**Bevies Arm in Fall at Troy.**  
Troy, Idaho.—Mandell Martinson broke from a load of hay Friday and broke his right arm.

**Coyotes Eat Bonita Melons.**  
Bonita, Wash.—G. E. Goundrey trapped a large coyote. The coyotes have been destroying a great many watermelons in this neighborhood.

**A Freidenrich Is Victim.**  
Grangeville, Idaho.—A telegram from Portland Saturday tells of the death of A. Freidenrich of the firm of Alexander & Freidenrich of this place of heart failure.

**Asks \$30,000 for Mine Hurts.**  
Lewiston, Mont.—The case of M. Killen versus The Barnes King Development and Mining company of Kendall came up in court. M. Killen is suing for \$30,000 personal damages for injuries claimed in the mine in 1907.

**Chain Links Cut Throat.**  
White Salmon, Wash.—Charles Hubbard is close to death with his throat cut to the jugular vein. In grubbing stumps on the tract of R. Conklin, north of this place, a chain was passed around the stump. It snapped and four or five links of the chain hit Hubbard, 25 feet away, tearing across his neck like a piece of shrapnel.

**Ship Stock from Enterprise.**  
Enterprise, Ore.—Stock is moving out of Wallowa county for markets. Chandler & Holmes shipped five carloads of Herefords, 3-year-olds, that weighed 1400 pounds. These cattle were raised on bunch grass and were never fed grain. Four carloads of lambs were shipped to the Portland markets and one car of draft horses to Seattle.

**Saloon Ordinance at Freewater.**  
Freewater, Ore.—A petition has been circulated during the last few days asking that a saloon ordinance be introduced in the city council and that the question of the sale of intoxicating liquor be submitted to the

people November 7. At the W. C. T. U. convention in the Congregational church it was stated that a counter petition would be circulated.

**Fight Over Girl Stopped.**  
Lewiston, Idaho.—A fistic duel between J. Carlyle Miller, a paper hanger and painter, and William M. Huddleson, a young farmer from near Lapwai, over a young woman was stopped yesterday by Chief of Police Masters, who arrested both contestants and haled them to the police court, where each was fined \$5 and costs by Judge Erb.

**Silk Hat for Chinaman.**  
Pasco, Wash.—Sing Wong, who has been janitor in Superintendent De-Force's offices of the Northern Pacific for several years, says he has saved several thousand dollars and will leave for China this week. In the local railroad offices a subscription list was started to equip Wong with a silk hat and gold-headed cane.

**Hits Pastor With Dishes.**  
Davenport, Wash.—Myron A. Shelton, a retired preacher and now a homesteader in the Sand flat country, north of Davenport, has filed suit for divorce from Vivian B. Shelton, to whom he was married in Spokane August 29, 1910.

The preacher, in his complaint, avers that his wife has been cruel in her treatment, and at one time struck him over the head with a lot of dishes.

**Log Raft to Pieces.**  
Astoria, Ore.—Pounded by heavy seas the 6,000,000-foot Hammond Lumber company's raft, which grounded on Peacock spit Saturday, went to pieces. The efforts of five vessels, including the Sohomish, Dauntless, Hercules, Ononta and Wallula, to pull the big raft off the bar, proved futile. The logs are now scattered across the bar and far into both the ocean and Columbia river, a menace to shipping. The raft was valued at about \$60,000. Crews of men are at work saving as many of the logs as they can.

As usually treated, a sprained ankle will disable a man for three or four weeks, but by applying Chamberlain's Liniment freely as soon as the injury is received, and observing the directions with each bottle, a cure can be effected in from two to four days. For sale by all dealers.

### CANT WING AIR BATTLESHIP.

**All U. S. Guns Useless, If Enemy Comes Soaring.**  
Washington.—Critical observation of the flights made at College park, this city, by the aviators has confirmed army and navy ordnance experts in the opinion that with the present type of ordnance it would be practically impossible to bring down an aeroplane high in the air and in flight, save by a chance shot.

The musket would be entirely useless, its ranges being only 3000 feet when any considerable elevation is given the weapon.

The only hope of the ordnance experts is the development of the gun on the lines now being made in Germany for uses against aeroplanes only. This gun, of great length, shoots eight six-pound shell three and a half miles but the novel and promising feature is the use of a compound in the shell which leaves a trail of dense black smoke. This is expected to enable the gunners to find the range of an aeroplane.

Bad handwriting is often used to cover a lot of poor orthography.

## MANY TREES GIVEN AS PRIZES TO FRUITGROWERS

Cash Awards Will Amount to Twenty Thousand Dollars.  
Spokane, Wash.—Nursery companies in Washington, Oregon, Montana, Missouri, Nebraska and Iowa have contributed more than \$500 trees to be awarded as premiums in addition to cash prizes and trophies of a total value of \$20,000, at the fourth National Apple Show in Spokane, November 23 to 30. The management has offers of trees from California, Kansas, Idaho and several other states, also from several provinces in the Dominion of Canada.

The heads of the companies express themselves heartily in sympathy with the coming show, saying it is bound to accomplish much good in exploiting the industry, as well as attracting attention to the various districts in the commercial apple belts. One of them says in a letter to the management:

"We are certain that considerable stimulus has been given to the apple industry throughout the northwest in particular and to the business in general over the United States and Canada. We think, too, that the keen competition which has been invited at these shows has resulted in a great deal of good to the growers, as it has caused a more thorough care for the orchards.

"It also has created a desire in the minds of many people to engage in the work of apple growing, which is both profitable and pleasant, and, of course, the nursery men all over the country have benefited thereby. We believe if this show is conducted along the clean lines it has been in the past that much good will follow."

Among the contributors are: Milton, Ore., Nursery company; Carlton, Ore., Nursery company; German nurseries and Seed House, Beatrice, Neb.; Missoula, Mont., Nursery company; the F. W. Meneray Crescent Nursery company, Council Bluffs, Iowa; Quaker Nurseries, Salem, Ore.; Richland, Wash., Nursery company; Sunnyside, Wash., Nursery company; Woodburn, Ore., Nurseries; Stark Brothers' Nurseries and Orchard company, Louisiana, Mo.; Northern Nurseries company, Chewah, Wash.; Vineland Nurseries company, Clarkston, Wash.; Northwest Nursery company, North Yakima, Wash.; Oregon Nursery company, Orenco, Ore.; Yakima Valley Nursery company, Toppenish, Wash.; New Haven, Mo., Nurseries company and Lafayette, Ore., Nursery company.

## RECOVER RING OF MAINE VICTIM

**Class Souvenir of Lieutenant Merritt Found Through Havana Paper.**  
Washington, D. C.—A relic of the wreck of the battleship Maine, the gold class ring of Assistant Engineer Darwin R. Merritt, who lost his life in the explosion of that vessel in Havana harbor thirteen years ago, was recovered at the navy department. Lieutenant Merritt wore the ring when he met his death, and efforts of the army engineers to find it by screening all the debris on the boiler deck were unsuccessful.

A Havana newspaper announced it had come into possession of the ring and would turn it over to the United States authorities. It was brought here by Colonel Black of the engineering board, and will be delivered by the navy to the Rev. W. W. Merritt of Red Oak, Iowa, father of Lieutenant Merritt. The Lieutenant's body has been buried at Red Oak.

These germs cannot be seen by the naked eye, but with a magnifying glass of from 300 to 400 diameters the spores of this hair destroyer may be seen in masses, clinging to the hair.
