

S.S.S. NO HARMFUL MINERALS PURELY VEGETABLE

S.S.S. is the only remedy that can be used with perfect safety in the treatment of Contagious Blood Poison, and with the assurance that a lasting cure will result. There are certain mineral medicines which will temporarily remove the external symptoms of Contagious Blood Poison, but when the treatment is left off the disease always returns in worse form, and the delicate tissues of the stomach and bowels are usually injured by these strong minerals, and frequently stomach trouble, chronic dyspepsia, and mercurial Rheumatism are added to the destructive blood poison. S.S.S., made entirely of non-injurious roots, herbs and barks of recognized curative and tonic value, removes every particle of the virus from the circulation, and by enriching and strengthening the blood, cures the disease permanently. S.S.S. does not hide or cover up the symptoms, but removes them by first eliminating the cause. Home Treatment Book and any medical advice free. S.S.S. is sold at drug stores.

Sacramento Wins Two.
San Francisco, Aug. 21.—Sacramento twice defeated San Francisco here yesterday, both games being characterized by heavy hitting and fast fielding. The morning score was 9 to 4, and the afternoon score 3 to 2. In the opening match Sacramento gathered 15 hits and San Francisco 14. Gaddy allowed two runs and four hits in two innings, and was replaced by Fitzgerald. Mahning allowed five runs and 10 hits in seven innings.

Sacramento Wins Two.

party of Nevada, and is probable candidate for governor in 1914. As an enthusiast counts he is the youngest student of the university and has entered upon his self-imposed task with peculiar interest and zest. Bartlett desires to become proficient in general chemistry, mineralogy, geology and mining and will spend four hours each day on University Hill.

DOG UNDERSTANDS SIGNALS USED BY RAILROADS
Guards Section of Southern Pacific Track and Reports Danger.

San Francisco—Can a dog tell green from red when displayed on a switch alongside the track of a railroad, and can it learn the significance and importance of the green and red signals as applied to railroading? H. W. Sheridan, superintendent of the Sacramento division of the Southern Pacific company, says that it can, and Sheridan has a mass of evidence to prove his assertion.

Sheridan secured his evidence recently while conducting an efficiency test about 100 miles north of Sacramento, Calif. With several assistants he changed the light on one of the switches from green to red, then waited to see if the crew of the next train would observe the wrong light and stop the train before it reached the switch.

The dog began to bark as soon as the red light was shown in place of the green. It ran around the signal for several minutes and then to the quarters of the section foreman, a half mile away. Shortly after the foreman appeared with a lantern and a shotgun, led by the dog, and Sheridan and his assistants had a difficult time in explaining the red light to the satisfaction of both the dog and its master.

These efficiency tests are conducted throughout the year for the purpose of keeping train and engine men on the alert. After a crew has run over the same line day after day with mishap, they, in common with other mortals, are likely to become careless and fail to observe a danger signal at a critical moment. Such an oversight is fraught with danger that makes one shudder to think of it—a hundred lives might be snuffed out in the twinkling of an eye—should a train or engine fail to observe a signal. To guard against such a contingency the Southern Pacific company has 21 efficiency tests, ranging from the changing of the color of signal lights and extinguishing lights entirely to the placing of fuses and torpedoes on the track. Failure to observe any of these signals means most severe discipline for the offender. Last year the Southern Pacific made 7228 of these tests and only in 41 cases did the crew fail to observe the signal, giving a percentage of 99.42 percent.

The dog that caused Sheridan's temporary discomfiture, knows the significance of every light, according to the section foreman owning it, and walks a certain stretch of track every day with its master. It is possible that the animal could be sent out along the track alone and would be competent to report a light out altogether, or at least the wrong one burning.

TO SAVE MILLIONS ON CARRYING MAILS
Radical Readjustment in Pay of Railways Favored by Hitchcock.

Washington.—Radical readjustment of the methods of computing the pay of railways for transporting the mails, which will effect an annual saving of approximately \$9,000,000, was recommended to congress by Postmaster General Hitchcock.

Mr. Hitchcock proposes to effect such saving by paying the railroads on the basis of cost with 6 per cent profit. The plan provides that all railroads shall report annually to the postmaster general the expenses incurred in carrying the mails in order that the department may determine the cost to the railways and a fair rate of profit.

U. P. BULLPENS REPAIRED.
Cheyenne Stockade being Fixed Up in Anticipation of Strike.

Cheyenne.—The Union Pacific Railroad company is quietly remodeling what is known locally as its "bullpens" here, apparently in anticipation of a strike.

Seven years ago the company built a stockade in which strikebreakers were cared for during the strike, which lasted eleven months. The company has refused to grant the demands of its local union employees, and 700 men are expected to walk out soon.

