Be Voted on Next Monday. With Every Prospect of Defeat to Be Followed by Another Election Later.

(Special Correspondence.)
Hermiston, Ore., Aug. 2.—A large number were in attendance last evening at the mass meeting which was called by E. P. Dodd, president of the Hermiston Commercial club for the purpose of looking over the plans and specifications of the water system, which the people will vote on next Monday.

Mr. Dodd opened the meeting and acted as chairman. G. H. Uphogrove, secretary of the Commercial club, acting as secretary. City Recorder McKenzie was also present with the maps and drawings.

A discussion took place among the property owners in regard to the water system, the main objection seemed to be the 15,000 feet of 2-inch pipe which the plans called for, and also the location of the pumping station, which the plans show is to be in the center of the city, on the triangle piece of ground next the O. W. R. & N. railroad tracks. Mr. W. H. Skinner objected to this for the reason that it was so close to the business center and to the church that it would not be desirable on account of the noise and would not look well in the business district of the city.

City Engineer Walter Hinkle was called on several times to give his opinion, as was also City Attorney Warner. Robert Allen stated that he was of the opinion that the city council had "railroaded" the measures, as all three had been voted on at one time instead of each separate. The four measures are: The bonds for a water system, not to exceed \$25,000, for the construction of a water system, the second being an amendment which would authorize the city council to issue bonds not to exceed \$4000 for the purchase of a city park and to condemn property for this purpose; the third being to limit the indebtedness to be incurred for the acquisition of any public utility, together with the existing bonded indebtedness to fifteen per centum of the assessed value of all real and personal property in this city.

Mr. Allen stated that the council had voted on all of these at one vote of aye and nay, and therefore he considered that the water system had been railroaded.

Mr. Reid stated that he was at the council at the time of the voting and that this was correct.

Mr. Thomas Campbell stated that if this was the case he did not think the proceedings were legal and that it would be hard to dispose of the bonds when Mr. W. H. Skinner made the motion that the proposed amendment be let go by default and that another be drafted. The city attorney stated however that as this was now advertised it would necessarily have to come to a vote of the people.

It is now the opinion of a great many that the entire amendment will be voted down on next Monday and that another plan will be voted on in the near future.

Big Snake Attracted Much Attention. Moultrie, Ga.—This community is not very long on snake stories, but a mammoth reptile of the rattler variety was brought to town by a negro named Isaiah White, residing several miles north of the city.

His snakeship was discovered while Williams was clearing some new land. He measured 7 feet 11 inches and had the rattles intact, a number having been broken off in the assault by the ally large rattler and it was easy to discover that he was an old settler on account of his enormous "wrist measure" and the dinginess of his skin.

REFUSES TO TESTIFY FOR CHILDREN'S SAKE

Vallire Pleads Guilty and is Sentenced for Shooting His Wife.

New Orleans.—"Rather than divulge that which I know would cast a stigma of dishonor upon my children I would serve the rest of my life in the penitentiary."

These are the words of Anthony Vallire, 50 years old, and a veteran of the Spanish-American war, just before receiving sentence in the criminal district court for shooting his wife. Vallire pleaded guilty and was sentenced to serve two years in the penitentiary.

After living together thirty-three years, Vallire and his wife recently separated and several weeks ago he shot Mrs. Vallire and one of his daughters on the street and took several shots at the former, slightly wounding her.

Whitaker, the former chief of the New Orleans police department, in the latter's trial on heinous charges involving little girls, was sentenced to serve one year in the state penitentiary on a perjury conviction.

At the trial of Mrs. McCrocklin, Miss May Ragusa, who was also indicted on a perjury charge growing out of the Whitaker trial, testified that Mrs. McCrocklin told her she dearly loved Whitaker, and that the latter's brothers had promised to take her to Virginia if Whitaker was convicted.

San Francisco.—Charles E. Serevan, a wealthy florist, who has been out on \$5000 bail on a charge preferred by his daughter, has been missing from his home at 553 Brunswick street for five days.

Louis La Place and Henry McGrath, detectives, went to serve a second warrant on Serevan the complainants being the relatives of a girl who made charges similar to the ones preferred by his daughter. The detectives learned that Serevan had already disappeared.

Members of his family expressed the opinion that he had either committed suicide or fled from the country.

Another Dash for "Scotty"

Remo, Nev., Aug. 2.—"Death Valley Scotty," who has startled every city in the country with his "Coal Oil Johnny" exploits, is said to be preparing for another spectacular dash across the continent in a special train, similar to the one which first made him a national figure. After this final dash, Scotty says he intends to settle down and be a domesticated omelet.

The source of his apparently inexhaustible supply of money, Scotty says, is a rich gold ledge in the mountains, which he enjoys all by his lonesome. Recently the bad man from Death Valley promised his friends that he would reveal the location of his gold mine this month.

Detroit, Aug. 2.—James Flaherty of Philadelphia, was today chosen as the head of the Knights of Columbus. It is claimed that the convention is full of politics.

WOULD MAKE PARK OF RAILROAD LOTS

If a move started by Secretary Jack Keefe of the Commercial club can be carried out the vacant blocks adjoining the O. W. R. & N. depot and tracks on the north will be converted into a park or commons and used as a resting place by the traveling public and transient people within the city.

At the meeting of the Commercial club last evening Mr. Keefe said that a few days ago he had talked with Superintendent Bolhaus upon the subject of parking the vacant lots and he says the railroad man expressed a willingness to see the improvement made. He also intimated that the railroad might co-operate in the work to the extent of filling the tract where such filling is necessary.

After the subject had been discussed at some length by club members present it was decided to make a further investigation of the matter to ascertain the exact position of the railroad company in the matter. The secretary was also instructed to confer with ladies of the civic club regarding plans they may have for the beautification of the land adjoining the depot.

In advising the improvement of the vacant blocks Secretary Keefe called attention to the fact that at present there is no public parking of any sort in Pendleton and that the need of open air resting places is great.
