Sacramento	75	94	.447
Los Angeles	73	104	.413

Portland 2, Oakland 2.

Portland, Sept. 22.—B. Ryan was the stellar attraction of the Oakland-Portland game yesterday afternoon and when he broke the tie in the sixth inning by knocking one of Gregory's choicest offerings over the fence, he was acclaimed, not only by the plaudits of the grandstand, but by a shower of silver coins that amounted to about \$20.

Score: R. H. E.

Oakland	2	6	1
Portland	3	9	0

Gregory and Pearce; Seaton and Kuhn.

Angels 2, Fresno 2.

San Francisco, Sept. 22.—San Francisco and Los Angeles battled for 13 innings yesterday afternoon and then the game was called because of darkness, the score being 2 to 2.

DOG DIGS UP DOLLARS.

Canine Proves His Appreciation of New Collar.

Tarrytown, N. Y.—W. A. Towner, prescription clerk in a local drug store, owns a bird dog who is a wonder as a financier.

Mr. Towner went to his home in Brewster and he brought along a new dog collar and chain. The dog was delighted with the presents, and to show its appreciation it ran out in the yard and began digging under an old tree.

Towner watched and was amazed when the dog brought up two silver dollars with its teeth and handed them to him. It was the exact amount he had paid for the collar and chain.

Mr. Towner was puzzled as to where the dog got the money, but remembered that on former visits he used to throw nickels and pennies in the air for the dog to catch. He believes the dog kept some of the change and when it had enough it exchanged the coins in some manner for the two silver dollars.

MILTON FOLK BUSY GOING TO FESTIVALS

(Special Correspondence.) Milton, Ore., Sept. 22.—There is not much doing in this vicinity just now as every one has been busy attending the Round-Up at Pendleton and the fair at Walla Walla.

Claude Steen this week moved his family to Athena where they will live this winter, moving out to their ranch, three miles from Athena, in the spring.

Mrs. W. E. Miller, Mrs. C. P. Collins, Mrs. R. D. Edward and Mrs. J. E. Cheney were Walla Walla visitors at the fair today.

Mrs. A. E. Goddard and four boys left this week for Cameron, Mo., where they will remain.

Postmaster F. E. Wilcox is building a neat cottage at the rear of his residence.

Charles Miller left this week for Corvallis, where he will take a course in electricity.

The little son of R. B. Edwards is reported seriously ill with slight hopes of recovery. They reside at Washuena.

Sam George and Bert Miller have purchased the Milton garage of J. King and will improve and enlarge the business.

The Milton ice plant has been closed for a neat bungalow to F. A. Wormington.

R. A. Carter has let the contract for a neat bungalow to F. A. Wormington.

H. F. Kelley, a Washuena wheat man is reported very ill and on his way to Milton where his parents reside.

Mrs. Ford, who lost her husband several weeks ago, has moved from the ranch, into the Benn cottage on George street.

PROPOSED ROADS ARE REPRESENTATIVE

COMMISSION SO DECLARES IN REPORT

If Governor Calls Special Session of Legislature, Efforts to be Made to Create Public Highway System Along Modern Lines—Four Bills.

Portland, Ore., Sept. 22.—The good roads legislation recently recommended to proposed special session is declared to be thoroughly representative and very necessary if better highways are to be built in this state. The proposed laws were framed by the legislative committee of 33, appointed by Governor West, at a meeting held in Portland September 12 and 13, Dr. Andrew C. Smith being chairman. Four measures and one state bonding act were adopted.

C. T. Prall, president of the State Association for Highway Improvement believes the measures are wise and that they will meet with the approval of everyone when they are understood. He explains the various bills as follows:

No. 1. Providing for a state highway department and a highway commissioner.

No. 2.—Providing for a state highway fund.

No. 3. Providing a method whereby counties may secure state aid.

No. 4.—Providing a bonding act for counties.

