BUZZARD PECKS AT WIRE

Kills Himself and Puts Whole Car System Out of Business.
 Baltimore, Md.--Just because a buzzard or vulture chose to land on one of the towers of the Pennsylvania Water and Power company at Highlandtown, 800 cars of the United Railways stood still and 32,000 passengers fretted for six minutes. Some of them got out and walked the rest of the distance in the rain to their destinations. The buzzard landed on the tower and took a peck at the high power wire. The whole voltage shot through his body, he whirled through the air and came down outside the works, a charred and roasted victim. As soon as he touched the wire he short-circuited the plant. There were one or two sharp flashes and the wheels stopped dead.

Her Hair Grew

That's Why a Thankful Woman Recommends Parisian Sage.
 Tallman & Co. will sell you a fifty cent bottle of PARISIAN SAGE and guarantee it to banish dandruff, stop falling hair and itching scalp, or money back. It's a delightful hair dressing that makes hair lustrous and fascinating.
 "In the spring I was recovering from a severe case of erysipelas, which left me virtually bald on the front of my head and next to my ears. The hair kept coming out rapidly and nothing I used stopped my getting entirely bald, until I used two bottles of PARISIAN SAGE. This tonic made my hair start to grow in and in fact, grew me a good fair amount of hair, and it has entirely stopped my hair falling out. It is with pleasure that I give a public recommendation to PARISIAN SAGE, which I know is a wonder." Mrs. Ella Gilchrist, W. Pitt St., Bedford, Pa.

DANCES COME FROM SLUMS.
 "Turkey Trot" and "Grizzly Hug" Are Denounced.
 New York--That the "Barbary coast" in San Francisco's slums is the source whence many dancing school teachers in this city draw inspirations for the invention of new dances to be taught to their innocent pupils is the charge made by the committee on amusements and vacation resources of working girls, which was active in securing the passage in the legislature of 1910 of the Graubard act for the regulation of dancing schools.
 The warning which has just been sent out by this committee describes such dances as the "turkey trot," the "grizzly hug," "lovers two-step" and "walk-back" in detail and then denounces them as modified varieties and conventional adoptions of a dance which had its origin in disorderly houses, whence it spread first to the

dives and tenement dance halls and thence to a large number of the dance halls of this city.
 Of the various dances complained of by the committee the "turkey trot" is more or less familiar to the patrons of vaudeville houses and musical comedies in this city. It is an attempted simulation of the gait of the gobbler and calls for motions of the body which, the committee declares, renders it dangerous to morals.
 The "grizzly hug" is another adaptation of the same dance, coupled with a more fervent embrace by the dancers.
 "It is through such dances as these" said Mrs. Charles H. Israels, chairman of the committee on amusements "particularly in conjunction with liquor drinking, that girls are now being led astray in the dance halls, which have within the last few years sprung up in every city throughout the country.

"If we cannot stop the teaching of these dances, a practice now common in all but the most select academies and dancing halls, we shall endeavor to have the bureau of licenses step in and revoke the license of the offending schools," declared Mrs. Israels.
 As usually treated, a sprained ankle will disable a man for three or four weeks, but by applying Chamberlain's Liniment freely as soon as the injury is received, and observing the directions with each bottle, a cure can be effected in from two to four days. For sale by all dealers.
