

WEATHER REPORT. Fair tonight and Thursday.

COUNTY OFFICIAL PAPER.

VOL. 24

PENDLETON, OREGON, WEDNESDAY, SEPTEMBER 20, 1911.

CITY OFFICIAL PAPER.

NO. 7222

Calling cards, wedding stationery, commercial stationery and job printing to order at the East Oregonian.

STARTLING CHARGES ARE MADE AGAINST ATTORNEY D. W. BAILEY

SECURES \$8,000 FOR LOAN OF \$20, IS CLAIM

Illiterate Mixed Blood Indian is Alleged Victim and Federal Authorities May Be Called Upon to Force Return of Valuable Property

If Attorney Douglas W. Bailey, who was recently under investigation by the Umatilla County Bar association, for alleged unprofessional conduct in connection with the St. Dennis case, persists in his refusal to restore to Julian Picard, a mixed blood Indian, eighty acres of land, which Picard declares were secured by fraud and misrepresentation, he may be called upon to explain to the United States court a certain transaction which appears questionable.

NOT ENOUGH WATER YET SAY COUNCILMEN

Wait While Says Brown. When told this afternoon of expressions by members of the council regarding the Thorn Hollow water supply, J. T. Brown, chairman of the water commission said: "Please ask people to withhold judgment until we have completed our development work. The results so far are very favorable. It looks like we will have an abundance of water and it will be all spring water from the mountains too—not seepage water as some are claiming."

There is far from being enough water at Thorn Hollow springs at this time to meet the needs of the city, according to members of the city council who visited the springs yesterday upon a special investigating trip. "There was a stream of water running about two feet wide and six inches deep," says Councilman Strain. "We all agreed it was far from being enough to supply the needs of the city at this time. We also visited the Shapish springs and, while there is some water there, it appeared to all of us that the supply from the two places would be insufficient to meet the needs of the city."

PASCO HOTEL OWNED BY N. P. DESTROYED

Pasco, Wash., Sept. 20.—Fire originating from a defective flue in the Pasco hotel building, practically destroyed the buildings and contents early yesterday. The building belonged to the Northern Pacific railway and was one of the oldest in town, having been moved here when the railroad company abandoned Ainsworth. The loss on the building is about \$2000 while the contents, belonging to Miss M. Winter, were practically covered by insurance of \$800.

REPORT OF STEEL TRUST REORGANIZATION UNCONFIRMED

New York, Sept. 20.—Judge Gary, chairman of the board of directors of the Steel Trust, today refused to confirm a rumor of late that the Steel corporation directors have decided on a plan of dissolving the concern and reorganizing along the lines laid down in the supreme court decision in the Standard Oil case.

KEEPER OF DISREPUTABLE HOUSE AND BOOTLEGGERS GIVEN HEAVY FINES

It cost Elmer Searcy just \$75 when he was found guilty in police court this morning of keeping an opium den and a bawdy house, \$50 being assessed against him by Judge Fitz Gerald on the first charge and \$25 on the second. Searcy was arrested Sunday night when the special federal officers, assisted by the local police, raided his house on Cottonwood street and found several women smoking opium and a number of inmates engaged in immoral practices. He pleaded not guilty to both charges, but the evidence was too strong against him. Two of the four men arrested for selling liquor to Indians were also convicted in police court, their trials

having been held yesterday afternoon. Frank McSwain and Jeff Brisbois were both pronounced guilty and sentenced to pay \$50 fines or spend 25 days in jail. At present they are both still in jail and, when released, they will probably face federal charges. Roy Wagner and Jim Myers, arrested on the same charge, were dismissed from custody. The federal officers, who came here at the request of Chief of Police Gurdane, are employees of the Indian department and travel all over the Northwest to assist local officers. There are three of them here, Frank Holgate, George L. Miller and Moses, an Indian, who is an invaluable aid.

TWO CONDEMNED MURDERERS FIGHT DUEL; ONE DIES

"The Wolf" California's Most Famous Convict Slays Enemy.

Folsom, Penitentiary, Calif., Sept. 20.—Francisco Quijada, a half-breed Mexican-Yaqui Indian, who was under sentence of death, was stabbed to death last night in the run-around, about "Murderer's Row" by Jake Oppenheimer, another condemned prisoner who is the most famous convict in California and who was known as "The Wolf" owing to his vicious nature.

The men fought a duel, that was the outcome of a long standing feud between them. The turkey had unlocked the doors, to allow them to exercise and to ventilate their cells. Hardly had Quijada stepped from his cell when he hurled a challenge at Oppenheimer for a fight and before he could well defend himself, the latter leaped upon him and stabbed him to death with a sharp pointed steel rod, only a few inches in length, which he had in some manner secured and concealed in his clothing.