SEALS BY MILLION FOUND.
Discovery Reported to Congressional Investigating Committee.

Washington.—Discovery of a million fur seals, believed to have been once part of the Pribilof seal herd on barren Arctic isles, was reported to the House committee which is investigating charges of illegal seal killing. Representative Hammond of Minnesota submitted the final report to him by Charles W. Holdeman of Coeur d'Alene, Idaho, an Arctic explorer and zoologist.

QUAKERS TO EAT OREGON APPLES

Portland, Ore., Aug. 21.—Big Oregon apples will be distributed at the Pittsburg Land Show, October 12-25, through the efforts of the Northwest Fruit Exchange and the Oregon Development League. The Exchange will contribute a car load of fine apples and the League will attend to their free distribution.

Space has been taken at the Land Show by the League and an information bureau will be maintained there. Literature descriptive of the whole state will be handed out to the show visitors and representatives of the Northwest will be on hand to answer questions about this section of the country. Each community in the state should forward literature to the Portland Commercial Club, so it can be sent on to Pittsburg.

This land show will be one of the important avenues for reaching colonists for the Pacific Northwest. Located as it is where the three states of West Virginia, Ohio and Pennsylvania corner, the show attracts a great many farmers from this whole territory and the exhibits of what the West can do agriculturally will prove an inducement to move out here and occupy our vacant lands.

The Pittsburg Land Show has become one of the big events of the kind in the country. It has proved its usefulness by previous shows and the one this fall promises to be bigger and better than any ever before held. On that account the Oregon Development League has arranged for space and the Northwestern Fruit Exchange has generously decided to provide a car of splendid fruit for free distribution.

There is not much doubt that the fine Oregon apples will have a big effect in attracting home seekers to this corner of the map.

SOCIAL WAR IS AVERTED.

Newport Smart Set Feared Mrs. Ogden Mills Had Begun Strife.

Newport, R. I.—When it became known in the cottage settlement that Mrs. Ogden Mills had sent out cards for a dance for a certain date, society was intensely aroused.

That is the night an entertainment is to be given at the Casino Theatre by Maude Wetmore and Mrs. Lerillard Spencer, Jr.

The Mills home was called on the telephone. The butler said Mrs. Mills was in New York. Miss Wetmore and Mrs. Spencer were apprised of the situation. Then smilingly the much excited society women were informed Mrs. Mills' dance would not start until midnight. Then peace reigned.

THE GREATEST SUCCESSFUL CURE OF ANY CHRONIC DISEASE GIVEN UP BY PHYSICIANS.

To the Public—I am glad to relate to the public that Dr. L. Ching Wo of Walla Walla, Wash., has cured my daughter of asthma and catarrh in the head and nose, which she had been afflicted with since a little child, and as I had many doctors and none gave her any relief until she went with her husband to Walla Walla three years ago, and he took her to the Chinese Dr., L. Ching Wo, and he gave her treatment for four months and she is entirely well. So when I went to visit my daughter last winter, 1910, she requested me to go and see the Chinese Dr., but I told her it was no use as I had been doctoring for years with our doctors and they told me that my case was hopeless as I had

flowing kidneys and never could be cured as my age would not permit me having an operation now that I was 66 years old, but my daughter kept on insisting until I went just to please her, not that I had any faith in the treatment at all. So when I went he told me that he could cure me, so I told him to fix up the medicine and I would try it. So the result is I am at home again in Victor after having gone to Cal. for my health, and I can say that I can do more work now than half of the young women in town and I sleep all night and have a fine appetite and am very thankful that I had the opportunity of meeting Dr. L. Ching Wo, and am glad to recommend his wonderful medicine to any one who is sick, as I took three months' treatment and am relieved of my troubles. I am truly yours,

MRS. L. G. WITHERS, Victor, Mont.

We receive testimonials daily from our patients who have been cured. If you want to be cured, come to see us, or if unable to come, write, enclosing two cent stamp for symptom blank. Address,

York & York Chinese Doctors CAN POSITIVELY CURE YOU

Those who are suffering from diseases which many other doctors have pronounced incurable, now have relief in sight. York & York, the famous Chinese doctors, are now located in Walla Walla. These men, after years of study and research in China, were granted diplomas by the Emperor, to pursue their practice of medicine.

For centuries the Chinese have been acknowledged leaders in the practice of medicine, and many wealthy people annually go to that country in search of relief for ailments which doctors of this country have pronounced incurable. York & York use nothing but powerful roots and herbs of demonstrated medical value. These roots and herbs act gently on the system in direct contrast to medicines usually given. They can be consulted without cost. Those residing out of the city can send for symptom blanks and a free diagnosis will be given.
