## FRUITS AND POSIES

**ELECTRICITY GROWN**

**Cantaloupes Grown in Nine Weeks; Daffodils Bloom in Twenty-Six Hours.**

Chicago.—Proof that flowers and vegetables may be forced by electricity was displayed by Dr. George Stutz and William F. Stahl of Evanston, who have been experimenting with the process for which high claims have been made in England.

The two Evanston men exhibited 350 cantaloupes which were grown in nine weeks on a plot of ground 20 by 25 feet.

Experiments also were made with daffodils, which were brought from the bud to the bloom in twenty-six hours, whereas the natural blooming period is eight days.

Two electric wires were laid beneath the earth at the roots of the plants and two were stretched above them. The tests have been made at the nursery of Richard F. Golde and they have been watched with interest by residents of Evanston, who possess gardens and conservatories.

## VICIOUS BULLOCK SUICIDES.

**Kills Self After Fierce Battle With Its Master.**

Pittsburg, Pa.—When John and Daniel Hillard, brothers, left their home in Turtle Creek they cautioned the maid to chain the bulldog, but she went to bed and left the animal unchained. The brothers returned home at midnight and no sooner had they come into the house than the dog leaped at them.

Unable to coax the animal off, one brother took up a chair, the other a broom, and together they gave battle to the animal in the dimly-lighted room. The dog chased them over the entire first floor, all three leaping tables, chairs, stove and piano. After more than 20 minutes of fearful attack with the maid too frightened to call aid, the men were able to unlock a door and rush upstairs, the dog snapping behind.

The battle ended when a broomstick was stabbed down the dog's throat. The dog then rushed into the cellar and butted repeatedly against the wall, finally killing itself. John Hillard is badly lacerated.

## GIVES AWAY \$300 HAT.

**Wealthy Woman Presents Long Lost Creation to Maid.**

Los Angeles, Cal.—Mrs. William Deal Ellsworth of Newport, R. I., whose husband died two years ago, arrived at the Van Nuys hotel. At the same hotel arrived a hat belonging to Mrs. Ellsworth, which has followed her around the world.

Mrs. Ellsworth purchased the hat, a turban, with white paradise feathers, for \$300 in Paris a year ago, and after ordering some alterations, she left for Moscow, Russia, to join a friend to accompany her on a tour of the world.

The hat did not arrive until after they had left on a return trip to Paris. It was ordered sent to Paris, but was delayed in transportation, and Mrs. Ellsworth left for London with her friend again before it arrived. In this way the hat followed her to New York, Newport, Chicago, New Orleans, Winnipeg and finally here.

Though never worn, the hat is now out of style. She called for one of the maids at the hotel and made her a present of the Paris creation.

## FISH, TOE AND RING UNITE.

**First Loses and Second Finds a Wedding Ringlet.**

Pottstown, Pa.—A fish that was too small to take home and a girl with a Cinderella foot figured very oddly in the loss and recovery of a wedding ring that Mrs. Harvey Wilson, wife of a Pottstown undertaker, dropped in Saylor's mill dam over in Chester county several days ago.

The ring slipped from Mrs. Wilson's finger when she tossed a diminutive bass back into the dam. The water was partly drawn off in a vain effort to find it, and then the offering of a reward for the missing jewelry made the juveniles of the neighborhood get busy.

While a party of them were wading the dam today a 14-year-old girl felt something slip over one of her toes. She imagined that it was a snake and gave a scream, but an examination showed that it was Mrs. Wilson's lost wedding ring and hurried to town with it to receive the reward.

## WORKING ON CANAL ENTRANCE.

**Full Width and Half or Required Depth Reached on Atlantic Side.**

Washington, D. C.—The Panama canal has just been extended to its full width and about half of its complete depth at the Atlantic entrance. Here the bottom of the water way will be 500 feet wide and the depth will be 41 feet.

From deep water as far inland as the old French canal, or about five and a half miles, the entrance has been widened to the required 500 feet and a depth of at least 29 feet has been reached over this distance. A fleet of dredges is now clawing away at the bed of rock to excavate the remaining 21 feet.

This width of 500 feet and depth of 41 feet ultimately will extend from deep water to the Gatun locks, a distance of seven miles. The minimum width of the canal will be 300 feet in Culebra cut and the maximum width 1000 feet in Batun lake. The usable width of the locks of the canal, however, will be only 110 feet.

## CUBAN EDITOR KILLS HIS RIVAL.

**Attacked With Cane, Mendoza Draws Gun on Fernandez.**

Havana.—Ernesto Mendoza, editor of El Combate, made good the name of his paper by killing Rodolfo Fernandez, editor of the Guines de Rumbó. Both papers are published weekly at Guines, about 40 miles from Havana. The men met in a street of that town and Fernandez attacked Mendoza with a cane. The latter drew his revolver and shot Fernandez. The trouble arose over a newspaper controversy.

## Storm Does Damage.

Portland, Ore., Sept. 12.—Reports today show that last night an electrical storm damaged fruit and hops in some districts near here, but did not damage the valley, as a whole. At Atwood two houses struck by lightning and burned. Mrs. Cella was struck but not much hurt at her home near Gervais.

## GOES OVERBOARD FOR RING.

**Sailor Takes Plunge in Harbor—Finds it on Main Deck.**

Baltimore, Md.—When Karl Johann Magnusson, able seaman on the United States coast and geodetic survey steamer Bache, lying at the lower Skinner drydock, shifted his wedding ring from the third finger of his left hand to the third finger of his right hand he dropped the little band of gold, and for all he knew it rolled overboard.

The Norwegians have a custom of both husband and wife wearing the wedding ring. Seaman Magnusson is a Norwegian and his good wife is a native of the Norse country. So when the ring dropped from his hands he judged from the comber of the bridge that it went overboard and, holding the ring first and his own life in second consideration, he took a fancy dive into the dark and oily waters of the slip in a frantic endeavor to grasp the ring from the harbor's bottom.

When Magnusson came to the surface sputtering dirty water from his mouth and getting ready for another dive, Surgeon George Merchand, the ship's medical officer, was at the rail, his left hand reaching for Magnusson's collar, and in the right he had the sought-for ring.

Instead of rolling overboard the ring, in the perverse way that rings and lost dimes have, had rolled down to the main deck below, where it glittered while its owner "didd stunts" to get it back.

## SPENDS 34 YEARS IN SILENCE.

**Massachusetts Prisoner Enters Upon 35th Year of Solitary Confinement.**

Boston, Mass.—Jesse Pomeroy, Massachusetts' most famous prisoner, who is serving a life sentence for murder, entered upon his thirty-fifth year of solitary confinement.

Pomeroy entered the state prison when he was 16 years of age. Today he is 51 and has served longer than any other prisoner in solitary confinement in the United States.

While the terms of his sentence require that he shall be kept in solitary confinement as long as he lives, he goes into the yard an hour each day for exercise. This, however, is during the time the rest of the prisoners are in the shops, and he has no communication with any one, not even a guard.

For the thirty-four years her son has never given up the fight to alleviate his condition. She had almost succeeded in winning a commutation for him a few months ago, when all her plans were brought to naught by the discovery of a sharp tool in his cell which the prison officers declare he meant to use in an attempt to escape.