Prison authorities claim that they have no knowledge how Oppenheimer secured the steel rod. He afterward stated that he had sharpened the instrument by patiently grinding it against the steel bars of his cell. Oppenheimer states that he is now ready to die, that he has killed his enemy. He started his career of crime, while employed as a messenger boy on the streets of San Francisco. He has killed two other prisoners in the penitentiary and has taken prominent parts in numerous plots against and attacks on the prison guards.

Fearing that there are other feuds within the prison walls, the guards are today unusually alert.

RECIPROCITY CAMPAIGN ENDS

Liberals in Canada Assured of Victory and Treaty With U. S. Certain.

Ottawa, Canada, Sept. 20.—The reciprocity campaign ends tonight and tomorrow the voters of Canada will definitely decide whether Canada and the United States will enter into a free trade agreement. It is believed that there is practically no chance of reciprocity being defeated. The only bets obtainable today are that the majority of the Liberal party will be slightly reduced, which the liberals deny.

The election will be held in 214 out of the 221 constituencies. Three liberals have already been re-elected by acclamation, their strength being such that the conservatives refused to put up men to make the race against them.

Among the Liberals thus re-elected, is Premier Laurier, in East Quebec. Four elections have been deferred, owing to trouble and delay in getting the voters' list into the remote sections of the wilderness country. It is admitted that the closing campaign is the most strenuous political fight that has ever been waged in Canada.

Women Save Webb.

Tacoma, Sept. 20.—In an interview, Governor Oswald West of Oregon, who came to this city to attend the wedding of his niece last night, declared two women and not a poem, caused him to save Jess P. Webb, the Oregon murderer, who was reprieved on the way to the gallows.

"It has been said I was moved to pardon Webb by reading Stanton's poem, 'They Are Hanging Bill Jones.' The truth is Webb's wife and daughter kept on my trail until I felt like a dog. But I've felt right ever since, and that shows I did the right thing. When I saw those women in my office the morning set for the hanging I knew Webb would never swing."

FORMER PUPILS GREET SPEAKER CHAMP CLARK

Lexington Ky., Sept. 20.—One hundred prominent men, most of whom Speaker Champ Clark taught when he was a school master in Anderson county, greeted him when he arrived today at Lawrenceburg, his birthplace. It was Clark's first visit since he left here thirty-three years ago with his family to settle in Missouri. He delivered an address at the fair ground.

PASSENGER LADEN LINER RAMMED BY CRUISER AT SEA

Olympic, World's Largest Ship Narrowly Escapes Being Swamped

London, Sept. 20.—With every berth filled and leaving the English port of Southampton for New York today, the Star liner Olympic which is the largest steamship ever constructed, was rammed by the British cruiser Hawk today and only the immediate action of the captain in heading the crippled human laden craft toward shore and beaching her, prevented what might easily have been the worst marine catastrophe in the history of modern sailing.

The crippled vessel was later towed to the dry docks at Southampton. The Hawk was also badly damaged and it was found necessary to remove her to the dry docks at Portsmouth. Among the passengers on the Olympic were William Astor, the American multi-millionaire, President Brown of the New York Central Railway company, Clarence Mackay, telegraph magnate.

The warship's steel prow struck the Olympic squarely on the star-board quarter. The cargo holds of the liner were quickly flooded. As soon as the cruiser had rammed the liner, the engines were reversed, and the warship succeeded in backing away. The Olympic's steel bulkheads automatically closed, stopping the rush of water, which threatened to swamp the liner and which badly damaged the cargo.

Life-boats were quickly manned and while the passengers were badly frightened, they regained their composure and disbelieved their fears with the assurance from the ship's officers that there was no danger of the vessel sinking.

The ill-fated liner was just starting on her fifth trip across the Atlantic ocean when the accident occurred.

MANUEL'S PLOT IS DISCOVERED

Portugese Republican Government Finds Headquarters of Royalist Conspirators.

Lisbon, Portugal, Sept. 20.—As a result of the discovery of a formidable plot of the Royalists against the new Portuguese republican government, wholesale arrests of alleged conspirators are today being made by the republican authorities and more are expected to follow, including many prominent members of the Royalist party.

Secret service agents of the government located the headquarters of the conspirators at Irmão Castello and confiscated a large quantity of documents of the greatest importance to the republic and which reveal the deep laid plots of the Royalists.

These documents implicate a large number of personal friends and supporters of the deposed King Manuel, against whom the republicans rebelled and overthrew when his infatuation for the actress, Gaby Desilles, led him to many indiscretions.

Officials high in the government charge that King Manuel is encouraging the royalists from his haven in England and, as it was agreed he would be allowed to sojourn in England provided he attempted to ferment no trouble, it is thought likely that he will be given a hint by the British government to find refuge elsewhere.

Act on Strike Soon.

