MADERO MUSTERING FORCE TO SECURE PRESIDENCY

Huachuca, Ariz., Aug. 25.—Bearing alleged orders from Francisco Madero, for retaining all of his former soldiers, Earl Bower, late captain of sharpshooters in the Mexican Insurrection army, is here today with alarming reports regarding the political situation in Mexico. He said that he is to remuster his command and report immediately to Hermosillo, because Madero is reported to be alarmed over the progress that has been made toward the presidency of Mexico by General Reyes. It is possible that the election will be held at the point of bayonets.

BOY ELOPER IS SPANKED.

Points Gun at Father of Girl and Disappears After Being Disciplined.

San Bernardino.—After having attempted in vain to elope with Tessie Bowman, a year his junior, Ralph Terenary, 14 years old, leveled a revolver at her father and was soundly spanked as the result, and is missing. It was thought he had run away from home alone. Ralph paid much attention to Tessie, the daughter of A. R. Bowman, a cattle man, for a long time. They finally decided to elope. Tessie's father followed her, Ralph pointed a revolver at him. The cattleman then turned the youngest over his knee, administered a sound spanking and took his daughter home.

MURDERED MILLIONAIRE WAS HUMAN PERVERT

New York, Aug. 25.—Unprintable testimony, tending to show that William Jackson, the aged millionaire who was murdered by seventeen year old Paul Geidel, was a human pervert, was given today in the trial of the youthful murderer. Jackson had given the boy numerous presents and money and the boy claims he had gone to his room to secure other money which Jackson had promised him, when the tragedy occurred.

SUSPECTED OF MURDERING HIS INFANT STEP-SON

Palo Alto, Calif., Aug. 25.—J. F. Bristow, of this city, has been placed under arrest by the authorities, and will be held pending an investigation into the death of his seven month old step-son, George Partington, who died as the result of acid poisoning. Bristow declares that the baby swallowed the poison by accident, but his wife and the authorities do not believe that a child as young as the wee victim, could do such a thing.

Commits Suicide.

Taylorville, Ky., Aug. 25.—Samuel Johnson, aged 75, yesterday turned the ancient cap and ball pistol he had carried in the civil war, upon himself. The leaden ball plowed through his head from right to left lodging under the bone of the left temple. Surgeons removed it and the aged veteran still lives.

Steam hammer was invented by James Nasmyth in 1838.

FISHER THINKS WELL OF OREGON PLAN.

Cordova, Alaska, Aug. 25.—"I am keeping my mind open to impressions, but I regard the Oregon plan as distinctly one to be considered," said Secretary of the department of the interior, regarding the development of Alaskan coal fields by the government.

Race Prejudice in North.

Boston, Aug. 25.—That race prejudice, one confined largely to the South, is rapidly becoming worse in the northern than in the southern states is the declaration of influential negroes in attendance at the fourth annual meeting of the National Independent League, convened today in the Twelfth Baptist church.

The recent brutal burning of a negro in a Pennsylvania town has aroused the leaders of the race more than similar crimes in the South. The object of the league is to organize and train colored citizens to use their ballots to secure all the rights of citizenship guaranteed under the constitution, including the right of trial by jury for those charged with crime.

The meeting will continue to Wednesday, when public closing exercises will be held in Faneuil Hall.

Labor Leaders Hopeful.

Chicago, Ill., Aug. 25.—Labor leaders in this city, who are watching the progress on the Pacific coast of the federated employes of the Southern Pacific railroad, today take a hopeful view of the situation and that a strike can be averted. They think that Mr. Gruttschmitt has become impressed with the strength of the federated system and will decide that the demands of the shopmen are not as excessive as they might be.

Bluejackets Killed.

Washington, Aug. 25.—William Creech and William Mickey, seamen on the battleship Ohio, were killed today on board ship, by becoming entangled in heavy chains.

Gomper's in Seattle.

Seattle, Wash., Aug. 25.—Samuel Gomper, president of the Federation of Labor, will deliver an address here tonight on the usurpation of authority by the judiciary.

FINE FISHING WITH GUNS.

Pitchforks and Garden Rakes Also Capture Big Fellows.

Rehoboth, Del.—Hooks and lines and nets have been discarded for catching fish along the Rehoboth beach since the discovery several days ago of hundreds of monster drumfish running in schools close to the shore. Guns and pitchforks and even garden rakes are being used, and large numbers of the big fish are being captured by these means.

The big fish are plainly seen from the beach, many of them coming in within a few feet of the shore from which the gunners can shoot the big fellows and then wade out and get them.

At Indian River inlet a large school of the fish entered a small pool and before they could get away men with pitchforks had waded in and speared eleven of them weighing from thirty-five to fifteen pounds each. Off the life-saving station Walter Elliott saw a big one in evident distress, and, jumping into the water he managed to seize it by the tail and turn it toward the shore, finally landing the big fish on the beach.

A cottager saw the fish close to the shore and running down the beach with a garden rake, he succeeded in stunning it until he could drag it ashore.

AMERICAN GREEKS DONATE TO AID COUNTRY'S NAVY

Request of Embassy for Funds to Build Battleship Meets With Ready Response.

Chicago, Ill.—There will no longer be any reason for Greece to bend the suppliant knee.

Chicago Greeks have come to the rescue and from the profits of barter in the yellow banana and crisp peanut have contributed several thousand dollars to a fund that is to buy their native country a battleship.

Spyro Matsoukas, a Greek poet, who is touring the United States and receiving subscriptions to the fund for the battleship, announced that his Chicago countrymen had contributed more than those of any other city and

that the amount needed is now on hand.

Most of the money, he says, has come from those of his countrymen who are engaged in the humbler occupations, although the more influential Greeks have responded freely.

As he has accomplished the purpose for which he came to this country the poet will leave America within a few days, returning by way of where he will distribute a separate fund for the relief of the insurrection victims, which he is collecting.

NAVY OFFICERS INDIGNANT.
Cruiser Holds Torpedo Practice in Buzzard's Bay Without Permit.
Washington.—The action of the German cruiser Bremen in holding torpedo exercises in Buzzard's bay within the three-mile limit without permission from this government is regarded by high officers of the navy here as a breach of international etiquette and a fit subject for a protest to Germany.
The matter, however, they declare, is largely a "state Department affair, and the officials of that department are uncommunicative on the subject except to say that this government was advised by Germany of the start of the ship, but that no permission for practice exercises was asked.
Had permission been asked, it was pointed out, it undoubtedly would have been granted.

JOHN D. REPAIRS HIS HOME.
Tarrytown, N. Y.—The work of remodeling the big Pacantico Hills home of John D. Rockefeller, which is now under way here, will cost \$1,000,000 and will not be completed for more than a year. The alterations will give ten new guest chambers of the most modern and luxurious character.
The rooms, which will thus cost \$100,000 each, will be placed on two upper floors.
It will require the expenditure of \$1,000,000 to make the building capable of absorbing the new apartments without destroying the symmetry of the structure.

SNAKE SQUEEZES BOY INTO INSENSIBILITY
Norfolk, Conn.—Attacked by a large black snake, while berrying in a remote section of the eastern part of this town, George Nash, 15 years old, was squeezed into insensibility before aid reached him in response to his cries. When found by John Mahoney, on whose farm he worked, the lad was unconscious. The snake had disappeared in the bushes at Mahoney's approach. Nash says he did not see the reptile until it had begun to wrap itself about him.
