SPEAKER OF HOUSE WANTS REPUBLICAN NOMINATION

Many Others Also in List of Aspirants —Burgess, Barrett and Wilson of Umatilla County Are Named.

John P. Rusk, speaker of the house of representatives during last winter's legislative session and one of the most prominent progressive republicans of eastern Oregon, has announced his candidacy for the republican nomination for congressman from the newly created eastern Oregon district.

An informal announcement of his candidacy was made in Portland Saturday while en route home from an outing at the coast. The announcement caused little surprise, as Rusk has long been looked upon as a prospective candidate for congress and incidentally as a formidable aspirant.

Aside from Speaker Rusk there are many other would-be seekers of the newly created job of congressman from this district. The following are mentioned as having aspirations along that line:

Umatilla County—J. N. Burgess, state senator, of Pendleton; C. A. Barrett, state senator, of Athena, and S. F. Wilson, lawyer, of Athena, and Wasco—N. J. Sinnott, state senator; B. R. Butler, ex-circuit judge of Gilliam, Sherman and Wheeler; W. W.

Wilson, district attorney, and M. A. Moody, ex-congressman, all of The Dalles.

Baker—Charles A. Johns, ex-mayor, and J. N. Hart, ex-state senator, both of Baker.

Union—George T. Cochran, water commissioner, and F. S. Ivanhoe, district attorney, both of La Grande.

Malheur—W. H. Brooke, state representative, of Ontario.

Morrow—T. J. Mahoney, state representative and author of the bill giving eastern Oregon a separate representative in congress.

Grant—Otis Patterson of Canyon City.

Lake—W. Lair Thompson, state representative, of Lakeview.

There are three candidates in sight already for the democratic nomination in the second district, as follows: W. M. Peterson, chairman of the Umatilla county democratic central committee of Pendleton; Claude C. McCulloch, state senator; of Baker, and Turner Oliver, state senator of La Grande.

The struggle lasted more than an hour.

REFUSES FOOD TO CHEAT GALLOWS

Hopper, Who Murdered Grace Lyons on Lake Michigan Tells Tragic Story.

Grand Rapids, Mich.—Determined, he says to cheat imprisonment, Charles Hopper of Chicago, who on Saturday night murdered Daisy Watts also known as Grace Lyons, of Chicago, by throwing her off a steamer in Lake Michigan, has refused to touch food or drink offered to him in the county jail at Grand Haven.

The tragedy is one of the few murders committed on government inland waters in years. Officials said last night that a charge of murder would be placed against Hopper in the Grand Rapids federal court.

The murder discloses the trag end of a life misspent in Chinese resorts in Chicago by the daughter of a prominent Grand Rapids family, according to the confession Hopper made. He declared he committed the crime to prevent the woman returning to the life of the underworld. She, however, was apparently fleeing Hopper to return to her relatives in Michigan.

Hopper said he first met the woman about three years ago and fell in love with her, but she refused to marry him and they separated. Six months ago, he said, he met her in a Halstead street Chinese resort. According to his story, she then accepted his offer of marriage, and he took her from the place and they lived together until recently. A week ago she disappeared and he traced her to the same Chinese resort, where he found her smoking opium with 10 Chinese, he said.

She left the place with him, but they quarreled soon afterwards and on Saturday she left. He traced her to the boat and boarded it. Another scene resulted and the crime was committed.

JILTED: KILLS WRONG GIRL.

Tragedy of Errors Enacted at Kentucky Church.

London, Ky.—Reports have just been received of a tragedy of errors enacted at a country church near Oakley, Ky., eight miles north of here. Worshipers leaving after the service were startled by two shots, followed, after an interval by a third.

It was ascertained that Bert Allen had shot and seriously wounded Miss Cristy Hensley and her escort, Will Haley, sitting under the hills. Gains, who previously had jilted him and his cousin, Ed Allen, of whom he was jealous. When he discovered his mistake he blew out his own brains. A note was found in his pocket indicating that he had intended to kill the girl and his rival.

AERIAL TORPEDO BOATS.

British War Department Adopts New Device to Make War Impossible.

London.—The widespread public criticism of the English war department's lack of progressiveness in the matter of aeronautics has had the result of quickening that body into a fit of energy that bids fair to add several innovations to the familiar modes of attack and defense by air.

The latest scheme is the construction of a torpedo boat with wings, or not to confuse the reader, an aeroplane capable of carrying a torpedo. The naval advisory committee on aeronautics has the matter in hand, and has set about the construction of a model. The machine will be driven, in the first instance, by the propeller of the torpedo, thus effecting a great economy in weight.

When the torpedo is released the aeroplane will, it is believed, require only a low velocity to keep it up and this will be supplied by switching a supplementary engine, possible of the compressed air turbine type. It is expected that the first machine will be ready for trial within a year.

WHALES CHAPERON BIG LINER TO AMBROSE CHANNEL.

New York.—A school of whale chaperoned the giant liner Minnewaska into port from London, and only deserted the ship when she entered Ambrose channel. The whales swam up to the steamer forty miles east of the lights and from there in dispersed themselves alongside the vessel for some time. The whales spouted and sounded, but disappeared when the Minnewaska came up to the channel entrance.

Chinese Students Arrive.

Honolulu, Aug. 29.—The steamer Persia arrived today with 72 Chinese students on board, bound for American universities. The expense of their American education will be defrayed from the returned boxer indemnity fund. Two Chinese young women are among the party.

PIGEONS PHOTOGRAPHERS.

German Army Corps Trained to Take Pictures in Flight.

Berlin.—The newest idea in military reconnaissance is being tried with elaborate experiments under the direction of the German authorities. Pigeons are being trained as photographers for the purpose of flying them over the enemy's positions and taking photographs.

Dr. Neubrover, the inventor, has made small cameras, which he fixes on birds' breasts with braces; these pass under the birds' wings and buckle across the back. The apparatus is so arranged that a pigeon flying at the rate of sixty-three miles an hour can take eight photographs during the period of flight. The first pigeon tried revolted but many are now trained to carry cameras, and are producing excellent results. The newspaper cartoonists are amusing themselves and the public by drawing pictures of pigeons wearing the German army uniform.

RUNS AWAY FROM \$120,000 FORTUNE.

Utica, N. Y.—If circumstantial evidence or corroborative facts are to be relied upon Charles M. A. Radmer, aged twenty-four, formerly of Troy, and for the last week a resident of Utica, ran away from a fortune of \$120,000 when he boarded a freight train in the Utica yards to make his way to Buffalo.

The first intimation received of the matter was in a Troy dispatch, which said that Charles M. A. Radmer had

fallen heir to a fortune of \$120,000 left him by his maternal grandmother. The dispatch further stated that Radmer had been confined in a North Troy hospital with tuberculosis up to July 26th, when he disappeared from the city. Radmer came to Utica and secured employment in a hotel, but ill-health forced him to give up his job.

Thursday night he hopped a freight train, saying he was going into the peach country near Buffalo and hoped to find work there. He was in a very weak condition from the ravages of tuberculosis and there the trail breaks.

Probable heir to \$120,000, this transient resident has landed in the fruit country beyond Buffalo and may be at this time earning his living picking peaches for a man he could buy and sell were he to realize his property. Radmer had told fellow employes at the local hotel where he worked several days that he expected shortly to come into possession of a fortune from his grandmother. A lawyer from Troy is here today in quest of the missing heir.
