NEWS OF THE NORTHWEST

Arrested for White Slavery.
Joseph, Ore.—W. E. Bishop of Walla Walla was placed under arrest here under the instructions of the United States marshal at Walla Walla charged with white slavery.

Fire Destroys Oregon Jail.
La Granda, Ore.—A fire supposed to be of incendiary origin destroyed the frame jail at North Powder. A new concrete fire proof jail will be built immediately.

Fined \$10 for Killing Man.
Port Townsend, Wash.—John Rogstad, the burger who on August 5, shot and killed Dr. Bryson Muescott in the Olympic mountains back of Brannon, mistaking him for a cougar, pleaded guilty to assault in the second degree and was fined \$10 and costs.

Toppenish Parrot Causes Suit.
Toppenish, Wash.—Ownership of a parrot is to be decided by Justice Goodrich in a replevin case that has been started by John McKune. The parrot has been in the possession of Walter Lindsey and his wife, and McKune claims that it is his personal property.

Over-estimate Willbur Crops.
Willbur, Wash.—Definite reports from Lincoln county wheat growers do not confirm the early estimates of an enormous wheat yield, although the field will be between 29 and 39 bushels to the acre. Some report yields of over 39 bushels an acre and of No. 1 quality. Grain cutting in this vicinity will be finished the last of next week.

Old Stack Fire Blazes Anew.
Vollmer, Idaho.—While hastening to the assistance of men endeavoring to subdue a fire in an adjoining field Charles Williams, who was working on a threshing crew on the George Stebbins place, ran through the remains of an old straw stack which had been burned early last spring and upon returning discovered the stack ablaze, the fire having smoldered under the heavy coating of ashes for several months, breaking out afresh when Williams broke through the crust and admitted the air.

Kills Bear With a Club.
North Yakima, Wash.—William and J. J. Wiley of the Antanum, while driving their cattle over the hills recently captured a good sized bear with the aid only of their dogs and a piece of rope. The bear broke from them and started up the hill, so he was shot again by J. J. Wiley who gave chase on horseback. When the bear got down the hill the dogs held up the chase and finally cornered him in the brush when William came up with the rope, tied the bear and dispatched him with a club.

Sheep of England date their creation from 1865.

HOSTETTER'S STOMACH BITTERS

TOO TICKLISH FOR ARMY.

Farmer Gets Hysterical When Measured and Officers Reject Him.
Columbus, Ohio.—He was "too ticklish" and therefore could not join the army.

Such was the plight of Christian Johnson, a young farmer of 22 years, who came to Columbus and went to the recruiting station to be enlisted as a soldier. He looked good to the officers and all went well till it came time to measure him. Every time the officer's hand touched the young man he almost went into hysterics laughing, squirming and giggling at infinitum.

"What's the matter?" he was asked.
"I'm so ticklish," was the answer and it proved so true that it was impossible to complete the measurements, and he was sent back to the ancestral farm, three miles north of Columbus, with instructions to calm his nerves ere he tries to break into military services.

Helen Taft Tennis Star.

Magnolia, Mass.—Miss Helen Taft, the president's daughter, was the star in the women's doubles tennis tournament here when she and her partner, Miss Harrie Curtis, defeated Miss F. Woodmanson, and Mrs. Allyn. They had to work hard for the first set, 7-5, but the second was easier at 6-1. Miss Taft's service was unique. The gallery was surprised to see her serve with her left hand, whereas all the rest of her game is played with her right.

Miss Taft Played a Consistent and at Times Brilliant Game.

She did more than her half of the work and won several of the deciding points at critical times.

GOVERNORS TO PLAN NEEDED LEGISLATION

Annual Conference of State Executives at Spring Lake, N. J., Next Month Will Open Campaign for Certain Reforms.

Spring Lake, N. J.—Plans for the annual conference of governors of the states of the union to be held here September 12 to 15, were made public after a consultation by Governor Wilson of New Jersey, chairman of the committee on arrangements; William George Jordan of New York, secretary of the last conference and former Governor J. Granklin Fort, who is at the head of the entertainment committee. The other members of the arrangements committee are Governor Aram J. Pothier of Rhode Island and Governor William H. Mann of Virginia.