The first measure is designed to create and establish a state highway department whose chief officer shall be called the state highway commissioner, who is to be appointed by the governor and hold his office for four years. He is to be thoroughly skilled in scientific road construction and is to have control of all public highways in the state paid for wholly or in part out of the monies of the state. His duties further are to compile statistics, investigate conditions and determine upon suitable methods of road construction adapted to different sections of the state. It is not the intention of this bill to take from county officers the right to construct any roads which are paid for entirely by county funds. It simply provides for a central authority to control all work in connection with highways in which the state has a financial interest.

S.S.S. DRIVES OUT MALARIAL POISONING

Malaria is a disease which gradually destroys the strong, nourishing elements of the blood. When the malarial poison begins to absorb the rich, red corpuscles of the circulation, we see pale, sallow complexions and a general impairment of health. As the blood becomes weaker the appetite fails, digestion is disturbed, chills and slight fever are frequent, and in aggravated cases boils and eruptions break out on the flesh. Malaria is blood poverty, and the only way to cure the trouble is to enrich and purify the circulation. Nothing is equal to S. S. S. as a blood purifier, and it is especially adapted to the cure of malarial troubles because it contains no harmful minerals, and while ridding the system of the malarial germs, S. S. S. builds up the entire constitution by its fine tonic effects. If you are suffering with Malaria begin the use of S. S. S. and rid yourself of this weakening disease. Book on the blood and any medical advice desired sent free to all who write and request it. S. S. S. is sold at drug stores.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

The bill further provides for the appointment of an assistant commissioner who is to be appointed by the state highway commissioner with the approval of the governor. This appointment is to be made only on condition that the work of the department requires it. The highway commissioner is to receive a salary of \$5,000 per annum, and the assistant commissioner if appointed, \$2500 per annum.

For the purpose of carrying out the provisions of this act the sum of \$50,000 or so much thereof as may be necessary, is to be set aside out of funds in the treasury of the state not otherwise appropriated.

The bill creating a state highway fund, provides that the proper officers shall levy a tax of 1.2 mills upon each dollar of the assessed value of all the property in the state. This assessment is to be covered into the state treasury and will provide approximately \$1,000,000 per year. It is further provided that 66 2-3 per cent of all the license tax for motor vehicles shall be paid into the state highway fund.

The appointment of the state highway fund shall be on the basis of 75 per cent of the total fund, to be divided equally among the several counties of the state, to be paid to the county treasurer when said county shall have taken the necessary action to secure said funds. It further provides that the remaining 25 per cent of the highway fund shall be apportioned among the several counties of the state according to their respective area in square miles. The bill further provides that before any apportionment of the state highway fund shall be made to any county, said county must first expend an equal amount of money in the construction of public highways in that county, the work to be done under the supervision of the state highway commissioner. The bill further provides the method by which the county courts and other officers shall avail themselves of the provisions of this act, and further, how said county shall be reimbursed from the state treasury.

The third bill, known as the state aid bill, provides specifically how each county may secure state aid or its apportionment from the state highway fund.

The fourth measure, known as the bonding act, is very brief and is as follows:

"That any county may, by an election called by the county court upon petition of ten per cent of the legal voters computed upon the last registration lists compiled in said county, by a majority of those voting on the question create and issue bonds, warrants, or other evidences of indebtedness or debts for permanent roads or for the construction, maintenance, improvement or repair of the same within said county."

The question of counties bonding themselves for funds was passed at the last election, but the measure was not considered self-acting and this proposed bonding act is in the nature of an enabling act.

In addition to the measures mentioned in detail a recommendation was also made that an initiative measure be prepared for submission to the people at the next general election providing for an issue of 30 year 5 per cent bonds to the extent of \$20,000,000. It is suggested that these bonds be issued at the rate of \$2,000,000 per year covering a period of ten years.

No action was taken in regard to the working of convicts as the committee was disposed to leave this matter in the hands of the governor for the time being.

The bills were the result of a careful research and the best thought of the committee and were adopted by a very large majority. There were not more than four dissenting votes at any one time on any measure.

In These Degenerate Days.

"Huh!" exclaimed the yardstick as it moved rapidly over the bolt of cloth, "you're not all wool."

"That's all right," retorted the bolt of cloth, "you're not a yard long, either."—Chicago Tribune.
