A pretty wedding of much local interest occurred Wednesday forenoon at 11 o'clock when Miss Celestine, daughter of Major and Mrs. Lee Moorhouse became the bride of Mr. Adolph

Schaefer. No invitations were issued for the wedding, but many friends of the couple gathered within the Church of the Redeemer. The ceremony was performed by Rev. Charles Quinney, rector of the church, and the ring ceremony was used. Mrs. Gilbert W. Phelps played the wedding march. Following the wedding a breakfast was served at the Moorhouse home on Water street, to which a few friends were invited. Aside from the local relatives of the newly married couple the guests were Mr. Albert Schaefer of Walla Walla, Judge and Mrs. G. W. Phelps, Mrs. Leona Thompson and the Rev. and Mrs. Charles Quinney. Mr. and Mrs. Schaefer left for Seattle Wednesday afternoon and from that city they take the ocean trip to San Francisco. They will be at home to friends at 501 Water street after September 1.

Cuts and bruises may be healed in about one-third the time required by the usual treatment by applying Chamberlain's Liniment. It is an antiseptic and causes such injuries to heal without maturation. This liniment also relieves soreness of the muscles and rheumatic pains. For sale by all dealers.

**Cholera in France.**—Several well-defined cases of Asiatic cholera have appeared in the department of Herault, with one death. The disease has been traced to fruit imported from Italy. The health authorities do not think there is any danger of the disease spreading.

**GAS CYCLONES ON SUN ARE CAUSE OF "SPOTS"**

U. of C. Professor Says Heat Wave Not Due to Them.

San Francisco.—What is a sun-spot?

"Merely a whirlpool of gases, not unlike our cyclones," declares Professor W. F. Meyer of the department of astronomy at the University of California. Professor Meyer gave his views on sun-spots in a lecture to his class in astronomy at the Students' observatory.

According to Professor Meyer, the best authorities now attribute sun-spots to the rotation of the sun on its axis. He said:

"This fact has been established beyond a doubt by the use of the spectroscope. These spots are, in fact, merely whirlpools of gases which, because of cooling in ascending, assume a darker color than surrounding gases, although the spots are brighter than any artificial light we can produce.

"In movement sunspots are similar to our cyclones, and are confined to a belt of forty-five degrees in either side of the sun's equator. In size they average from 500 to 10,000 miles in diameter. In duration they live

from a few hours to two or three months. In recurrence they come by periods, the maximum coming every eleven years.

"At the present time we are passing through the minimum sun spot period. The recent heat wave which swept the east cannot be traced to the sun spots, for there has been only an occasional one all summer, lasting as long as a day. Neither has rain anything to do with sun-spots, although we do know there is a relation of sun-spots to terrestrial magnetic storms, and magnetic needles have been much disturbed during their maximum occurrence.

**ANCIENT DAUGHTER OF THE STATE IS DEAD**

San Luis Obispo, Cal.—Closing a life extending over nearly a century of California history, death claimed Mrs. Basilia Higuera, who for many years had been distinguished as the state's oldest native daughter, Mrs. Higuera was 96 years old, having been born at Monterey in 1815.

She was a member of one of the old Spanish families in the days "before the gringos came," and still prominent and influential in this section. Mrs. Higuera took an active interest in affairs about her until the illness which caused her death and which was accompanied by a general breakdown from old age came upon her. Her health began to fail a few months ago following the death of a son.

When it was given out by her doctors that she could not recover, children of many generations were summoned from far and near to her bedside. Married when she was but 12 years of age, Mrs. Higuera gave birth to twins a year later, one of whom, a daughter, survives her. She was the mother of fifteen children, nine of whom are living.

Sixty-nine grandchildren were born to her, forty-five being still alive while sixty great grandchildren and three great great grandchildren are numbered among the mourners.

Mrs. Higuera's husband, after whom Higuera street in this city is named, died many years ago.

**Divorcee Kills Insistent Intruder.**

Fairfield, Ill.—Mrs. Rudolph Holman, a divorcee of Cisne, near here, shot and killed "Bud" Sheburn, a stock buyer, while he, according to the woman, was trying to get in her house. Mrs. Holman is the mother of three children. Sheburn is survived by a widow and several children.

An ordinary case of diarrhoea can, as a rule, be cured by a single dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. This remedy has no superior for bowel complaints. For sale by all dealers.

**LAZY FISH SAVE LIVES.**

Anglers Move and Landslide Comes Down.

Davenport, Wash.—The fish would not bite at that particular point in the Spokane river so they moved. County Auditor J. W. Brislaw went up stream a few steps, while his brother, John Brislaw of Spokane, district horticultural inspector, waded a few yards in the opposite direction.

Hardly had each invitingly cast his line to the trout, when with a deafening roar a large pine tree suddenly slid with an avalanche of earth into the river, where a moment before the two brothers, despairing of a catch, had stood.

Separated by the slide, each believing the other to have been caught, they ran to the scene, where after the dust had cleared they stood facing each other. The tree on its way down the raging stream nearly caught another of the party, August Witt, deputy county clerk, who, warned of its approach by C. A. Pettyjohn, city solicitor of Davenport, barely had time to wade ashore before the trunk swept by.

**WHAT SAVED HER LIFE**

**Mrs. Martin Tells About a Painful Experience that Might Have Ended Seriously.**

Rivesville, W. Va.—Mrs. Dora Martin, in a letter from Rivesville, writes: "For three years, I suffered with womanly troubles, and had pains in my back and side. I was nervous and could not sleep at night.

The doctor could not help me. He said I would have to be operated on before I could get better. I thought I would try using Cardui.

Now, I am entirely well. I am sure Cardui saved my life. I will never be without Cardui in my home. I recommend it to my friends."

For fifty years, Cardui has been relieving pain and distress caused by womanly trouble. It will surely help you. It goes to the spot—relieves the trouble—relieves the symptoms, and drives away the cause.

If you suffer from any symptoms of womanly trouble, take Cardui. Your druggist sells and recommends it. Get a bottle from him today.

N. B.—Write for Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent in plain wrapper, on request.