Employers' liability, inheritance tax, fixing of interstate rates, public utilities and prison labor will be the principal topics discussed in the five days' gathering. It is expected that thirty-seven governors will attend, which is four more than the number which attended that called by President Roosevelt in 1907 at the white house. There will be but two notable absentees, Governors Johnson of California and Eberhard of Minnesota, both of whom are detained at home by state business. On the opening day Governor Woodrow Wilson will make an address of welcome to which Governor Joseph M. Carey of Wyoming will respond. Governor Augustus E. Wilson of Kentucky will make the opening address on "Possibilities of the Governors' Congress," and the only other papers scheduled for the day are two by Governors Edwin L. Norris of Montana and by Emmett O'Neal of Alabama, whose subject will be "Strengthening the power of Executives." In the evening Governor and Mrs. Wilson will give a reception for the visitors at the state cottage on the camp ground at Sea Girt. One hundred and thirty excursion tickets were sold at Corvallis Sunday morning for Newport.

ASTORIA PAYS DUE HOMAGE TO SALMON

Astoria, Ore., Aug. 28.—This week's program of the Astoria centennial celebration provides for due recognition of the salmon, the fish which made Astoria famous and prosperous.

Representatives of the salmon industry from all over the Pacific North west and Alaska are here today for the big Fisheries Congress. Thousands of salmon boats are assembled in the harbor. For ages the salmon has found its favorite spawning grounds in the Columbia river. More than 3,000 fishing craft make this city their home port, and the fish canneries provide employment for a considerable portion of the population. The salmon caught here average about twenty pounds in weight, although occasionally fish are caught weighing as high as seventy pounds.

SHOOTS 18,000 FEET HIGH.

New Naval Gun Sends Shell Into Upper Air.

Washington.—After shooting a shell 18,000 feet into the air, closer to the skies than an aeroplane has ever flown, experiments with the new naval gun for use against airships were temporarily ended at the Indian Head proving grounds. It was announced that both the new weapon and its carriage had proved eminent satisfactory.

Fifty rounds were fired in today's tests. The maximum range of 18,000 feet was reached when the gun was elevated at an angle of 85 degrees. The shot flashed accurately for 30,000 feet. Beyond that distance it lost its original trajectory and was affected by the air currents, falling into the Potomac 1,500 feet from a spot where it had been reckoned it would drop.

NO. 1'S GHOST HAUNTS WIDOW WHO MARRIES

Coshonton, O.—After making all windows fast and locking the doors of their cottage, Walter Carnes and his wife have gone into camp on the river bank for the rest of the summer because, they declare, Mrs. Carnes is being haunted by the ghost of her former husband, Simon Fisher. Five members of the family attest the story. Simon Fisher, much older than his wife, died last March, and on his deathbed exacted a promise from her that she would not marry Carnes, whom he is said to have hated.

In less than a month the woman married Carnes and, according to her story, her former husband has "dogged" her footsteps ever since. She and Carnes and her three children all declare that the last night they occupied the cottage Fisher appeared before them, seemingly in the flesh, attired in his grave clothes, pointed his long finger at her and then seemed to walk right through her and vanish.

"CURE ME," BARKS THE DOG.

Injured Animal Goes to Hospital to Have Bones Set.
New York.—A small dog hobbled into the yard of Bellevue Hospital when Dr. J. C. Carmer was in front of his office. The dog stopped, held up a right leg and whined dismally. Dr. Carmer picked up the animal and at once detected a compound fracture of the right foreleg.

The animal was carried into the reception room, where Miss McKenna and Miss Bates, trained nurses, prepared splints and a plaster cast. Dr. Carmer and Dr. Rutledge, night superintendent, set the bones, placed the splints and covered them with plaster. If ever a dog barked "Thank you," it was that one. And his gratitude was plain again when a nurse set a platter of milk before him. The dog will be kept at the hospital by the medical staff. On the

record he is down as "Splints, address and family unknown."

'GLAD TO SEE YOU, KING.' 'LIL ARTH' TO MANUEL

Jack Johnson and Deposed Monarch Shake Hands While Crowd Cheers.

London.—"Glad to see you, King," said Jack Johnson as he hid the delicate hand of former King Manuel of Portugal in his huge gloved championship fist.