San Francisco, Cal., Sept. 20.—President Requin of the Federation of the Shop Employees of the Harriman Lines, said today that action by the men on the refusal of General Manager Kruttschnitt to recognize the federation probably will be taken this week. Some sort of a recommendation is expected tomorrow or Friday. He said the men are all in favor of a strike.

Reopen Santa Rosa Hearing.

San Francisco, Sept. 20.—Owing to failure of inspectors to bring out testimony on several points concerning the sinking of the steamship Santa Rosa, near Santa Barbara, Supervising Inspector James Bermingham today ordered the reopening of the hearing for September 21. This means that Captain Paria will be tried again.

Barry Wins From Smith.

New York, Sept. 20.—Jimmy Barry of Chicago had an easy time in defeating Jewey Smith of England in a ten-round bout here last night.

SPANIARDS START REVOLUTION TO DETHRONE KING ALFONSO

ALL SECTIONS OF COUNTRY RENT BY DISORDERS

Monarch Convinced His Crown is in Danger, Personally Directs Attempt to Crush Rebellion—Orders Towns Destroyed if Necessary to Restore Order

Madrid, Spain, Sept. 20.—Valencia is today the center of what is believed to be the beginning of a revolution that will, if it meets with the expectations of the leaders, mean the dethronement of King Alfonso and it is also reported that grave disorders are taking place in many other places in widely scattered sections of the country.

Premier Canals today received messages advising him that twenty-five thousand revolutionists are now marching on Valencia, with the view of taking charge of the city and making it the headquarters of the revolutionists. Additional government troops are being hurried to the scene of the reported trouble. The rebels have cut the telegraph and telephone wires and the reports from the turbulent sections are very meagre.

King Alfonso is personally in charge of the work of directing the affairs of the forces that are trying to quell the disturbances before they reach a more serious stage. The young monarch is fully convinced now that his throne is in danger of being snatched from under him.

The King is seriously handicapped by the smallness of his available army. The standing army in Spain, proper-

numbers only seventy thousand men, while the rest of the Spanish forces are doing duty in Morocco.

Before the wire between the capital and Valencia had been destroyed, King Alfonso telegraphed the governor general of that province, saying that the disorders in Alcala and Carcargents, where communes were proclaimed by the enemies of the government, must be crushed, even if it were found necessary to destroy the towns.

A strong force of cavalry is being held in readiness to sweep the streets clean of rioters at the first sign of anti-government demonstrations. The pavements have been sanded to keep the cavalry horses from slipping.

NOW BOOST THE COMMERCIAL CLUB

Now that the Round-Up is over, and that the city of Pendleton is coming into its normal condition again, it is time for us to consider the various large questions that confront us. Pendleton has some very important things to consider and settle, that are far-reaching in their import to the city. It is necessary that every citizen of this city become an active participant in the affairs of the city. It is a matter of civic import that the collective citizenship feel the responsibility of the suffrage.

No great enterprise can be successfully and expeditiously consummated without good organization. It is the essential element in all fields of activity. It is team work that carries away the prize. The great team of Pendleton is and should rightly be the Commercial club. Every male citizen of Pendleton should be an active member of that organization; there is no excuse for his not being so. It should be his first club, one in which as an American citizen he should consider it his duty and privilege to participate.

The Commercial club is not a body of merely business men or taxpayers; it is the general club of all the citizens of Pendleton. In it are discussed from time to time the things that concern all the people of the city, and extends through the county and state. Every professional man, every man in the city who is actively interested in the duties of good citizenship owes it to himself to send in his application at once. All honest citizens are cordially and earnestly invited to join at once.

Pendleton has proved itself splendidly during the recent "Round-Up" and should perpetuate the same spirit through its Commercial club. Other cities, as Medford, have many more members than Pendleton. Medford

SPECIAL TRAIN TOMORROW FOR DERBY DAY AT WALLA WALLA RACE MEET

Under the auspices of the Pendleton Commercial club, a special excursion train will be run to Walla Walla tomorrow forenoon for the purpose of taking the people to Derby Day at the Walla Walla races and incidentally to repay the visit that the people of the Garden City made to Pendleton during the Round-Up. From indications a large crowd will make the trip and with the big program that will be on at the fair there will be plenty of entertainment for them.

had explained the opportunity for securing a special train, it was decided to take such action. On motion of Leon Cohen Thursday was voted as Pendleton day at the Walla Walla fair. Today Secretary J. E. Keefe has been busy listing those who desire to make the trip and it is expected to have more than the desired number by evening. As announced by Jack O'Neil the special will leave Pendleton at 9:30 tomorrow morning and returning it will leave Walla Walla at 9 o'clock in the evening. On the arrival of the train at Walla Walla tomorrow the excursion will be met by the Ruzzi band. The great feature of the races tomorrow will be the \$5000 trot.