The meeting between the exiled monarch and the negro champion took place at Earl's Court, where Johnson is to fight Bombarier Wells October 2d.

A great crowd surged about the champion when he appeared. Former King Manuel pushed through the throng with an aide de camp and introduced himself. The crowd cheered when the men smiled and exchanged greetings. Manuel told Johnson he was glad to meet him and would be on hand to witness his fight with Wells.

ICE TRUST HEAD DOES NOT LIKE BEING THE ICE MAN

New York.—The president of the company usually referred to as the Ice Trust answers the familiar query "How would you like to be the ice man?" by asserting that you wouldn't like it a bit. According to his plaint the ice business is beset by many difficulties and is conducted at a loss for half the year while the profits are confined entirely to the four summer months.

Furthermore, he asserts, the fortunes of the ice company are in the hands of the men who dispose its products from door to door. If the wagon man knows how to "jolly" the cook he may dispose of ice in large and profitable quantities, but if he

is so unfortunate as to offend the family potentate the company is almost certain to lose the patronage of the household altogether.

From the tenor of President Oler's remarks it is evident that the supply of successful "jollies" is far below the demand in the ice trade. There is a suspicion, however, that in making his remarks the president was setting an example to his men by himself extending a shrewd "jolly" to the public.

FALLING GUN CAUSES DEATH.

Terre Haute Railway Messenger Killed by Accidental Discharge of Revolver.

Bedford, Ind.—F. S. Macey of Terre Haute, express messenger on the Southeastern line, was instantly killed at Williams, Ind. He was unloading ice at the station when a revolver he carried fell from his holster, the bullet taking effect in his stomach, killing him instantly.

Will Recognize Haytian Government

Port Au Prince, Hayti.—The final steps toward the recognition of the new government were taken when the American naval commandant paid official calls upon President Leonote and Foreign Minister Leyer. The latter will return the calls tomorrow.

INNOCENT CONVICT GOES HOME

Served Twenty Years for Crime He Did Not Commit.

New York.—Andrew Toth, the Pittsburg steel mill hand, who served twenty years in prison for a murder he did not commit and was pardoned when the real murderer made a dying confession, called for his home in Hungary to pass his declining years with his wife in his old home. Andrew Carnegie has given him a life pension of \$40 a month. Toth was a steerage passenger on the steamer Kronprinzessin Cecilie.

WHISKY DRINKERS IN UNITED STATES MAKE NEW RECORD

Louisville, Ky.—In the last twelve months the consumption of liquors

broke all records and the people of the United States consumed over 8,000,000 gallons more of whiskey and over 112,000,000 gallons more of beer in the fiscal year ending June 30, 1911, than they did in the fiscal year ending June 30, 1910, according to the official figures of R. E. Cabell, United States commissioner of internal revenue.

The highest previous consumption of distilled spirits was for the year 1907. The slump that followed that year continued until 1909 and then took an upward turn to the present year.

MARION CRAWFORD LEFT \$18,000

Novelist's Estate Divided Among Wife and Four Children.

New York.—The estate of F. Marion Crawford, the novelist who died at Sorrento, Italy, April 9, 1909, is appraised in a report filed here today by the state controller. The estate is valued at \$48,000 and is divided among the author's widow and his four children. Mr. Crawford owned little property in this country outside of the copyrights in his numerous books.

AFTER MRS. RUSSELL SAGE

St. Paul.—Mrs. Russell Sage will be requested by Attorney General Simpson to pay an inheritance tax on all her Minnesota lands held under contracts of sale. It is believed that the tax will amount to nearly \$500,000.

BLOOD STANDS STILL

Piles Can't Be Cured Until Circulation Is Restored.

It is useless to try to cure piles by operating or use of salves or suppositories—as long as the blood is stagnant in the lower bowel, new tumors will continue to form. Clear the blood—free the circulation. Then piles will leave for good. A successful, scientific internal remedy is Dr. Leonard's Hem-Roid, sold under guarantee by Pendleton Drug Co and druggists everywhere. Hem-Roid does its work thoroughly. \$1 for 24 days' treatment. Dr. Leonard Co., Station 5, Buffalo, N. Y. Write for booklet.
